

ACCEPTED

MAY 28 1986

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 20375-27

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product inconsistent with its labeling. NCC-Biostat™ is designed for use as a sludge solvent and preservative for petroleum fuels. It is intended for use at industrial, utility and commercial sites and in fuels used in vehicular equipment. NCC-Biostat™ should be added to residual fuel at feedrates between 1 gallon per 4,000 gallons of fuel and 1 gallon per 1,000 gallons of fuel. In distillate fuels the normal feedrate is ½ pint for each 250 gallons of fuel. For tanks known to contain large amounts of bacteria, slime or fungi use feedrate of 1 quart for each 250 gallons of fuel.

NCC-Biostat™ is a long lasting broad spectrum bacteriostat and fungistat for the preservation of fuel oils. NCC-Biostat™ is also a highly effective sludge solvent. When used as directed, NCC-Biostat™ reduces the incidence of slime and odor formation and helps maintain sludge-free storage tanks.

NCC-Biostat™ is effective against aerobic, anaerobic and H<sub>2</sub>S producing microorganisms and the odor they cause.

# NCC-BIOSTAT™

## Fuel Oil Preservative and Sludge Solvent

Active sludge solvent, bacteriostat and fungistat for use in fuel oil storage tanks.

**ACTIVE INGREDIENT:**

- 1, 1 dimethylethanamine salt of 2-pyridinethiol-1-oxide ..... 0.4%
- INERT INGREDIENTS ..... 99.6%

**KEEP OUT OF REACH OF CHILDREN**

## WARNING

(See side panel for additional precautionary statements)

### PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flames.

## PRECAUTIONARY STATEMENT

### HAZARDS TO HUMAN AND DOMESTIC ANIMALS

May be fatal if absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear rubber gloves when handling. Do not use as a cleaning solvent. Avoid food contamination.

### STATEMENT OF PRACTICAL TREATMENT

In case of contact, flush eyes or skin with plenty of water. For skin and eyes, call physician. Remove and wash contaminated clothing before re-use.

### STORAGE AND DISPOSAL

Store only in tightly closed, original container in a secure area inaccessible to children. Do not contaminate water, food, or feed by storage or disposal.

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Do not reuse empty container.

Triple rinse empty container with water. Return metal drums to reconditioner or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated or, if allowed by local authorities, by burning. If burned, stay out of smoke.

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
