U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
35558-3
Date of Issuance:
FEB -7 1997

NOTICE OF PESTICIDE:
 x Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance: Conditional

Name of Pesticide Product:
Bradley Exterminating
Professional Aqueous
Roach & Ant Killer

Name and Address of Registrant (include ZIP Code):

Bradley Exterminating Company, Inc.
5916 Brierglen Avenue
Memphis, TN 38120-2312

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Reg. No. 35558-3".
 - b. In the second sentence of the Environmental Hazards, delete the comma between "especially" and "waterfowl".

Signature of Approving Official:

Date: FEB -7 1997

- c. For consistency with the front panel limitation, in the Indoor Use Precautions replace "This product may be used only in non-food areas of USDA Meat and Poultry Plants." with "This product is not authorized for use in Federally inspected meat and poultry plants."
 - d. In the directions To Kill Brown Dog Ticks, delete "beds," before "under sofas and other furniture". Also, after "In animal quarters," revise "bedding" to "pet bedding". Please note that both of these revisions were previously requested in the Agency's letter dated July 12, 1996.
 - e. Be sure to meet type size requirements for elements of the label with minimum type size requirements.
3. Submit three (3) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

The additional brand name "Bug Stop Professional Aqueous Roach and Ant Killer" is also acceptable and will be added to this product's record.

DIAZINON - Registered Trademark of Ciba Geigy Corporation.

KEEP OUT OF REACH OF CHILDREN
WARNING

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching back of the throat with finger. Repeat until vomit fluid is clear. DO NOT INDUCE VOMITING or give anything by mouth if person is unconscious or convulsing.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated. Get medical attention.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water. Get medical attention.

IF IN EYES: Flush eyes with plenty of water. Get medical attention.

NOTE TO PHYSICIAN: Diazinon is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be used, but only in conjunction with atropine.

PRECAUTIONARY STATEMENTS
Hazards To Humans & Domestic Animals
WARNING

Causes substantial but temporary eye damage. Do not get in eyes. Wear goggles or safety glasses. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing of spray mist. Avoid contact with skin or clothing. May cause skin sensitization following repeated contact with skin in susceptible individuals. If sensitization reactions result, consult a physician. Wash thoroughly after handling and before smoking or eating. Do not allow spray to contact food, foodstuffs or utensils. Do not use on humans or household pets. Remove pets from area and cover fish bowls before spraying. Do not allow children or pets in treated areas until surfaces have dried.

Environmental Hazards

This pesticide is highly toxic to birds, fish, and other wildlife. Birds, especially, waterfowl, feeding or drinking on treated area may be killed. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply directly to water, to areas where surface water is present, or to areas below the high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment wash waters. This pesticide is highly toxic to bees exposed to direct treatment of residues on blooming plants where they feed. Do not allow this pesticide to drift to blooming plants if bees are visiting the treated area. Do not apply this product to, or allow to drift to, food crops or any desirable vegetation at any time.

Physical or Chemical Hazards

Do not use this product in or on electrical equipment due to the possibility of shock.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT TRANSPORT OR STORE UNDER 32°F.

STORAGE AND DISPOSAL

CONTAINERS LARGER THAN ONE GALLON: Do not contaminate water, food or feed by storage or disposal. Pesticide Storage And Spill Procedure: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste. Protect from freezing. Do not transport or store under 32°F. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or other approved State and local procedures.

CONTAINERS ONE GALLON OR LESS:

Storage: Store in original container in a cool dry place.

Disposal: Wrap container in several layers of newspaper and discard in trash.

INDOOR USE:

PRECAUTIONS: Do not use this product indoors as an overall surface spray or as a space spray; take care not to introduce the product into the air during application. Use only in well ventilated areas. Do not apply where children are likely to frequently contact treated surfaces. Remove or cover fish bowls or aquariums and remove pets before application. Do not treat pets with this product. Do not allow children or pets in treated areas until spray has dried. Do not apply this product in patient room or any rooms occupied by the elderly or infirmed. Do not apply when classrooms are in use. In institutions (including but not limited to office buildings, museums, libraries, and sport facilities), do not apply when occupants are present in the immediate area. This product may be used only in non-food areas of USDA Meat and Poultry Plants. Do not apply in food areas of food handling establishments, restaurants, or other areas where food/feed is commercially prepared or processed. Do not use in serving areas.

TO KILL COCKROACHES (WATERBUGS), ANTS, SILVERFISH, AND SPIDERS

HOUSEHOLDS, APARTMENTS, GARAGES, WAREHOUSES, AND NON-FOOD AREAS OF MOTELS, HOTELS, OFFICES, SCHOOLS, LIBRARIES, MUSEUMS, AND SPORTS FACILITIES:

Make spot applications as a coarse spray to cracks and crevices, along baseboards and door sills and frames, around water pipes and garbage cans, surfaces behind and beneath cabinets, sinks, refrigerators, and stoves, as well as ant trails and localized areas where insects tend to hide.

NON-FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:

Food handling establishments are places other than private residences in which food is held, processed, prepared, or served (includes restaurants, cafeterias, bakeries, canneries, and food processing plants). This product may be applied only in the non-food/non-feed areas including garbage rooms, lavatories, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, mop closets, and storage areas (after canning or bottling). This product is not authorized for use in Federally Inspected Meat and Poultry Plants.

Apply as a coarse low pressure spray as a spot treatment along baseboards, to areas around water pipes, to surfaces behind and beneath cabinets, sinks, lockers, and pallets, and to storage areas where these insects hide.

TO KILL CARPET BEETLES

Spray edges of carpeting and under carpeting and rugs. Make localized application to the floor and baseboards. Spray directly into cracks, crevices, closets and infested areas of shelving. Repeat as necessary.

TO KILL BROWN DOG TICKS

Clean premises thoroughly before treatment. Using a coarse cone or fan spray, treat the entire floor and carpet area. Special attention should be given to cracks and crevices and under carpet and rug edges. Also treat animal sleeping quarters, closets, upholstered furniture (with particular attention to seams), beds, under sofas and other furniture. In animal sleeping quarters, bedding should be cleaned or replaced with fresh bedding. Do not use this application in nurseries or any area where infants may sleep. Apply at the rate of approximately 1 gallon to 750 square feet (1.7 fl. oz. per 100 sq. ft.). To avoid reinfestation, pets must be treated simultaneously with an EPA approved insecticide labeled for use on animals. Application should be repeated as necessary. Humans and pets should avoid contact with treated surfaces (rugs, upholstered furniture, etc.) for 4 hours after treatment.

OUTDOOR USE

Do not use this product outdoors other than to spray outside surfaces of structures or for localized outdoor spraying to control pests outside homes. Do not apply to lawns or to other desirable vegetation. Spray with the wind to your back. Do not spray on windy days. Wear a long-sleeved shirt and long-legged pants when spraying. If clothing becomes wet from spray during use, remove clothing after spraying, wash affected body areas thoroughly with soap and water, and launder clothing before wearing again. Do not allow children or pets to contact treated areas until spray has dried.

TO KILL FLIES, MOSQUITOES, SMALL FLYING MOTHS, WASPS

For use only as an aid in reducing annoyance from these pests. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures or porches, in garages and other places where these insects alight or congregate.

TO KILL FLEAS, CHIGGERS, AND ANTS

For treatment of localized infestation of these insects in outdoor areas around the home, spray infested areas. Do not spray lawns or other desirable vegetation. For ants, thoroughly wet hills and runways.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herein.
