

This granular product is for dry application on non-cropland where bare ground is desired. It is an effective herbicide for the control of many annual and perennial grasses and weeds. Effects are slow to appear and may not show until the chemical has been carried into the root zone by moisture. The degree of control obtained and length of control will vary with the amount of chemical applied, soil type, rainfall and other conditions. This product is non-corrosive to metals and non-volatile.

IMPORTANT: Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend, because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Do not store near fertilizer, seeds, insecticides or fungicides. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid contact with eyes and skin. Avoid inhalation of powder. Avoid contamination of food and feed. Remove and wash contaminated clothing before reuse.

FIRST AID

In case of skin contact, wash with soap and water. In case of eye contact, flush eyes with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not contaminate water used for irrigation or domestic purposes. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill, or store near heat or open flame.

GRANULAR
Vegetation
and
Weed Killer

IMPORTANT: Do not use on lawns, walks, driveways, tennis courts or similar areas.

ACTIVE INGREDIENT:

Bromacil (5-Bromo-3-sec-butyl-6-methyluracil) 4.00%

INERT INGREDIENTS: 96.00%

Total 100.00%

Only for sale to, use & storage by servicepersons.

CAUTION: KEEP OUT OF REACH OF CHILDREN

See side panel for further cautionary information

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling.

Apply this product just before or during the period of active growth of weeds to be controlled. Moisture is necessary after treatment to carry the chemical into the root zone of weeds. Where dense growth is present results will be improved if vegetation is removed before treatment. Do not apply on frozen ground. Any of the usual spreaders for granular materials should be acceptable for use in applying this product. Be sure to check calibration.

GENERAL WEED CONTROL

For an extended period of time most weeds may be controlled on non-crop-land areas such as railroad and utility rights of way, lumber yards, pole and other storage yards, industrial sites, and tank farms.

To control perennial grasses such as quack grass, bluegrass, smooth bromegrass apply 125 pounds to 250 pounds per acre. For hard to kill species such as Johnson grass, Bermuda grass and nut grass apply 300 pounds to 600 pounds per acre. To control perennial broad leaved weeds such as dock, wild carrot, sheep sorrell, plantain and dandelion, apply 125 pounds to 250 pounds per acre. For hard to kill species such as bouncing bet, spurge, dogbane, goldenrod, daisies and asters, apply 300 pounds to 600 pounds per acre.

To control annual weeds and grasses such as foxtail, crabgrass, cheat grass, wild oats, bromegrass, rye grass, pigweed, ragweed, purslane, wild mustard, cocklebur and lambquarter, apply 37.5 pounds to 125 pounds per acre. Use the higher application rates on those soils with higher organic matter or high carbon levels.

STORAGE AND DISPOSAL

Precautions: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Pesticide Disposal: Pesticide, spray mixture or residue that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Container Disposal: 1. Reseal container and offer for reconditioning or 2. Triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place.

General: Consult federal, state or local disposal authorities for approved alternative procedures.
