June 6, 2018

Mr. Walter G. Talarek
W. Neudorf GmbH KG
c/o Walter G. Talarek PC
5153 Allison Marshall Drive
Warrenton VA 20187

Subject: Notification per PRN 98-10 – Revising Marketing Claims
Product Name: Neudorff Liquid Ant Bait
EPA Registration Number: 67702-52
Application Date: March 28, 2018
Decision Number: 540586

Dear Mr. Talarek:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Carlyn Petrella at 703-347-0439 or via email at petrella.carlyn@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Carlyn R. Petrella".

EPA Est. No.

Environmental Hazards

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters.

Personal Protective Equipment (PPE): Mixers/loaders and other handlers must wear the following: long-sleeved shirts, long pants, shoes, socks plus gloves made of any waterproof material. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read and follow all applicable directions and precautions on this label before using.

APPLICATION DIRECTIONS

Set empty bait station beside ant mounds and nests, ant trails, or where listed ants crawl before filling with Neudorff Liquid Ant Bait.

Follow the filling instructions for the bait station [purchased][sold] separately. When foraging ants are no longer visiting the bait station, the bait station may be cleaned and moved to a different location. Use two or more bait stations to treat larger nests of listed ants (excluding foraging fire ants, carpenter ants, harvester ants and pharaoh ants).

Avoid applying in direct sun to decrease evaporation of the bait solution. Refill when the Neudorff Liquid Ant Bait has been consumed or dried out.

RESTRICTIONS

1. Use only tamper proof and spill resistant bait stations when used indoors and outdoors if children and pets have access to the treatment area.
2. Place bait stations in areas inaccessible to children and pets.

3. Do not use this product without a bait station or apply product directly to soil or plant parts.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container.

~~Triple-rinse container (or equivalent) promptly after emptying. Triple Rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in sanitary landfill or by other procedures approved by state and local authorities incineration.~~

{Optional warranty statement}

["WARRANTY

To the extent consistent with applicable law, seller warrants that this product conforms to the chemical description on this label and is fit for the purposes stated on this label only when used in accordance with directions under normal use conditions. To the extent consistent with applicable law, this warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied."}]

{**OPTIONAL LABEL CLAIMS:** The following claims and product information may or may not be presented on the product's label and labeling}

- [
- Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found entering [building] [home]
- Use in and around residential [areas] [buildings]
- Use around industrial and recreational [areas][buildings]
- May be used in bait stations placed around ornamentals
- May be used in bait stations placed around the base of trees
- Use Neudorff Liquid Ant Bait with any tamper and spill proof bait station.

