Horsham, PA 19044

Gentlemen:

Subject: Betz Entec 361  
EPA Registration No. 34571-12  
Your Amendment Application Dated February 22, 1988

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you make the following revision before you release the product for shipment bearing the amended labeling.

- We recommend that you revise the ingestion statement to read "If swallowed, drink 3 to 4 glasses (or large quantities) of water. Immediately call physician." We would not expect "gruel cooked cereal," etc., to be readily available at an industrial site.

A stamped copy of the label is enclosed for your records.

Submit the final printed labeling for inclusion in the product file.

If you have any questions in this regard, contact Ms. Ruth Douglas at (703) 557-3842.

Sincerely yours,

Jeff Kempter
