Subject: Label Amendment – Submit correct use level for approved use
Product Name: ACTICIDE® IPS 40
EPA Registration Number: 67071-66
Application Date: October 20, 2014
Decision Number: 499256

Dear Ms. Woodward:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stacey Grigsby by phone at (703) 305-6440, or via email at grigsby.stacey@epa.gov.

Sincerely

Stacey Grigsby
Registration Risk Manager

ACTICIDE® IPS 40

ACCEPTED
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 67071-66
Precautionary Statement
Hazards to Humans and Domestic Animals

DANGER

Corrosive. Causes irreversible eye damage and skin irritation. May be fatal if absorbed through the skin. Harmful if swallowed or inhaled. Do not get in eyes, on skin, or on clothing. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment

- Applicators and other handlers must wear:
 - Long-sleeve shirt and long pants;
 - Chemical-resistant gloves;
 - Chemical-resistant shoes plus socks.

USER SAFETY REQUIREMENTS Users must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users must remove personal protective equipment immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly. Users must remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

CONDITIONS OF SALE AND WARRANTY
Thor GmbH warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. THOR GMBH MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the control of Thor GmbH and Seller. Risks such as ineffectiveness or other unintended consequences resulting from, but not limited to, failure to follow label directions will be assumed by the Buyer or User. IN NO CASE WILL THOR GMBH OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.

ACTIVE INGREDIENTS:

3-Iodo-2-Propynyl Butyl Carbamate.....	40.00%
OTHER INGREDIENTS.....	60.00%
TOTAL.....	100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO

See Side panel for additional precautionary statements

FIRST AID

If In Eyes:	<ul style="list-style-type: none"> > Hold eye open and rinse slowly and gently with water for 15-20 minutes. > Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. > Call a poison control center or doctor for treatment advice.
If on Skin or clothing:	<ul style="list-style-type: none"> > Take off contaminated clothing. > Rinse skin immediately with plenty of water for 15-20 minutes. > Call a poison control center or doctor for treatment.
If Swallowed:	<ul style="list-style-type: none"> > Call a poison control center or doctor immediately for treatment advice. > Have person sip a glass of water if able to swallow. > Do not induce vomiting unless told to do so by the poison control center or doctor. > Do not give anything by mouth to an unconscious person
If Inhaled:	<ul style="list-style-type: none"> > Move person to fresh air. > If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. > Call a poison control center or doctor for further treatment advice
Note to physician:	Probable mucosal damage may contraindicate the use of gastric lavage.
HOT LINE NUMBER:	In case of emergency, for additional information call toll free 1-800-424-9300. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
For Transportation / Spill Emergency:	Call Chemtrec at 1-800-424-9300

PHYSICAL AND CHEMICAL HAZARD
 Materials to be avoided: oxidizing agents
STORAGE AND DISPOSAL
 Do not contaminate water, food, or feed by storage or disposal or by cleaning equipment.
PESTICIDE STORAGE: Store in original container in a cool place. Protect from excessive heat. Do not store or transport in unlined metal containers. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: [For containers < 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. [For containers > 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.
DIRECTIONS FOR USE
 If is a violation of Federal law to use this product in a manner inconsistent with its labeling.
 Industrial microbiocida for use in "polymer latices, paints and coatings, building materials, adhesives and tackifiers, *mineral slurries, *oil-in-water emulsions, as an in-container preservative for aqueous products, for use in "household consumer, *industrial, janitorial products, metal working fluids, and *textiles/cordage products and *textile/textile fibers-making. **READ AND FOLLOW THE DIRECTIONS FOR USE ON THE ACCOMPANYING INFORMATION SHEET.** *Not approved for these uses in the State of California

ACTICIDE® IPS 40 INFORMATION SHEET

THIS ACTICIDE® IPS 40 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® IPS 40

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

<p>Adhesives ACTICIDE® IPS 40 is used in non-medical, non-food use natural and synthetic adhesive formulations for protection of these solutions against attack by fungal organisms in both the wet state and in the dry film of the finished product. It is required that this product be added at the end of the production cycle with good agitation</p>	<p>0.03 – 0.65% of ACTICIDE® IPS 40 (0.03 lb to 0.65 lbs per 100 lbs formula)</p>
<p>Inks ACTICIDE® IPS 40 is used in aqueous-based ink solutions for protection of these solutions against attack by fungal organisms. It is required that this product be added at the end of the production cycle with good agitation.</p>	<p>0.03 – 0.75% of ACTICIDE® IPS 40 (0.03 lb to 0.75 lbs per 100 lbs formula)</p>
<p>Paints and Coatings (including stains) ACTICIDE® IPS 40 is used in solvent and aqueous paints and coatings for protection against attack by fungal organisms in both the wet state and in the dry film of the finished product. It is required that this product be added at the end of the production cycle with good agitation.</p>	<p>Interior: 0.1 – 0.5% of ACTICIDE® IPS 40 (0.1 lb to 0.5 lbs per 100 lbs formula) Exterior: 0.3 – 1.3% of ACTICIDE® IPS 40 (0.3 lb to 1.3 lbs per 100 lbs formula)</p>
<p>*Plastics and Plastic Coatings ACTICIDE® IPS 40 is used to prevent surface mildew growth on non-medical, non-food use plastic items (such as shower curtains, cable and wire, etc.). Intended plastics include PVC, polyurethanes, elastomers and rubbers, neoprene, styrene compounds and polyolefins. To ensure uniform distribution, disperse in the plasticizer or color concentrate before it is incorporated into the resin. Do not use if the heat of processing is above 350°F for prolonged periods. <i>*Not approved for this use in California</i></p>	<p>0.3 – 2.5% of ACTICIDE® IPS 40 (0.3 lb to 2.5 lbs per 100 lbs formula)</p>
<p>*Paper Coatings ACTICIDE® IPS 40 is used in solvent and aqueous paints and coatings which are applied to non-food contact paper and cardboard substrates to prevent surface mold and mildew growth. For protection against attack by fungal organisms in both the wet state and in the dry film of the finished product. It is required that this product be added at the end of the production cycle with good agitation. <i>*Not approved for this use in California</i></p>	<p>0.05 – 0.75% of ACTICIDE® IPS 40 (0.05 lb to 0.75 lbs per 100 lbs formula)</p>

