

DIRECTIONS

Disinfection

Use at 1 ounce per gallon of water. This product will be effective against *Pseudomonas aeruginosa* PRD-10 at this level. At 1 ounce per gallon of water, this product is fungicidal against pathogenic fungi. For best results, use Adquat as directed above with a cloth or mop and apply to walls, floors and other hard surfaces. For heavy soil or grime matter, a pre-cleaning step is recommended.

Sanitization

Used for sanitization of previously cleaned food equipment or food contact items, limit the level of active quaternaries to 200 ppm (1.4 ounces per 5 gallons of water). No use required at this level.

This product when used on environmental, inanimate, hard surfaces at 1 ounce per gallon of water, is effective against influenza A2, Herpes Simplex, Adenovirus type 2, and Vaccinia viruses.

Use empty container thoroughly with water and discard.

Use empty container thoroughly with water and discard.

Adquat is a concentrated detergent, disinfectant, sanitizer, fungicide and deodorizer. It is specifically designed for institutional use, such as hospitals, nursing homes, and schools, where housekeeping will be of prime importance in controlling the hazard of cross-infection on environmental surfaces.

Adquat is for use on floors, walls and other hard surfaces in hospitals, nursing homes, hotels, public areas, industrial areas and in institutions. It is excellent for operating areas, restrooms, nurseries and food service areas.

When used as directed, Adquat is effective against *Staphylococcus aureus*, *Salmonella choleraesuis* and *Pseudomonas aeruginosa*.