- Ant bait station not included and must be purchased separately
- Ant bait station must be purchased separately
- Use Neudorff Liquid Ant Bait with bait stations that are designed for ant control such as [KM AntPro Baiting System], [Ants-no-More® Ant Bait Station], [Ant café], [Antopia® Bait Stations] or [D-SECT IPM Station].
- May be used with [KM AntPro Baiting System], [Ants-no-More® Ant Bait Station], [Ant café], [Antopia® Bait Stations] or [D-SECT IPM Station]. (sold separately)
- Where tamper and spill proof traps are required, use Neudorff Liquid Ant Bait with one of the following bait stations: [KM AntPro Baiting System], [Ants-no-More® Ant Bait Station], [Antopia® Bait Stations] or [D-SECT IPM Station].
 - To fill, follow filling instructions accompanying separately purchased ant bait station.
- Liquid Ant Bait
 - Spinosad is derived from the fermentation of a soil dwelling bacterium.
 - Spinosad is derived from the fermentation of Saccharopolyspora spinosa, a soil organism.
 - Spinosad is derived from a soil dwelling bacterium
 - Kills foraging carpenter ants*, foraging fire ants*, sweet-feeding listed ants, pavement ants, moisture ants, little black ants, Argentine ants, crazy ants, acrobat ants, bigheaded ants, cornfield ants, ghost ants, odorous house ants, thief ants, Texas leafcutting ants, field ants and other common listed ants (excluding harvester ants and pharaoh ants)
 - *Not for use in California
 - Controls: foraging ants (excluding carpenter ants, fire ants, harvester ants and pharaoh ants), sweet-feeding listed ants, pavement ants, moisture ants, little black ants, Argentine ants, crazy ants, acrobat ants, bigheaded ants, cornfield ants, ghost ants, odorous house ants, thief ants, Texas leafcutting ants, field ants and other common listed ants (excluding harvester ants, fire ants, carpenter ants, and pharaoh ants)
 - See [attached booklet] [side panels] [inside panels] [back panel] for [additional] [Directions for Use] [precautionary statements]
 - Kill listed ants (excluding fire ants, carpenter ants, harvester ants, pharaoh ants) where they breed
 - Controls foraging listed ants (excluding carpenter ants, fire ants, harvester ants and pharaoh ants)
 - Mode of Action: Neudorff Liquid Ant Bait is taken by the worker ants into the colony where it is fed to other worker ants, larvae and the queen ant
 - For residential indoor use
 - For residential and industrial outdoor use
 - For residential indoor and outdoor use
 - Kills entire colony (excluding fire ants, carpenter ants, harvester ants, pharaoh ants)
 - Kills the colony and queen (excluding fire ants, carpenter ants, harvester ants and pharaoh ants)
 - Destroys the colony (excluding fire ants, carpenter ants, harvester ants and pharaoh ants)
 - Ants carry bait back to the colony
 - Place the bait station containing Neudorff Liquid Ant Bait where ants are present
 - Starts killing within 48 hours for listed ants (excluding carpenter ants, harvester ants and pharaoh ants)
 - Kills within 48 hours for listed ants (excluding carpenter ants, harvester ants and pharaoh ants)

- See fewer ants within 48 hours for listed ants (excluding carpenter ants, harvester ants and pharaoh ants)
- Kills listed foraging ants (excluding harvester ants and pharaoh ants)
- People and pets may enter area when tamper and spill proof bait stations are in use

- Can be used on listed ants in and around homes (excluding fire ants, carpenter ants, harvester ants and pharaoh ants)
- Can be used on listed ants around recreational areas and industrial sites (excluding fire ants, carpenter ants, harvester ants and pharaoh ants)
- Intended For Use by Pest Management Professionals
- Read Entire Container Label Before Using This Product.

Environmental Hazards

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters.

Personal Protective Equipment (PPE): Mixers/loaders and other handlers must wear the following: long-sleeved shirts, long pants and shoes, socks plus gloves made of any waterproof material. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that

have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected workers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Read and follow all applicable directions and precautions on this label before using.

Agricultural Use Requirements

Use this product in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), restricted-entry interval, and notification to workers. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard (WPS).

Entry-Restrictions: Do not enter or allow worker entry into treated areas during the restricted-entry interval of 0 hours.

PPE required for early-entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, wear: long-sleeved shirt, long pants, socks, shoes plus gloves made of any waterproof material.

Non-Agricultural Use Requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Unprotected persons may enter treated area after product is applied.

APPLICATION DIRECTIONS

Set empty bait station beside ant mounds and nests, ant trails, or where ants crawl before filling with Neudorff Liquid Ant Bait. Follow the filling instructions for the bait station [purchased][sold] separately. When foraging ants are no longer visiting the bait station, the bait station may be cleaned and moved to a different location. Use two or more bait stations to treat larger nests of listed ants (excluding foraging fire ants, carpenter ants, harvester ants, pharaoh ants).

Avoid applying in direct sun to decrease evaporation of the bait solution. Refill when the Neudorff Liquid Ant Bait has been consumed or dried out.

RESTRICTIONS:

1. Use only tamper proof and spill resistant bait stations when used outdoors if children and animals have access to the treatment area.
2. Place bait stations in areas inaccessible to children and animals.
3. Do not use without a bait station or apply product directly to soil or plant parts.

