

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

53254-12

DATE OF ISSUANCE

SEP 25 1995

TERM OF ISSUANCE

Conditional

NAME OF PESTICIDE PRODUCT

Oxidan DCN/WSG Granular

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

3V Inc.
P.O. Drawer Y
Georgetown, SC 29442

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 53254-12."
- b. Realign the signal word "Danger" to appear below the Child Hazard warning "Keep Out of Reach of Children"
- c. Revise the Ingredient statement in the following manner:

Active Ingredient
Sodium Dichloro-s-triazinetriene
Dihydrate.....99.5%*
Inert Ingredients.....0.5%
(*provides 56% available chlorine)

d. Beneath the product name, on the front panel of the label, change "Super Chlorine" to "Super Chlorination".

d. Revise the Statements of Practical Treatment (First Aid instructions) to read as follows:

"If in eyes: Hold eyelids open & flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

If on skin: Wash with plenty of soap and water. Seek medical attention if irritation persists.

If swallowed: Promptly drink large quantities of water. Avoid alcohol. Get medical attention or call Poison Control Center immediately. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage."

e. Revise the Precautionary Statements in the following manner:

"Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse."

f. Revise the first sentence of the Environmental Hazards statement to read: "This product is toxic to fish and aquatic organisms.

3. Submit one copy of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Ruth G. Douglas
Product Manager (32)
Antimicrobial Program Branch
Registration Division (7505C)

BACK PANEL

OXIDAN DCN/WSG GRANULAR

FIRST AID (PRACTICAL TREATMENT).

If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

If swallowed, drink large amounts of water. **DO NOT** induce vomiting. Avoid alcohol. Call a physical or poison control center immediately.

If inhaled, remove person to fresh air. Call a physician.

PRECAUTIONARY STATEMENTS. Hazards to Humans and domestic animals. Danger. Highly corrosive. Causes irreversible eye damage and burns skin. May be fatal if swallowed. Do not get in eyes, skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS. This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS. Strong oxidizing agent. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product since this may cause a violent reaction leading to fire or explosion. Will burn with the evolution of chlorine and equally toxic gases. Contact with water, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation or irritating hazardous gases, and possible generation of fire and explosion. Decomposes at 460° F to 480° F with liberation of harmful gases.

In case of fire, if possible, isolate container in open, well ventilated area. Flood with large volumes of water. **In case of contamination or decomposition**, do not reseal container.

DIRECTION FOR USE. It is in violation of Federal law to use this product in a manner inconsistent with its labeling.

For Swimming Pools. For best results follow these guidelines:

- 1) Proper conditioning of pool water is necessary to insure maximum effectiveness of this product. Previously unconditioned pools should be treated with a chlorine stabilizer (follow instructions on label of product).
- 2) Adjust pool water pH to 7.2 - 7.8 as indicated on a suitable test kit. Adjust as needed with pH up and/or down to maintain this range.
- 3) A shock treatment is occasionally necessary to maintain a clear and algae free pool. (See directions on label of a shock treatment product).
- 4) Maintenance Dose - For every 10,000 gallons of water, broadcast 3 oz. of Oxidan DCN/WSG every other day or as needed in order to maintain a 1.0-1.5 ppm chlorine residual. Check pool water frequently with a test kit and maintain 1.0-1.5 ppm chlorine residual and a pH 7.2 - 7.6.
- 5) Due to extremely hot weather, adverse weather conditions and or heavy bathing loads, additional dosages may be required to maintain the 1.0 - 1.5 ppm chlorine residual. This can be achieved by adding additional Oxidan DCN/WSG to 6 oz. per 10,000 gallons of water. Check pool water frequently and maintain the 1.0 - 1.5 ppm chlorine residual.
- 6) Super Chlorination - Super chlorination may be required if cloudy water, algae, unpleasant odor, or burning eyes conditions exist. If super chlorination is required, broadcast 21 ounces of this product per 10,000 gallons directly into the pool water. It is preferable that super chlorination be done in the evening when the pool is not in use.

Reentry into treated swimming pools/spas is prohibited above levels of 3 ppm of chlorine.

STORAGE AND DISPOSAL. Keep product in tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames and organic chemicals. **DO NOT REUSE EMPTY CONTAINER.** Rinse empty container thoroughly with water and discard in trash.
