Subject: MASTER OLYMPIC SKIMMER STICKS
EPA Registration No.: 42177-23
Notification Date: October 15, 2012
EPA Receipt Date: October 22, 2012

Dear Ms. Niemiec,

This letter acknowledges receipt of your notification submitted under the provisions of FIFRA section 3(c)9 and PR Notice 98-10.

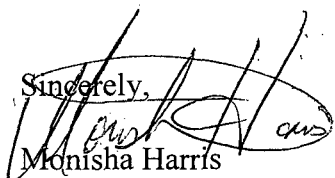

Proposed Notification

- Adding optional marketing statements for a three step program designed to be used as a consumer guide.
- Adding alternate brand name: "Regal Pool Care System".

General Comments

Based on a review of the submitted materials, to add optional marketing statement and an alternate brand name are acceptable and apart of the record on file for future reference.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 305-5027 or by e-mail at rivas.lorena@epa.gov. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

 Monisha Harris
 Product Manager (32)
 Regulatory Management Branch II
 Antimicrobials Division (7510P)

SUBJECT: EPA Reg. No. 42177-23 Master Olympic Skimmer Sticks

Notification per PR Notice 98-10 to add marketing statements and an alternate brand name.

Dear Ms. Harris:

Please process the following proposed label changes submitted via Notification:

1. Additional optional marketing statements for a three step program designed to be used as a consumer guide. We are proposing to identify steps on our entire product line that are consistent with each product's accepted uses and accepted marketing statements. For clarity purposes we have included all possible language in the master label.
2. Addition of an alternate brand name: "Regal Pool Care System".

If you have any questions or need additional information, please feel free to contact me via telephone at (985) 801-5714 or e-mail below.

Sincerely yours,

 Annette Niemiec
 EPA Government Relations Coordinator

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If swallowed: Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash separately before reuse.

{Environmental hazard statement for end-use products in containers less than 50 lbs}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

{Environmental hazard statement for end-use products in containers of equal to or greater than 50 lbs (solid, dry weight).}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

Do not discharge effluent containing this product into sewer systems without previously notifying the local sewer treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. When used as directed, this product is effective as a pool water disinfecting agent.

FOR SWIMMING POOLS

The filter system should be backwashed or properly cleaned and the pH adjusted between 7.2 and 7.6. It is recommended that the pool be initially stabilized with 30-40 ppm cyanuric acid to reduce dissipation effect of sunlight on chlorine. In addition to chlorine, this product introduces cyanuric acid into the pool to maintain this stabilizing effect.

A free available chlorine residual of . . . to 2.0 ppm must first be established in the pH adjusted and conditioned pool. It is recommended that this be done with a concentrated product, following the directions on the label.

Maintain a free chlorine residual of 1.0 to 2.0 ppm by placing one (1) Skimmer Stick per 5,000 gallons of pool water into the skimmer or automatic feeding device per week. Usage may vary depending upon bather load and environmental conditions. Do not add any other chemical through the skimmer when using this product in the skimmer.

The regular use of a test kit will determine if further adjustments may be necessary to maintain the recommended level of free available chlorine in the pool water.

NOTE: Re-entry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine.

HOW TO CALCULATE POOL CAPACITY

SHAPE OF POOL	GALLONS OF WATER (IN FEET)
Rectangular	Average depth x average length x average width x 7.5
Circular	Diameter x diameter x average depth x 5.9
Oval with straight sides	Full width x full length x average depth x 5.9
Irregular	Consult pool builder
