NET CONTENTS _____

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CLEANING

Lightly soiled non-porous surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of TC803 per gallon of water. Floor cleaned with fresh water.

Heavily soiled areas mop or brush with a solution containing 2-3 ounces of TC803 per gallon of water. Rinsed cleaned surfaces with fresh water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors, and other hard non-porous surfaces in homes, schools, restaurants, restrooms and other public areas mop or brush with a fresh solution containing 1 ounce of TC803 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Those surfaces which may later come in contact with food must be rinsed with clean water of drinking quality. Do not reuse used solution.

To disinfect hard nonporous surfaces in locker rooms, shower stalls, restrooms around pools and other areas against pathogenic fungi, mop or brush with a fresh solution containing 1/2 ounce of TC803 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. This solution will destroy Trichophyton interdigitale, a causative agent of athlete's foot. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Do not reuse used solution.

HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard nonporous surfaces in hospitals and nursing homes, mop or brush with a fresh solution containing 2 ounces of TC803 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Those surfaces that are heavily soiled with blood, fecal material or soiled areas should be thoroughly scrubbed with a solution containing 2 ounces of TC803 per gallon of water, and then rinsed with a fresh solution containing 2 ounces of TC803 per gallon of water before disinfection. Do not reuse used solution. This product has not been tested for effectiveness against Mycobacterium tuberculosis and must not be relied upon when tuberculosis infectivity is intended by the user.

DEODORIZATION

Prior to deodorization of bathroom areas per case pits, diaper pails, food storage areas, kennel areas and other areas where obnoxious odors may develop, remove all garbage, refuse, food and/or animal. Pre-clean surfaces using pressurized water where possible before deodorization. To deodorize, mop or brush surfaces thoroughly with a solution containing 2 ounces of TC803 per gallon of water.