ACTICIDE® IPS 40 INFORMATION SHEET

THIS ACTICIDE® IPS 40 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® IPS 40

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

<p>Building Materials ACTICIDE® IPS 40 is used to control the growth of fungi in non-food contact building materials including: cellulosic materials, wallboard/drywall/sheetrock/gypsum board, concrete, masonry, wood composite materials, grouts, caulks.</p>	<p>0.05 – 1.3% of ACTICIDE® IPS 40 (0.05 lb to 1.3 lbs per 100 lbs formula)</p>
<p>*Household Consumer, Industrial, Janitorial Products ACTICIDE® IPS 40 is used to control the growth of fungi in non-food contact household consumer, industrial, janitorial products. End use applications include cleaning wipes, laundry products, cleaners, floor care products, car care products. For the preservation of liquids, gels, waxes, pre-moistened wipes or solutions delivered by mops or sponges. <i>*Not approved for this use in California</i></p>	<p>0.01 – 0.08% of ACTICIDE® IPS 40 (0.01 lb to 0.08 lbs per 100 lbs formula)</p>
<p>*Textiles ACTICIDE® IPS 40 is used as a mildewcide in both aqueous and solvent-based process formulations, including coatings and dyes which are used in textile processing. End-use applications of these materials include: fibers and backings, canvas and cordage, drapes and shower curtains. Not to be used in fabrics intended for human wear or direct skin contact. This product is to be solubilized or stirred in the dye bath or polymer coating pan to minimize mechanical losses and ensure a uniform distribution of the product. <i>*Not approved for this use in California</i></p>	<p>0.05 – 1.3% of ACTICIDE® IPS 40 (0.05 lb to 1.3 lbs per 100 lbs formula)</p>

Aqueous Metalworking, Cutting, Cooling and Lubricating Fluids:

To inhibit the growth of fungi in aqueous metalworking, cutting, cooling and lubricating fluids, add up to 1,000 ppm of this product to the diluted fluid (0.2 gallons per 100 gallons of fluid). Add this product to the fluid at preparation or to the reservoir (sump) containing the fluid. If added to the reservoir, circulate the fluid to ensure mixing.

Concentrates:

To inhibit the growth of fungi in aqueous metalworking, cutting, cooling and lubricating concentrates, add an amount that will give up to 2,000 ppm in the diluted fluid. The amount required in the concentrate will depend on the end use dilution.

ACTICIDE® IPS 40 INFORMATION SHEET

**THIS ACTICIDE® IPS 40 INFORMATION SHEET MUST ACCOMPANY EACH
SHIPMENT OF ACTICIDE® IPS 40
DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*Wood Preservation

ACTICIDE® IPS 40 is a liquid designed for use as a wood preservative for use in above ground applications. All use levels are in percentage by weight, and refer to this product. Dosage ranges are given for the various applications to indicate the approximate levels for a particular application. Exact level of use must be determined by field trials.

ACTICIDE® IPS 40 may be applied from solvent solutions or aqueous dispersions to new lumber, plywood, particle board, millwork, etc., to prevent the growth of mildew, sapstain and wood rot on these substrates. This product is for use on wood in above ground use only.

Treating solutions may be prepared by diluting this product in alcohols or aromatic solvents or by dispersion in water. Levels of 0.1 – 1.2% of this product are suggested depending upon the severity of conditions for end use, and the extent of time that protection is required.

For freshly sawn lumber, a concentration of 0.2% of this product is suggested as a starting level. A one minute dip at ambient temperatures in a solution or aqueous dispersion containing 0.2% of this product should be adequate to control the development of mildew and sapstain organisms on the lumber. Because of the great variation in susceptibility of fresh sawn lumber relating to the type of wood, sawing and storage techniques, conditions of humidity, method of treatment, etc., it is usually necessary to carry out field tests to determine the most appropriate means of application and the optimum concentration of this product to be used within the range specified.

For best results, lumber must be treated within twenty-four hours after it is sawed. The lumber must be completely immersed in the treating bath, and the treating vat designed to permit easy immersion and removal, and to minimize spillage. The vat may be cleaned by emptying and rinsing with a suitable solvent or by use of a detergent solution. To add additional product while treating, first prepare the proper solution or emulsion in a separate container (of wood, plastic, or stainless steel construction) and add to the treating vessel.

After treatment, lumber must be stacked in a properly maintained seasoning yard with good drainage so that no water will accumulate, in any area. The yard must be kept free from weeds and vegetation, which may hold moisture and promote growth of decay and stain producing fungi. All debris and lumber scraps must be removed from the area. A properly laid out yard must take advantage of prevailing winds to permit good air circulation. Main alleys must be at least 16 feet wide. Stack foundations must be sufficiently elevated to permit ready access of air to the pile, and allow water to drain off quickly

**Not approved for this use in California*