USE SITES:

CROP Outdoors and Greenhouses
Fruit Trees and Vines
Banana and plantain
Fig
Grape
Tropical tree fruits (avocado, guava, mango, papaya, passion fruit)
Citrus Fruits (grapefruit, lemons, limes, oranges, tangerines)
Pome Fruits (apples, crabapples, loquat, mayhaw, pears, quince)
Stone Fruit (cherries, plums, prunes, peaches, nectarines, apricots)
Berries
Bushberries (blueberry, currant, elderberry, gooseberry, huckleberry, juneberry, ligonberry, salal)
Caneberries (blackberry, loganberry, red and black raspberry)

Cranberry
Strawberry
Vegetables
Artichoke
Asparagus (For post harvest protection of ferns only)
Legumes (succulent and dried beans and peas)
Bulb vegetables (dry bulb onion, garlic, great-headed (elephant) garlic, green onion, leek, shallot, welch onion)
Cole crops (broccoli, broccoli raab, Brussels sprouts, cabbage, cauliflower, cavalo, Chinese broccoli, Chinese cabbage (bok choy), Chinese cabbage (napa), Chinese mustard cabbage (gai choy), collards, kale, kohlrabi, mizuna, mustard greens, mustard spinach, rape greens)
Corn – field corn
Corn – sweet corn
Cucurbits (cucumber, edible gourds, melons, muskmelons, cantaloupe, honeydew, pumpkin, summer squash, watermelon, winter squash)
Fruiting vegetables (eggplant, groundcherry, pepino, pepper (except black), tomatillo, tomato) and okra
Leafy vegetables (except Brassica) and leaves of root and tuber and legume vegetables (arugula, beets, celery, peas, lettuce, rhubarb, spinach, swiss chard), turnip greens, and watercress
Root and Tuber Vegetables Potatoes, ginger, sweet potatoes, yams, carrot, parsnip, radish, rutabaga, turnip, beets, sugarbeets
Soybean
Tree Nuts, Peanuts and Pistachios
Peanut (not for use in California)
Tree nuts (almond, cashew, chestnut, filbert (hazelnut), macadamia nut, pecan, walnut); Pistachios
Herbs
Herbs (angelica, balm, basil, borage, burnet, chamomile, catnip, chervil (dried), chive, chive (Chinese), cilantro (leaf), clary, coriander (leaf), costmary, cilantro, curry (leaf), dillweed, horehound, hyssop, lavender, lemongrass, lovage (leaf), marigold, marjoram, nasturtium, parsley (dried), pennyroyal, rosemary, rue, sage, savory (summer and winter), sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood)
Peppermint and spearmint
Grass Grown for Seed Production and Cereal Grains
Small cereal grains (barley, buckwheat, grain amaranth, milo, oats, pearl millet, proso millet, rye, sorghum, triticale, wheat).
Grass crops, grass grown for seed, pastures and rangeland
Turf and Ornamental
Turf (lawns, athletic field and recreational areas, commercial turf, sod, golf courses, and grass buffers around gardens, crop areas and ornamentals)
Outdoor Ornamentals (herbaceous and woody plants)
Greenhouse Ornamentals
Outdoor container-grown nursery plants
Tree Farms and Plantations (Conifers, including Christmas trees, and deciduous trees)
Non-crop areas (pastures, rangeland, forests, parks, playgrounds, cemeteries, picnic areas, roadsides, campgrounds, industrial sites, fallow land, barrier strips and buffer zones)

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING:

~~*[For plastic containers less than or equal to 5 gallons:]*~~ [Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple Rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in sanitary landfill or by other procedures approved by state and local authorities incineration.]

or

~~*[For plastic containers greater than 5 gallons:]*~~ [Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple Rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Recap and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in sanitary landfill or by other procedures approved by state and local authorities.]
