

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Corrosive, causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

FIRST AID (Practical Treatment): If swallowed, drink 1-2 large glasses of water. Do not induce vomiting. Call a physician immediately. Avoid alcohol. In case of personal contact, remove exposed material and flush skin or eyes with cold water for at least 15 minutes. For eyes, get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS: Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals, or any foreign matter may start a chemical reaction with generation of heat, evolution of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance, contact the regional office of the Environmental Protection Agency.

SPECIAL PRECAUTIONS

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a pressure feeder to avoid discoloration of liner or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual falls.
6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pail. When adding this product to skimmer make sure pump is on and water is circulating so that material is drawn into recirculation system. Do not allow buildup of dry material in skimmer as gases generated may cause an explosion.

EPA Registration No. 37428-2
EPA EST No. 37428-FL01

**O.K. CHLORINE
NEW SUPER 90 PLUS**

**STABILIZED CHLORINATING
GRANULAR
90**

NOT REVIEWED
In Accordance with FR Notice 82-2.
ACTIVE INGREDIENT **TRICHLOROS TRIAZINETRIUM** 99.0%
In Accordance with Draft Labeling Date 10/23/89
INERT INGREDIENT 1.0%
(provides 89% available chlorine)

DANGER
KEEP OUT OF REACH OF CHILDREN
SEE FIRST AID STATEMENT AND
OTHER PRECAUTIONS ON SIDE PANEL

NET WEIGHT: 10 LBS.

DIRECTIONS FOR USE

1. Adjust water pH to 7.6-8.0 as determined by a test kit
2. If the pool has not been previously stabilized, add conditioner or stabilizer (cyanuric acid). Follow the directions for use on the label for that product
3. Add 1 oz. Granular 90 per 5,000 gallons of pool water on a daily basis in order to maintain a chlorine residual of 1.0 to 1.5 ppm as determined by a test kit
4. Granular 90 should, if possible, be added directly to pool skimmer with pool system filtering. Allow system to run at least 3 hours

NOTE: Due to local water and rain conditions, it is strongly recommended that you have an 8 oz. sample of pool water analyzed by your pool professional once every 4-6 weeks, in order to maintain proper pH and total alkalinity in your pool water. Proper water chemistry is important to protect your pool's surface and equipment.

STORAGE & DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container in open area if possible, and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area.
