This filter cartridge is part of BRITA® Water Filter Travel Pak
EPA Reg. No. 54625-2 EPA Est. No. 54811-CAN-001, _____
{Actual EPA Est. No. shown in code on bottom panel of carton.}
Filter Patent No. _____

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use with cold water only.

This product inhibits the growth of bacteria in the filter to prolong the life of the filter.

The BRITA® WATER FILTER TRAVEL PAK may be used to disinfect untreated water under the conditions set forth below. Under no conditions is the filter to be used to process raw water unless the disinfectant enclosed in this carton is used as directed.

Using a suitable container filled with water to be disinfected, add one (1) disinfectant tablet for each quart of water. Allow to stand for ten minutes per quart of water to be certain that disinfection has occurred.

After the water is disinfected, insert the filter cartridge into the neck of the white plastic collar or funnel. Then place the collar or funnel over a clean separate container and pour the disinfected water through the filter.

When used as directed, the BRITA® WATER FILTER TRAVEL PAK will remove the chemical taste of the disinfectant, the suspended dirt or sediment in the water, along with any turbidity that may be in the water.

Be sure to carefully read the enclosed DIRECTIONS FOR USE for the disinfectant, which are also found on the label of the disinfectant bottle. Always use water from the cleanest possible source.

The filter cartridge in the BRITA® WATER FILTER TRAVEL PAK is able to filter at least 35 gallons of water. You should replace the filter every 35 gallons or 2 months, whichever comes first. When the filtered water is not as fresh tasting as usual, it will be time to replace the filter. Filters can be obtained from the same dealer that supplies your BRITA® WATER FILTER TRAVEL PAK, or for the store nearest you, call 1-800-44-BRITA.

If used as directed, the water will be suitable for cooking or human consumption.

For questions or comments, call 1-800-24-BRITA.

Carton label back panel

Refer to instructions found inside the carton.

Use the BRITA® WATER FILTER TRAVEL PAK to disinfect raw water according to the enclosed "Directions for Use." The filter is not to be used unless the EPA-registered disinfectant enclosed in this carton is used as directed.

The BRITA® WATER FILTER TRAVEL PAK will remove the chemical taste of the disinfectant, and will filter out suspended dirt or sediment in the water.

If used as directed, the water will be suitable for cooking or human consumption.
THIS PRODUCT IS IDEAL FOR TRAVELING IN AREAS OF UNSAFE WATER. THIS PRODUCT CAN BE USED FOR CAMPING, BACKPACKING, AND CAN BE USED IN WILDERNESS AREAS.

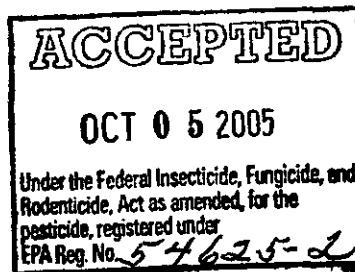

For POTABLE AQUA only:

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Avoid eye contact. Will cause severe irritation to eyes and mucous membranes. Do not ingest tablets. Avoid contamination of food. Wash after handling.

FIRST AID: In eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL: Store tablets in cool dry place. Wrap used filter cartridge in paper and discard in trash. Do not reuse empty tablet container. Place in trash or offer for recycling if available.
