

FOR PROFESSIONAL USE ONLY

Controls many Broadleaf and Creeping weeds in grass lawns. Acts slowly, positively and surely so as to avoid harming beautiful lawns. Economically effective — yet gentle!

SELECTIVALL is excellent for grass lawns; however, St. Augustine, carpet, buffalo and bent grasses may show sensitivity, and in these cases DO NOT recommend MODERN SELECTIVALL.

WEEDS CONTROLLED

- | | |
|---------------|------------------|
| Dandelions | Lambsquarter |
| Wild Garlic | Plantain |
| Wild Onion | Red Clover |
| Red Sorrel | White Clover |
| English Daisy | Common Chickweed |
| Clover | Ragweed |
| Curled Dock | Stritchwort |
| Ground Ivy | Morning Glory |
| Buckthorn | Knotweed |
| Speedwell | Mallow |
| Yarrow | Purslane |

Mouse-ear Chickweed

+ FOR HARDY WEEDS USE HIGHER CONCENTRATIONS IN RIGHT PANEL

CAUTION

Avoid spray drift to susceptible plants: as this product may injure grapes, tomatoes, beans, peas, other vegetables, legumes, ornamentals, etc. (Coarse sprays are less likely to drift.) Because of danger of contamination, do not use same spray equipment for applying insecticides, etc. Do not transport with or store near seeds, fertilizers, insecticides or fungicides. Do not use in or around greenhouses. Avoid contamination of water intended for irrigation or domestic purposes. Store at Temperatures above 32F. If allowed to freeze, thaw and re-mix before using. Consult experimental station or extension service weed specialist for recommendations.

E.P.A. Registration No. 11515-16

ACTIVE INGREDIENTS:

Alkanolamine Salts (of the Ethanol and Isopropanol series) of 2,4-dichlorophenoxyacetic Acid	19.90%
INERT INGREDIENTS	80.10%
2,4-dichlorophenoxyacetic Acid Equivalent	12.87%
2,4-D Acid Equivalent per gallon 1.33 pounds	

CAUTION: KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin, eyes or clothing. Avoid inhaling spray mist. Harmful if swallowed: induce vomiting and call Physician immediately. After using, wash hands and other parts of the body contaminated with concentrate spray or washings.

DO NOT STORE WITH FOODSTUFFS

See Left Panel For Additional Cautions.

DO NOT REUSE EMPTY DRUM

Return To Drum Reconditioner or Destroy By Perforating or Crushing and Burying in a Safe Place.

IMPORTANT

Mow lawn first. Do not apply if rain is forecast within 24 hours, and do not sprinkle for 24 hours following application. Apply when weeds are young, as in Spring or Fall. Do not apply during drought or very hot weather conditions. Do not use on newly seeded areas, or if you want clover in your lawn. Reseed, or replant bare spots 3 to 4 weeks after treatment.

DIRECTIONS

Less Hardy Weeds: Mix 3.7 oz. SELECTIVALL into 3 to 4 gals. water to treat 1,000 sq. ft. (5 qts. SELECTIVALL per acre.)

Hardy Weeds: Mix 4.4 oz. SELECTIVALL into 3 to 4 gals. of water to treat 1,000 sq. ft. (6 qts. SELECTIVALL per acre).

Apply evenly, using a sprayer. Repeat as necessary.

SPRAYERS MUST BE CAREFULLY CLEANED!

Immediately after use flush thoroughly with water. Fill tank with a solution of 1 qt. household ammonia for every 25 gals. of water volume. Spray a small amount through hose and nozzle — Keep the remainder in sprayer 18 to 24 hours. Now, drain tank and flush several times with clear water for tank, hose and nozzle.
