Protect Your Clothing Investment Naturally

from moths & mustiness with our fresh smelling Cedar Fresh™ Moth Balls. They bring the freshness of a mountain forest home to you.

Cedar Fresh™ is 100% natural cedar so it works like an expensive cedar chest - but at a fraction of the cost! It's economical, too. Just rub or shake with sandpaper to renew fresh scent over and over. Cedar Fresh cedar contains natural aromatics that repel moths while absorbing musty odors with a forest-fresh scent. So replace that mothball smell with the clean scent of real cedar.

Good Housekeeping is natural, economical and has earned The Good Housekeeping Seal.

Committed to environmental conservation, Cedar Fresh replants a tree for every one used to make this product.

Why Cedar Fresh® is The Fresher Cedar

Cedar Fresh® is fresher because it's mountain grown, hand selected & packed forest-fresh for you. Growing cedar is an art. Like wine or coffee, its aromatic quality is governed by soil and climate. Only Cedar Fresh cedar is mountain grown in our exclusive forests for premium aromatics and specially packaged through our secret process to bring you the freshest, most aromatic cedar in the world.

Cedar Fresh

The Fresher Cedar

The Freshest Cedar. The Strongest Scent.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. Always clear garments thoroughly before storage. Place balls in bottom of storage area (out of reach of children). Dark, low-light areas prolong scent & effectiveness. Dispose of package in trash after use.
