

# INSECTICIDE, PYRETHRIN

## Directions for Use

For Houseflies, Mosquitoes and gnats. If possible, close space to be treated. Release 3 feet from any surface, holding the dispenser above the head. Dispense only for time indicated. USE SPARINGLY. Seven seconds of spraying is ample for each 1,000 cubic feet (10 feet X 10 feet X 10 feet). It is not necessary to spray directly on insects but merely spray into the air since the aerosol will disperse throughout the enclosed space. **FOR USE** in food processing plants, restaurants or other areas where food is prepared or served observe CAUTION BELOW.

## CAUTION

Before using spray in areas where food is prepared or served, **ALL FOOD** should be removed or covered during treatment, **ALL FOOD** processing surfaces should be covered during treatment or thoroughly cleaned before using. When using this product in food processing or serving areas, apply only when the facility is not in operation.
