

U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

74559-11

Date of Issuance:

8/31/2020

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

OXY-5 (Concentrate) Disinfectant  
Cleaner

Name and Address of Registrant (include ZIP Code):

Rebecca Mannion  
Scientific & Regulatory Consultants, Inc.  
201 W. Van Buren Street  
Columbia City, IN 46725

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Joseph Varco, Acting Product Manager 33  
Regulatory Management Branch I  
Antimicrobials Division (7510P)

Date:

8/31/2020

2. You are required to comply with the data requirements described in the DCI identified below:
  - a. Hydrogen Peroxide GDCI-000595-1127, GDCI-063201-1125, and GDCI-063604-1126

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, “EPA Reg. No. 74559-11.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels (“Guidance”), [https://www.epa.gov/sites/production/files/2016-09/documents/emerging\\_viral\\_pathogen\\_program\\_guidance\\_final\\_8\\_19\\_16\\_001\\_0.pdf](https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf), you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
  - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
    - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
      - A. CDC Current Outbreak List for “U.S. Based Outbreaks” ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)),
      - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)) (also

- released through the CDC's Health Alert Network (HAN) notification process)
- C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page ([www.cdc.gov/hai/outbreaks](http://www.cdc.gov/hai/outbreaks))
- ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page ([www.oie.int/wahis\\_2/public/wahid.php/Diseaseinformation/WI](http://www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI)).
- A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is (small non-enveloped, large non-enveloped, enveloped).
- B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE's publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.
5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Poliovirus Type 1 and Canine Parvovirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product

constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 07/27/2020
- Alternate CSF 1 dated 07/27/2020

If you have any questions, please contact Terria Northern by phone at 703-347-0265, or via email at [northern.terria@epa.gov](mailto:northern.terria@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Varco', is positioned below the word 'Sincerely,'.

[See reference sheet [enclosed in each case] for [a complete list of pathogenic organisms] [additional features [and] claims] [directions for use] [claimed for this product] [or product name].]

{Note to Reviewer: Due to space constraints, the container label may not include all of the organism claims and marketing claims approved on the Master Label. Therefore, a separate reference sheet containing additional organism claims and marketing claims is added at the end under title "Reference Sheet". This reference sheet may be inserted into the shipping case and/or distributed separately or be available at the point of sale. When a separate reference sheet is used, it will either include the use direction, precautions, etc. or contain the instructions to the user to see the product/container label for use directions, precautions, etc.}

User should read S.D.S. before using product  
[S.D.S. is available online on [www.virox.com](http://www.virox.com) [insert S.D.S. Ref. No.]]

**{Precautionary Statements}**

**Precautionary Statements**  
**Hazard to Humans [and Domestic Animals]**

**DANGER:** Corrosive, causes irreversible eye damage. Do not get in eyes or on clothing. Harmful if swallowed. Harmful if inhaled. Avoid contact with skin or clothing and breathing vapor from the [undiluted] concentrate product. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Wear goggles [or face shield] and chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. [After product is diluted in accordance with the directions for use, chemical resistant gloves and goggles or face shield are not required.]

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

**First Aid:**

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. [If the product, diluted in accordance with the directions for use, gets in eyes, no specific first aid measures are required.]

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. [If the product, diluted in accordance with the directions for use, is swallowed, no specific first aid measures are required.]

**If on skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. [If the product, diluted in accordance with the directions for use, gets on skin, no specific first aid measures are required.]

If inhaled: Move person to fresh air. Call a poison control center or doctor for treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage

[In case of emergency, call a poison control center or doctor for treatment advice.] [Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.]

**[Spanish Worker Protection Statement]**

Si no puede leer en ingles, pregunte a su supervisor sobre las instrucciones de uso apropiadas antes de trabajar con este producto.

**{Warranty}**

*{Note to Reviewer: The warranty statement below will appear on select products}*

“WARRANTY: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.”

**{Features, Claims and Uses}**

*{Notes to Reviewer: The notice to user statement below will appear on selected products}*

“Notice to user: This product [or *product name*] may not be suitable for all items and surfaces. Prolonged exposure to copper, brass, ferrous metals such as galvanized iron and some coatings should be avoided. (Only approved dilution and dispensing equipment should be used when diluting this product [or *product name*].) If you are uncertain of material or composition of your item, confirm with the manufacturer before proceeding [or visit the Compatibility section on [www.virox.com](http://www.virox.com) for a listing of compatible materials].”

