## NUTMEG NC-150

### COMPOSITION

ACCEPTED

NOV 19 1975

UNDER THE FEDERAL INSECTICIDE  
FUNGICIDE AND RODENTICIDE ACT  
FOR ECONOMIC POISON REGISTERED  
UNDER NO. 20375-11

	Percent by weight
<b>ACTIVE INGREDIENTS*</b>	90 percent
Sodium Pentachlorophenate	79 percent
Sodium Salts of Other Chlorophenols	11 percent
<b>INERT INGREDIENTS</b>	10 percent

\*Calculated as Sodium Pentachlorophenate  
(molecular weight 288.3)

## APPLICATION

Nutmeg NC-150 is used to control algal, fungal and bacterial-induced slimes in industrial recirculating water-cooling systems. In a clean system, with no algae or microbial slime growth visible, add 0.2-0.7 lb. Nutmeg NC-150 per 1,000 gallons of water in the system (20-80 ppm. NC-150). Add as a concentrated aqueous solution to the water system. Add an additional 0.2-0.4 lb. Nutmeg NC-150 per 1,000 gallons of water weekly, or as needed. Heavily contaminated systems must be cleaned mechanically, then treated with 0.4-0.7 lb. Nutmeg NC-150 per 1,000 gallons of water in the system. This dose may be repeated as needed to obtain control, then apply 0.2-0.4 lb. Nutmeg NC-150 per 1,000 gallons of water in the system weekly, or as needed. NC-150 should be applied at a point in the system where the product will be uniformly mixed.

## DANGER

**KEEP OUT OF THE REACH OF CHILDREN**

HARMFUL DUST -- CAUSES EYE DAMAGE AND SKIN IRRITATION.

HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN.

Do not get in eyes, on skin or clothing. Wear goggles and rubber gloves when handling. Do not take internally. Do not breathe dust. Wash thoroughly after handling.

**FIRST AID:** In case of eye contact, flush eyes immediately with plenty of water for at least 15 minutes and get medical attention. In case of skin contact, wash with soap and plenty of water. Wash contaminated clothing before re-use.

If material is swallowed, induce vomiting as quickly as possible by tickling back

# APPLICATION

Apply this product to control microbial growth in industrial cooling water or microbial growth within the water system of water in the system. Add an appropriate amount of solution to the water system. A total of 0.2-0.4 lb. Nurmeg NC-150 per 1,000 gallons of water weekly, or as needed. If the system cannot be cleaned mechanically, then treat with 0.2-0.4 lb. Nurmeg NC-150 per 1,000 gallons of water in the system. This dose may be repeated as needed for control, then apply 0.2-0.4 lb. Nurmeg NC-150 per 1,000 gallons of water in the system weekly, or as needed. NC-150 should be applied at a point in the system where the product will be uniformly mixed.

# DANGER

## KEEP OUT OF THE REACH OF CHILDREN

HARMFUL DUST — CAUSES EYE DAMAGE AND SKIN IRRITATION.

HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN.

Do not get in eyes, on skin or clothing. Wear goggles and rubber gloves when handling. Do not take internally. Do not breathe dust. Wash thoroughly after handling.

**FIRST AID:** In case of eye contact, flush eyes immediately with plenty of water for at least 15 minutes and get medical attention. In case of skin contact, wash with soap and plenty of water. Wash contaminated clothing before re-use.

If material is swallowed, induce vomiting as quickly as possible by tickling back of throat with finger, or by giving an emetic such as 2 tablespoons of table salt in a glass of warm water. Call a physician.

**NOTE TO PHYSICIAN:** This product is a metabolic stimulant. Causes hyperthermia. Treat symptomatically.

Do not re-use empty container. Dispose of it by perforating or crushing it and burying it with waste, or burning it. Stay away from smoke or fumes.

This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Apply this product only as specified on this label.
