OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

January 4, 2017

Jack Orman  
Technical Director  
Bengal Products, Inc.  
13739 Airline Highway  
Baton Rouge, LA 70817

Subject: Label Amendment – Addition of various pests to the label.  
Product Name: Bengal Wasp & Hornet Killer 5  
EPA Registration Number: 68543-40  
Application Date: August 12, 2016  
Decision Number: 520542

Dear Mr. Orman:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

EPA Reg. No. 68543-40  
Decision No. 520542

with FIFRA section 6. If you have any questions, please contact Jennifer Gaines at 703-305-5967 or via email at [gaines.jennifer@epa.gov](mailto:gaines.jennifer@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to be 'Kable Bo Davis', enclosed within a hand-drawn oval.

# BENGAL WASP & HORNET KILLER 5

- Kills wasps, hornets, bees and yellow jackets
- Kills carpenter ants, carpenter bees, [termites] [and wood-destroying beetles]
- [Safe on ornamental plants & shrubs when used as directed]
- Water-based [Emulsion] [Foam]
- Foam Trapping Action
- Foam Traps Insects [where they nest]
- Foaming Aerosol
- Kills on Contact
- Guaranteed to Work or Your Money Back
- Up to 25' Jet Spray

### ACTIVE INGREDIENT:

Permethrin (CAS No. 52645-53-1).....	0.50%
OTHER INGREDIENTS*.....	99.50%
TOTAL .....	100.00%

\*Contain petroleum distillates

KEEP OUT OF REACH OF CHILDREN  
**CAUTION**  
See Back Panel for Additional Precautions

Net Weight \_\_\_\_ oz. (\_\_\_\_ grams)

[Bengal Wasp & Hornet Killer 5 should be used outdoors on Wasp, Bee and Hornet nests.]

**GUARANTEE:** If you are not completely satisfied with this Bengal Product, call 225-753-1313 weekdays 8:30am - 4:00pm Central Time. Call or visit our web site at [www.bengal.com](http://www.bengal.com) for the complete guarantee.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact adults, children, or pets, either directly or through spray drift. Do not use indoors. All outdoor applications must be limited to spot or crack-and-crevice treatments only. Application is prohibited directly into sewers or drains, or to any areas like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow product to enter any drain during or after application. Do not water treated area to the point of run-off. Do not make applications during rain.

[This product is non-staining to most home siding and asphalt shingles depending on the condition and cleanliness. However, you should test it in an inconspicuous area for compatibility before using on these surfaces.]

### SHAKE WELL BEFORE USING.

#### For Outdoor Residential Use

**OUTDOORS:** This type of application is not a substitute for soil treatment, mechanical alterations or fumigation to control extensive infestations of termites and wood-destroying insects.

**FOR CARPENTER BEES:** [Insert extension tube into spray button.] Point nozzle at nest entrance and spray from a safe distance with the wind at your back to avoid spray drift. Apply early morning or late evening when the insects are least active. Do not stand directly under the nest entrance. Spray holes and other openings until surfaces are thoroughly wet, contacting as many carpenter bees as possible. Wait 24 hours so returning insects will be killed, then repair damaged wood surfaces as necessary.

**KILLS:** Ants (foraging Carpenter, Fire and Harvester ants; excluding Pharaoh ants), Wood-Boring Beetles (powderpost and deathwatch), Ground Nesting Yellowjackets and Termites\* [exposed drywood, dampwood & subtterranean]. Aim spray at nest openings in ground, bushes, and in cracks and crevices of wood structures which may harbor nests, saturating nest openings and contacting as many insects as possible.

**\*For spot treatment and localized kill only.**

To control Boxelder Bugs, Flies, Mosquitoes, Scorpions, Silverfish, Sowbugs, and Spiders; treat surface areas where insects are commonly

found, such as window and door frames, around pipes, cracks and crevices, and around garbage containers. Spray surfaces until thoroughly wet, contacting as many insects as possible.

### **TO KILL WASPS, HORNETS, AND YELLOW JACKETS**

1. Apply early morning or late evening when the most insects are on the nest.
2. Spray from a safe distance with the wind at your back to avoid spray drift. Do not stand directly under the nest.
3. Shake can well before use. Aim nozzle at the nest and push button to spray.
4. Soak the nest with the spray contacting as many insects as possible.
5. Wait 24 hours before removing nest so returning insects will be killed.

### **PRECAUTIONARY STATEMENTS**

#### **HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Causes moderate eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

#### **PHYSICAL OR CHEMICAL HAZARDS**

Contents under pressure. Do not use or store near heat or open flame. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Never leave container in parked or unattended vehicles.

#### **ENVIRONMENTAL HAZARDS**

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and runoff may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwater or rinsate. See Directions for Use for additional precautions and requirements. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

### **FIRST AID**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 – 20 minutes.
- Call a physician or poison control center immediately for treatment advice.
- Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a physician or poison control center immediately for treatment advice.
- Immediately call a poison control center or a doctor.

### **IF ON SKIN OR CLOTHING**

### **IF IN EYES**

### **IF SWALLOWED**

- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**Note to Physician:** Contains Petroleum Distillate. Vomiting may cause aspiration pneumonia. For information regarding medical emergencies or pesticide incidents, call 1-800-222-1222.

#### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.  
PESTICIDE STORAGE: Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food.  
PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do Not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container.

If Empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions.
