

AMESCO WATER TREATMENT MICROBIOCIDES

Non-Chain Quaternary - Ammonium Compound Concentrate -
Water Treatment Microbiocide for Building and Industrial Cooling
Towers and Oil Field Water Flood or Silt Water Disposal Systems

Active Ingredient
Polydimethylammonium Chloride
Other Ingredients

**KEEP OUT OF REACH OF CHILDREN
DANGER**

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. For eyes - call a physician. Remove and wash contaminated clothing before reuse.

Do not drink or ingest. Avoid contact with skin. Wash thoroughly with soap and water. Avoid contact with skin. Avoid contact with eyes. Avoid contact with clothing.

Consult your physician in case of any symptoms. In case of any symptoms, consult your physician. Measure against respiratory distress and other symptoms.

See left panel for additional precautionary statements.

EPA Registration No. 17912-2 EPS Establishment No. 17912 Cool

DIRECTIONS FOR USE General Classification

AMESCO WATER TREATMENT MICROBIOCIDES are used to control and prevent the growth of algae, bacteria, and fungi in cooling towers, condenser water, and other industrial water systems. AMESCO WATER TREATMENT MICROBIOCIDES are used to control and prevent the growth of algae, bacteria, and fungi in cooling towers, condenser water, and other industrial water systems.

Recirculating Cooling Towers

For daily use, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. For weekly use, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water. For monthly use, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 30 days to maintain the quality of the water.

For water treatment in cooling towers, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.

For water treatment in condenser water, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.

For water treatment in other industrial water systems, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.

Oil Field Water Flood or Salt Water Disposal Systems

For daily use, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. For weekly use, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. For monthly use, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.

For water treatment in oil field water flood or salt water disposal systems, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.

For water treatment in other industrial water systems, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.

For water treatment in other industrial water systems, add 1/2 ounce of AMESCO WATER TREATMENT MICROBIOCIDES per 100 gallons of water. Repeat the treatment every 14 days to maintain the quality of the water.
