OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

JAN 31 2014

Ms. Annette Niemiec, EPA Government Relations Coordinator
Alliance Trading, Inc.
109 Northpark Boulevard, Fourth Floor
Covington, LA 70433

Subject: FQPA 302 Label Amendment
Olympic Granular Algae-Out
EPA Registration Number: **42177-67**
Application Date: August 26, 2013
EPA Receipt Date: August 30, 2013

Dear Ms. Niemiec:

This acknowledges receipt of the Label Amendment application, submitted pursuant to registration under the Federal Fungicide, Insecticide, and Rodenticide Act (FIFRA), as amended.

Purpose of the Amendment::

“Alliance Trading, Inc. is submitting a Label Amendment to change the order of the First Aid Statement to match the order of the Precautionary Statements and to incorporate all previous changes made via Notification. We are also requesting to fast track this application as the change in order of the First Aid Statements is similar to a change submitted and approved by the Agency for our Dichloro Dihydrate Granular, US EPA Reg. No. 42177-80 on a letter dated 08-29-2011.”

“This Amendment is being submitted in connection with registration under the Federal Insecticide and Fungicide, and Rodenticide Act (FIFRA) as amended, and as per PR Notice 2000-05.”

General Comments:

Based on the review of the information submitted, the following comments apply. The Label Amendment is **Acceptable**. An EPA-stamped, accepted Product Label is enclosed for your Company Record. And a copy is attached in **Regulatory File Jacket 42177-67** for future reference.

If you have questions or comments with regard to this Agency Letter, please contact me by email at **Fuller.Demson@epa.gov** by telephone at **703-308-8062**. When you are submitting information or data in response to this Agency Letter, please send a copy of this Agency Letter with your response in order to facilitate processing.

Sincerely yours,

Demson Fuller,
EPA Product Manager 32
Regulatory Management Branch II
Antimicrobials Division 7510P

Enclosure: EPA-stamped "Olympic Granular Algae-Out" Product Label.

{Alternative 3 Step Program}

3-STEP POOL TREATMENT PROGRAM		
1. SANITIZE	2. SHOCK-OXIDIZE	3. ALGAE PREVENTION

{Alternative three step program marketing statements available to all labels. Steps 1, 2, and 3 will only be available to their respective product type/ approved use. We have included all statements here for clarity purposes.}

[STEP 1] [SANITIZE]
 [SANITIZERS] [The key to maintaining a crystal clear pool is a steady routine of sanitization. [Brand name] sanitizers are designed to kill bacteria, algae and other living organisms. [Brand Name] Sanitizers have built-in protection from the sun to maximize chlorine life.]

[STEP 2] [SHOCK-OXIDIZE]
 [Shock Oxidizer]
 [Weekly shock-oxidizing your pool eliminates odors, restores water clarity and reduces the demand on the sanitizer.]

[STEP 3] [ALGAE PREVENTION]
 [ALGAECIDES]
 [Algaecides add an extra layer of pool protection, while creating a more pleasant swimming environment. [Brand Name] algaecides safeguard your pool, preventing all types of algae.]

[BALANCE][BALANCERS] [Properly balanced water prevents corrosion and staining. It will also optimize the performance of your sanitizer. Using [Brand Name] balancers, as needed, simplifies the balancing act to help achieve properly balanced water.]

[SUPPLEMENT] [SUPPLEMENTS]
 [Prevent specific water problems with [Brand Name] supplements. The perfect complement to your pool care regimen, [Brand Name] offers a variety of cleaners, clarifiers and stain removers.]

{END MARKETING CLAIMS}

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: CORROSIVE. Causes irreversible eye damage. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash separately before reuse.

{for all package sizes under 50 lbs.}

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms.

{for all package sizes 50 lbs. and over}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

PREVENTION OF PROPERTY DAMAGE: Contact between this product in its undissolved state and vinyl liners, painted surfaces, or other property in and around the pool will result in permanent bleaching of the color.

SPECIAL PRECAUTIONS:

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Use the product as instructed on the label. Do not take advice from others or experiment by yourself.
3. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. Doing so could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add water to this product in a small amount of water in a pail.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **INITIAL DOSAGE:** The pH of the pool water should be adjusted to 7.4 to 7.6 before applying this product. For light algae growth, use 7 ounces per 10,000 gallons of water. For heavy algae growth, use 14 ounces per 10,000 gallons of water. Twelve to twenty-four hours after treatment, remove dead algae growth by brushing or scraping. Expose algae in cracks or wrinkles which may have been protected from the high chlorine residual. It will begin to reproduce again as the chlorine residual falls. If living algae is still visible after brushing, repeat treatment.

NOTE: Re-entry into treated swimming pool is prohibited above levels of 3.0 ppm of chlorine.

Use one of the following methods of application:

SKIMMER METHOD: Use this method to avoid bleaching vinyl liner, fiberglass or paint. Empty skimmer of all chemicals and debris. Make sure that pump and filter are on and that water is properly recirculating through skimmer. Remove any chemicals that may be in an in-line automatic feeder. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate. Do not allow this material to accumulate as gases generated may cause an explosion.

BROADCAST METHOD: Shut off filter pump, brush wall-clinging algae vigorously, then allow pool water to become stationary. Broadcast over surface of water where algae growth appears in the evening or when the pool is not in use. Use skimmer method to prevent bleaching of colored surfaces.

{ these storage and disposal directions were pre-approved on 4-7-10 by Jeanne Kasai (EPA) }

STORAGE AND DISPOSAL: {Optional statements – usage depends on whether or not product is packaged for household/residential, Non-household/residential use or single-use, non-resealable package..}

{Nonrefillable container - household/residential use}
[**STORAGE:** Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame.