**{Claims against Emerging Viral Pathogens}**

*This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.*

*This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:*

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- Enveloped viruses
- Large, non-enveloped viruses
- Small, non-enveloped viruses

<b>For an emerging viral pathogen that is a/an...</b>	<b>...follow the directions for use for the following organisms on the label:</b>
<i>Enveloped virus</i>	<i>Poliovirus Type 1 (Strain Chat) 3-minute contact time for spray application; 5-minute contact time for immersion</i>
<i>Large, non-enveloped virus</i>	<i>Poliovirus Type 1 (Strain Chat) 3-minute contact time for spray application; 5-minute contact time for immersion</i>
<i>Small, non-enveloped virus</i>	<i>Canine Parvovirus 5 minute contact time for spray application {Note to reviewer: if Canine Parvovirus is not claimed on product label Poliovirus will be used instead} Poliovirus Type 1 (Strain Chat) 3-minute contact time for spray application; 5-minute contact time for immersion</i>

The statements shall be made only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

**Acceptable claim language:**

[Product name -or- this product] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, [product name -or- this product] can be used against [name of emerging virus] when used in accordance with the directions for use against [insert supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

{or}

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name -or- this product] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [insert supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.

**{Organism Claims}**

(When used as directed, this product is effective against a wide variety of pathogenic microorganisms [including bacteria, \*viruses<sup>3</sup> and fungi<sup>3</sup>]. At a 1:64 dilution [2 oz. of product per gallon of water] [in the presence of 200 ppm hard water, 5% serum load] and a 3-minute contact time, unless otherwise noted, this product kills the following on hard non-porous inanimate surfaces:)

(See reference sheet (enclosed in each case) for a complete list of organisms.)

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

**{Table 1: Bactericidal Claims}**

(This product [or product name] is bactericidal at a 1:64 dilution [2 oz. of product per gallon of water] [in the presence of 200 ppm hard water, 5% serum load] and a 3-minute contact time, unless otherwise noted:)

<b>[Bacteria] [Bactericidal] (Activity):</b> (3 minutes at 1:64), (5 minutes at 1:64)	<b>Dilution</b>	<b>Contact Time</b>
Multi-drug Resistant (MDR) <i>Acinetobacter baumannii</i> (ATCC 19606)	1:64	3 minutes
<i>Bordetella pertussis</i> (ATCC 12743)	1:64	3 minutes
<i>Burkholderia cepacia</i> (ATCC 25416)	1:64	3 minutes
<i>Enterobacter aerogenes</i> (ATCC 13048)	1:64	3 minutes
[New Delhi metallo-beta-lactamase 1] (NDM-1 producing) <i>Enterobacter cloacae</i> (CDC 1000654)	1:64	3 minutes
[New Delhi metallo-beta-lactamase 1] (NDM-1 producing) <i>Escherichia coli</i> (CDC 1001728)	1:64	3 minutes
Extended-Spectrum beta-lactamase (ESBL) producing <i>Escherichia coli</i> (ATCC BAA-196)	1:64	3 minutes
<i>Escherichia coli</i> O157:H7 (ATCC 35150)	1:64	3 minutes
<i>Klebsiella pneumoniae</i> (ATCC 4352)	1:64	3 minutes
Extended-spectrum beta-lactamase (ESBL) producing <i>Klebsiella pneumoniae</i> (ATCC 700603)	1:64	3 minutes
<i>Listeria monocytogenes</i> (ATCC 19117)	1:64	3 minutes

<i>Staphylococcus aureus</i> (ATCC 6538)	1:64	1 minute
[Methicillin Resistant] <i>Staphylococcus aureus</i> (MRSA) (ATCC 33592)	1:64	1 minute

## Malodor(s) (Activity) (Odor) (Counteractancy)

Reduces [eliminates 99.9% of] [destroys] odor-causing bacteria and odors on hard, non-porous surfaces in restroom areas, behind and under sinks and counters, and storage areas (and other places where bacterial growth can cause malodors), (when used as directed at a 1:64 dilution (2 oz. of product per gallon of water), in the presence of 200 ppm hard water, in [and a] 30 second[s] [contact time].

