Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 64405-37.”
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 1/31/2020
- Alternate CSF A dated 1/31/2020

APPLICATION INSTRUCTIONS

Nibor-D Insecticide Foam + IGR may be applied to surfaces, drains, cracks and crevices, voids for preventative and remedial control of listed insect pests. When applying, allow foam to remain and dissolve naturally. Do not apply product onto food contact surfaces.

The foam must have direct contact with cockroaches before it dissipates to kill them. There is no residual efficacy for adult cockroaches from the product. The IGR portion of the product does have residual efficacy and will prevent nymphal cockroaches from developing into reproductive adults up to 6 months, unless it is sprayed in a drain that water can wash it away. If sprayed in drains that water is run through, reapply as necessary.

Do not use this product in drinking [potable] water systems.

Do not use this product in or on electrical equipment due to possibility of shock hazard

When Treating Refuse Containers and Trash Chutes: Apply to surface of chute side walls and surfaces of trash containers, recycle bins, and dumpsters.

When Treating Floor and Sink Drains: Apply directly into drain. Allow foam to rise up to the drain surface.

When Applying to Cracks and Crevices: Apply to cracks and crevices to harborages and potential pest harborages or where pest food sources may be found.

When Treating Voids: Apply to void areas.

For Food Processing and Handling Establishments, including Federally Inspected Poultry and Meat Plants: In food areas, defined as areas where exposed food is present, only apply product into cracks, crevices, drains, and other inaccessible areas. Do not contaminate food and feed stuffs. Do not apply product onto food contact surfaces.

This product may be used in Schools and Day Care Facilities. Unless it is an emergency situation, applications should be performed when only maintenance staff are present, and the building is otherwise unoccupied. Do not apply to classrooms while in use. Vacate rooms prior to treatment. If application is a surface spray, spot or crack and crevice application, re-entry may occur once the spray has dried.

In hospitals, nursing homes or in any rooms occupied by the elderly or infirm, remove patients before treating rooms. If application is done as a surface spray, or crack and crevice application, patients may re-enter once the spray has dried.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area away from heat or open flame. Do not transport or store below 32°F. Protect from freezing. **Pesticide Disposal and Container Handling:** Do Not Puncture or Incinerate! *If empty:* Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency for disposal instructions.
