

US ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF PESTICIDES PROGRAMS  
REGISTRATION DIVISION (TS-767)  
WASHINGTON, DC 20460

EPA REGISTRATION NO.

4924-4

DATE OF ISSUANCE

NOV 15 1988

**NOTICE OF PESTICIDE**

**REGISTRATION**  
**RE REGISTRATION**

*(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act as amended)*

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

201 211 1-11

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

American Water Treatment  
31 Lewis Road  
Airon, NY 14003

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. The label for this registration is enclosed for your information.
2. The label for this registration is enclosed for your information.
3. The label for this registration is enclosed for your information.
4. The label for this registration is enclosed for your information.

AMICIDE-M

## INDUSTRIAL MICROBICIDE

### ACTIVE INGREDIENTS

Methylene bis(thiocyanate) 2.5%

2-(Thiocyanomethylthio)benzothiazole 2.5%

### INERT INGREDIENTS

2.5%

2.5%

95.0%

This product weighs 7.99 pounds per gallon

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Corrosive, causes irreversible eye damage and causes skin damage. Harmful or fatal if swallowed or absorbed through the skin. This product is a potential skin sensitizer. Workmen handling this product or treated material should wear impervious gloves, goggles or face shield, and protective clothing. All protective clothing, work shoes or boots, and equipment must be left at the work site at the end of the day. Eating, drinking, or smoking during use of this product is prohibited.

**FIRST AID:** In case of skin contact, wash promptly and thoroughly with soap and water and finally with glycerin. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for 15 to 30 minutes. Get medical attention immediately. If product is swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply directly to water or wetlands. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not expose to extreme temperatures.

## STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Do not expose to extreme temperatures. Do not stack more than five drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### COOLING TOWERS: AMICIDE-M

wood against soft or surface rot and internal or dry rot. Use in cooling towers containing 2.0 to 2.8% AMICIDE-M

lakes. The amount applied should provide 2.4 to 3.2 lb AMICIDE-M per 1000 ft<sup>2</sup> of wood surface. Soft or surface rot can also be controlled with AMICIDE-M

to the recirculating well. The dosage should provide 5.0 lb of AMICIDE-M per 1000 gal of water and the bleedoff should be stopped for 4 to 6 hr after application. Repeat every four months.

### COOLING WATER: AMICIDE-M

and fungi in industrial recirculating cooling water systems should be cleaned thoroughly to remove old algal growth. The system should then be drained, flushed, refilled with water and AMICIDE-M should be added to the recirculating water at a rate of 0.8 to 4.8 fl oz per 1000 gal should be made every 1 to 2 months to prevent microbiological fouling.

**DRILLING FLUIDS:** To inhibit bacterial and fungal drilling of wells, AMICIDE-M should be added to the drilling fluid at a concentration of 0.2 to 1.0% based on the total wet weight of the fluid.

**PETROLEUM SECONDARY RECOVERY:** AMICIDE-M can be used to control sulfate-reducing bacteria, slime-forming bacteria, and other oil field problems in oil fields, water disposal systems, and other oil field operations. Add AMICIDE-M to the water at a rate of 15.6 to 52.0 fl oz per 1000 gal of water.

made continuously or intermittently by means of a metering pump or injection pumps and injection well headers. Continuous application should be made until desired degree of control is achieved. Add AMICIDE-M to the water at a rate of 15.6 to 52.0 fl oz per 1000 gal of water.

**CRUDE AND REFINED OILS:** AMICIDE-M can be used to control bacteria and fungi that cause spoilage during storage. It should be added to the oil at the rate of 2.4 to 24.0 fl oz per 1000 gal of oil.

Addition should be made batchwise where mixing is required. Add AMICIDE-M to the water at a rate of 15.6 to 52.0 fl oz per 1000 gal of water.

control. Intermittent or Slug Method: When system is fouled, add 15.6 to 52.0 fl oz of AMICIDE-M to the water at a rate of 15.6 to 52.0 fl oz per 1000 gal of water.

and 1 to 4 times per week, or as needed to maintain control.

**CRUDE AND REFINED OILS:** AMICIDE-M can be used to control bacteria and fungi that cause spoilage during storage. It should be added to the oil at the rate of 2.4 to 24.0 fl oz per 1000 gal of oil.

Addition should be made batchwise where mixing is required. Add AMICIDE-M to the water at a rate of 15.6 to 52.0 fl oz per 1000 gal of water.

transfer pump.