### {Fragrance Claims}:

- Unscented {This text will only appear on the label with the non-fragranced CSFs}
- Fragrance free formula {This text will only appear on the label with the non-fragranced CSFs}

### {General Marketing Claims}:

#### {Soft Surface Sanitization Claims}

- For use as a spot sanitizer on soft surfaces<sup>6</sup> [and] [or] [insert soft surfaces, from list 3] found in [hospitals], [nursing homes], [spas] [healthcare facilities], [dental offices] [and] [medical offices].

#### {Soft Surface Sanitization Short Claims}

- A proven spot sanitizer on soft surfaces<sup>6</sup> [fabrics<sup>6</sup>] [and] [or] [insert soft surfaces from list 3]
- An effective soft surface<sup>6</sup> spot sanitizer
- Great for use as a spot sanitizer on soft surfaces<sup>6</sup> such as [insert soft surfaces from list 3]
- Kills microorganisms on [soft surfaces<sup>6</sup>] [fabrics<sup>6</sup>] [and] [or] [insert soft surfaces from list 3] [found in spas]
- Kills 99.9% of [insert organisms from table 6] on [insert soft surfaces from list 3]
- One-step<sup>18</sup> cleaner and spot sanitizer on soft surfaces<sup>6</sup>
- Removes [and] [or] eliminates odors by killing odor-causing bacteria on [soft surfaces<sup>6</sup>]
- Spot sanitizes by killing [insert organisms from table 6] on soft surfaces<sup>6</sup> in 1 minute
- Spot sanitizes fabrics<sup>6</sup> [and] [or] [insert soft surfaces from list 3]
- Spot sanitizes soft surfaces<sup>6</sup> in one step<sup>18</sup>
- Spot sanitizes soft surfaces<sup>6</sup> [in 1 minute]
- Soft surface<sup>6</sup> [and] [or] fabric<sup>6</sup> spot sanitizer
- Use on [insert soft surfaces from list 3]
- 

### {General Marketing Claims}

- [Mold] [mildew] [stain] cleaner
- [A disinfectant cleaner that] cleans, disinfects and deodorizes in one labor saving step<sup>3</sup>
- [Cleans] [disinfects] [deodorizes] [sanitizes] with hydrogen peroxide
- [Hospital] disinfectant
- [No rinse required.] No streaking [or filming]
- [Step-saving], [labor-saving], [time-saving], [cost-saving] formula
- [Uses] [harnesses] the cleaning power of hydrogen peroxide
- [Uses] patented hydrogen peroxide formula for [powerful] cleaning [with active oxygen]
- [Versatile], [fast-acting<sup>4</sup>], [convenient] formula
- Glutaraldehyde free [No glutaraldehydes]

