**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Do not apply to  
ponds or put in water. Do not apply to  
streams or rivers. Do not apply to  
lakes or reservoirs. Do not apply to  
product of water.

**NOTICE:** When used in swimming pools, this  
product is intended to kill algae and  
control their growth. It is not intended  
to be used for any other purpose. When  
used in swimming pools, it should be  
applied to the water in the pool. It  
should not be applied to the pool walls  
or floor. It should not be applied to  
the pool furniture. It should not be  
applied to the pool cover. It should  
not be applied to the pool pump. It  
should not be applied to the pool  
drain. It should not be applied to  
the pool filter. It should not be  
applied to the pool skimmer. It  
should not be applied to the pool  
main drain. It should not be applied  
to the pool return line. It should  
not be applied to the pool overflow  
drain. It should not be applied to  
the pool handrails. It should not  
be applied to the pool ladders. It  
should not be applied to the pool  
staircases. It should not be applied  
to the pool deck. It should not be  
applied to the pool coping. It should  
not be applied to the pool coping  
cap. It should not be applied to the  
pool coping cap. It should not be  
applied to the pool coping cap.

**STORAGE AND DISPOSAL**

**STORAGE:** Do not contaminate water, food, or  
feed with this pesticide. Do not  
store in a way that allows access to  
children, animals, or birds. Do not  
store in a way that allows access to  
water. Do not store in a way that  
allows access to water. Do not store  
in a way that allows access to water.  
**DISPOSAL:** Do not contaminate water, food,  
or feed with this pesticide. Do not  
store in a way that allows access to  
children, animals, or birds. Do not  
store in a way that allows access to  
water. Do not store in a way that  
allows access to water. Do not store  
in a way that allows access to water.

Algaecide**

<b>ACTIVE INGREDIENT</b>	
n Alkyl (50% C, 40% C, 10% C)	10%
dimethyl benzyl ammonium chloride	90%
<b>INERT INGREDIENTS</b>	
TOTAL	100%

ONLY FOR SALE TO USE AND STORAGE BY  
SERVICE PERSONS

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**STATEMENT OF PRACTICAL TREATMENT**

**SKIN AND EYES:**  
In case of contact immediately flush eyes or skin  
with plenty of water for at least 15 minutes. For  
eyes call a physician.  
**INGESTION:**  
If swallowed drink milk, egg whites, gelatin solu-  
tion or, if these are not available, large quantities  
of water. Avoid alcohol. Call a physician.

**NOTE TO PHYSICIAN:**  
Probable mucosal damage may contraindicate the use of  
gastric lavage. Measures against circulatory shock, res-  
piratory depression and convulsions may be needed.

PRECAUTIONARY STATEMENTS

**MANUFACTURED BY  
TEAM LABORATORY  
CHEMICAL CORP  
P.O. Office Box 135  
Farmersburg, ND 58502**

**DIRECTIONS FOR USE  
GENERAL CLASSIFICATION**

**TEAM 218 SWIMMING POOL ALGAECIDE**

Apply to swimming pool water containing 10  
to 20 ppm of chlorine. Add one gallon Team 218  
Swimming Pool Algaecide per 50,000 gallons of  
water to prevent algae growth.

If algae growth is observed, add one gallon  
Team 218 Swimming Pool Algaecide for each  
50,000 gallons of water to kill and control those  
algae. Algae most commonly found in swim-  
ming pools. When existing growth is dead,  
clean the pool drain and refill if necessary and  
add one gallon Team 218 Swimming Pool Algae-  
cide per 50,000 gallons of water.

If the pool water treated as in (1) or (2) above is  
not clear, add one gallon of Team 218 Swimming  
Pool Algaecide per 50,000 gallons of water every  
five to seven days to maintain between two and  
five parts per million of active ingredients. See  
label for test kit.

If the pool water treated as in (1) or (2) above is  
not clear, it may not be clear that should be tested  
to determine the active ingredient  
content. When necessary, one gallon Team 218  
Swimming Pool Algaecide per 50,000 gallons of  
water should be added to maintain two to five  
parts per million of active ingredient.

Effective against green algae (Ankistrodesmus  
falcatus, Chlorella pyrenoidosa) and blue green  
algae (Cylindrocapsa, Microcystis, Oscillatoria,  
and Plectonon).

**NOTE:**  
This product is not intended for use in  
hot tubs, whirlpools, or spas. It is not  
intended for use in swimming pools  
with salt water. It is not intended  
for use in swimming pools with  
chlorine bromine. It is not intended  
for use in swimming pools with  
chlorine bromine.
