July 9, 2004

Robert Rosenwasser Agent for SCP Distributors, LLC Alliance Trading, Inc. 109 Northpark Blvd, 4th Floor Covington, LA 70433

Subject:

Olympic DY-CHLOR II

EPA Registration No. 42177-16 Application Date: June 14, 2004 Receipt Date: June 16, 2004

### Dear Mr. Rosenwasser:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

### **Proposed Notification**

addition of alternate brand name "Pool Season Chlorinating Concentrate"

### **General Comments**

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Mitchell Product Reviewer (32) Regulatory Management Branch II Antimicrobials Division (7510C)

### NOTIFICATION OF ADDITION OF ALTERNATE BRAND NAMES PER PR NOTICE 98-10

Alliance Trading, Inc., 109 Northpark Blvd., 4<sup>th</sup> Floor, Covington, LA 70433 is submitting this notification to **add one alternate brand name** to our Olympic Granular 90 registration (EPA Reg. No. 42177-16).

The name of this alternate brand is:

Pool Season Chlorinating Concentrate

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

### Please find enclosed:

- An application form that includes the required notification language.
- One copy of the label with the alternate brand name.

If you need additional information, please feel free to call me at (201) 242-6577.

Sincerely yours,

Rőbert Rosenwasser

Agent for Alliance Trading, Inc.

# CHLORINATING CONCENTRATE

Concentrated • Stabilized

Active Ingredient:	
Sodium Dichloro-s-Triazinetrio	ne:97.0%
Other Ingredients:	3.0%
Total:	100%
Available Chlorine:	62%

KEEP OUT OF REACH OF CHILDREN

DANGER

SEE FIRST AID AND PRECAUTIONS ON SIDE PANEL

# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spay mist. Irritating to nose and throat. Wear goggles or face shield when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID					
If in eyes	<ul> <li>Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>				
If inhaled	<ul> <li>Move person to fresh air.</li> <li>If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li> <li>Call a poison control center or doctor for further treatment advice.</li> </ul>				
If on skin or clothing	<ul> <li>Take off contaminated clothing.</li> <li>Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>				
if swallowed	<ul> <li>Call poison control center, or doctor immediately for treatment advice.</li> <li>Have person sip a glass of water if able to swallow.</li> <li>Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>Do not give anything by mouth to an unconscious person.</li> </ul>				
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924					
NOTE TO PHYSICIAN  Probable mucosal damage may contraindicate the use of gastric lavage.					

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

### PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

#### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

### FOR SWIMMING POOLS

Condition pool with stabilizer. Follow directions for use on label stabilizer. Omit if this was done previously.

Check residual chlorine with a reliable test kit. If below 1.0 ppm add10 ounces of this product per 10,000 gallons. Repeat this dosage until a chlorine residual level of 1.0 to 1.5 ppm has been

established. Add product to water by broadcasting over pool surface, preferably at deep end.

Maintain residual chlorine. Add this product daily or as needed to maintain 1.0 to 1.5 ppm residual chlorine. (Two ounces of this product supplies 10 ppm chlorine to 10,000 gallons of water.) Additional dosages may be required during excessively hot weather or when many people are using the pool. Measure pH immediately and at least once each week with a reliable pool test kit. Adjust pH to 7.2 – 7.8 as necessary, pH

Measure pH immediately and at least once each week with a reliable pool test kit. Adjust pH to 7.2 – 7.8 as necessary. pH can be decreased by adding a pH minus product or increased by adding a pH plus product. Follow directions for use on labels of these products.

### SUPERCHLORINATION

It is a good practice to superchlorinate every 2-4 weeks. To superchlorinate, add 10 ounces of this product. Resume regular program when residual chlorine level falls to 1.0 -1.5 ppm.

NOTE: Re-entry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine.

#### FOR SPAS AND HOT TUBS

To chlorinate: Add ½ ounce of thid per 500 gallons of water to the water prior to entering the spa or hot tub. Wait 5 minutes, then check the chlorine residual. Residual chlorine must read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2.0 to 3.0 ppm range, the water may be entered.

Maintenance: This product should be added daily or as necessary to maintain 2.0 to 3.0 ppm residual chlorine. Frequent checks should be made of residual chlorine using a reliable test kit. The product should be broadcast over the surface of the water and allowed at least 5 minutes mix time before sampling.

Note: Heavy bather usage or the use of oils or lotions may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks on chlorine residual. Check pH: pH should be monitored with a reliable test kit and maintained in the 7.2 to 7.8 range for clean, sparking water. pH can be decreased by adding a pH minus product or increased by adding a pH plus product. Follow directions for use on labels of these products.

Superchlorination: It is a good practice to superchlorinate every 2-4 weeks. To superchlorinate, add 1 ounce of this product for each 500 gallons of water. Thoroughly clean spa or hot tub, vacuum and cycle through filter. Resume program when chlorine residual reads 2.0-3.0 ppm.

NOTE: Re-entry into treated spa is prohibited above levels of 3.0 ppm of chlorine.

### STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large volumes of water to dissolve all material before discarding

this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding.
