**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USE PRECAUTIONS:** Read the entire label before using this product. **IMPORTANT: SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER**

**CONCENTRATE** is a general contact herbicide and will damage or destroy all vegetation which it contacts. Shield grass and desired plants carefully during use to avoid damage to these plants. Avoid overspray or spray drift onto desirable lawn grass, flowers, vegetables, garden plants, shrubs, or trees. If desired vegetation is contacted, wash immediately with water. Keep people and pest off treated areas until dry. Do not apply during windy conditions that will carry spray onto desired vegetation.

**MIXING INSTRUCTIONS:** Shake well. Dilute 32 ounces (4 cups) **SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE** with 1.25 (one and one-quarter) gallons of water to prepare a working solution of 1.5 (one and one-half) gallons.

**USE INSTRUCTIONS:** Use for spot treatment of weeds. Ensure uniform and complete coverage of all types of unwanted vegetation. [Ensure thorough wetting (avoid runoff) and complete coverage of all unwanted vegetation.] **VISIBLE EFFECTS USUALLY OCCUR WITHIN FOUR HOURS.** Only those plants or plant parts directly contacted by the herbicide spray will be damaged.

**WEEDS:** For best results, apply to weeds during early periods [stages] of growth [and during warm dry weather]. Herbicidal action is rapid with effects visible within hours. The speed at which **SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE** works is affected by climatic conditions. For most rapid kill, apply in warm, dry weather. Weeds may show signs of regrowth within one to two weeks. Re-treat when weed growth becomes evident. **SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE** will control most young, succulent, and actively growing weeds (less than 5" high). Several treatments may be necessary to control grasses and established weeds. Maturing (flowering) or woody weeds are less susceptible and may not be killed. **SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE** will not kill all perennial weeds but will result in top kill and suppression. Weeds and grasses emerging after application, and regrowth from perennial weeds after top kill will not be controlled without reapplication.

**MASTER LABEL-BACK PANEL (Page 2 of 3)**

SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE is non-selective and non-residual. The herbicidal effect of SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE will not move through soil [translocate] to injure nearby plants. Treated areas can be [seeded] sown two days after application.

SAFER® BRAND SHARPSHOOTER® WEED AND GRASS KILLER CONCENTRATE may cause a white residue on some types of brickwork or concrete. This residue will wear off after a few weeks. A dilute solution of vinegar can be used to remove the residue.

**PRECAUTIONARY STATEMENTS**