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- A disinfecting cleaner for use in [*insert industrial use sites, from list 6*]
- An effective one-step<sup>9</sup> sanitizer-cleaner for use on hard non-food contact surfaces
- Antimicrobial
- Bactericidal, \*Virucidal, and Pseudomonacidal<sup>7</sup> in 3 minutes! Unless otherwise noted [in claims section] [and] [use directions]
- Bleach free
- Chlorine bleach alternative lifts dirt and disinfects
- Chlorine free
- Cleaning and [disinfecting] [disinfection]
- Cleans - disinfects – deodorizes
- Cleans [and disinfects] [hard, non-porous surfaces] [kitchens<sup>2</sup> and bathrooms]
- Cleans [fast] [in kitchen<sup>2</sup>] [and bathrooms]
- Cleans [removes] [eliminates] [destroys] stains
- Cleans [tough] grease and grime [and] [institutional] [soils] [fast]
- Cleans [tough] soap scum
- Cleans and disinfects non-food [contact] hard non-porous surfaces [all over the house] [kitchens<sup>2</sup>] [and] [bathrooms] [restrooms].
- Cleans soap scum
- Cleans without bleaching
- Cleans, deodorizes and removes soils
- Cleans, disinfects and deodorizes [hard, non-porous surfaces]
- Compatible with [most] surfaces
- Compatible with [suitable for] [will not harm] most hard non-porous [household] surfaces, [no bleach [or chlorine] stains]
- Compatible with microfiber [cloths]<sup>12</sup>
- Contains no [abrasives] [bleach] [or harsh acids]
- Contains no phosphates
- Contains no VOC-emitting ingredients
- Controls (eliminates 99.9% of) (kitchen<sup>2</sup>) odor-causing bacteria
- Cuts [cleans] kitchen [and] [bathroom] [and] household grime and soils [fast]
- Deep hydrogen peroxide bubbling clean
- Deodorizes
- Designed specifically to [effectively] eliminate odors caused by mold and mildew
- Disinfect in one easy step<sup>3</sup>
- Disinfectant: Multi-Surface
- Disinfects - kills germs for a deep down clean
- Disinfects and kills [up to] [99.9%] [of] germs [and] [bacteria] [with [*product name*]] [with hydrogen peroxide]
- Disinfects [deodorizes] [and sanitizes] as it cleans
- Disinfects [deodorizes] hard, non-porous surfaces
- Dual action formulation providing broad spectrum activity against; \*viruses, bacteria, fungi
- Easy to use – Just spray<sup>4</sup> [and] [walk away]
- Effective – Cleans soap scum
- Eliminates [kills] 99.9% of odor-causing bacteria
- Eliminates [kills] 99.9% of bacteria from [kitchen<sup>2</sup>] [bathroom] [washroom] [restroom] surfaces
- Eliminates odors [caused by] [bacteria], [fungi] [mold], [mildew]]
- Fast<sup>4</sup> / Easy / Effective: Use [in] [on] [*insert industrial use sites, from list 6*]
- For a cleaner, fresher [office] [school] [college] [household]
- For any non-food contact hard, non-porous surface where germs are a concern
- For everyday use [in [institutional] [and industrial] facilities]
- For everyday use [in kitchens<sup>2</sup>] [and bathrooms] [restrooms]
- For multiple cleaning tasks
- For non-scratch cleaning of showers and tubs, shower doors and curtains, fixtures and toilet bowls
- For use in [household], [homecare], [daycare] settings [as a multi-purpose disinfectant cleaner]
- For use [in] [on] [*insert industrial use sites, from list 6*][as a multipurpose disinfectant cleaner]
- For use in crime [trauma] scenes
- For use in homecare
- Formulated with patented hydrogen peroxide technology<sup>1</sup>
- Fungicide
- Good for most indoor cleaning tasks.
- Hydrogen peroxide (based) disinfectant
- Ideal for cleaning and disinfection of hard, non-porous surfaces in critical environments
- Ideal product for use in LEED certified buildings
- Institution [use] [disinfectant]
- Institutional and healthcare disinfectant
- Intense cleaning action
- Is effective yet economical
- Kills [destroys] [eliminates] 99.9% of germs [while it cleans]
- Kills [household] bacteria [and sanitizes]
- Kills [kitchen<sup>2</sup>] [bathroom] [household] germs

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- Kills [99.9%] [of] bacteria [and \*viruses] [with this product *[or product name]*]
- Kills [99.9%] [of] [household] bacteria
- Kills [99.9%] [of] bacteria commonly found in the [kitchen<sup>2</sup>] [and bathroom]
- Kills [99.9%] of germs
- Kills [effective against] cold and flu<sup>16</sup> \*virus on hard, non-porous surfaces
- Kills and controls bacteria
- Kills antibiotic resistant bacteria<sup>10</sup>
- Kills bacteria and \*viruses on hard, non-porous (kitchen<sup>2</sup>) (bathroom) (restroom) (household) surfaces in 3 minutes at 1:64 dilution, Unless otherwise noted [in claims section] [and] [use directions]
- Kills bacteria commonly found in kitchens<sup>2</sup> [in 3 minutes] at 1:64 dilution
- Kills flu<sup>16</sup> \*virus on hard, non-porous surfaces
- Kills germs while it cleans<sup>3</sup>
- Kills kitchen and bathroom bacteria
- Kills odor-causing [household] bacteria
- Leaves [office] [washroom] [restroom] smelling clean with a clean fresh scent
- Leaves surfaces virtually streak-free
- Leaves your [home] [house] [washroom] [restroom] smelling clean with a clean fresh scent
- Leaves your kitchen<sup>2</sup> and bathroom with a fresh, clean scent
- Long shelf life: 2 years undiluted [150 days (5 months) once diluted (at 1:64)]
- Makes 4 quarts [of ready to use] [RTU] disinfectant [sanitizer] [cleaner] with 2 oz. of product
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard for \*HIV-1, \*HBV and \*HCV
- Neutralizes musty odors
- Neutralizes tough odors from smoke
- No fragrance added {*This text will only appear on the label with the non-fragranced CSFs*}
- No harsh [chemical] fumes
- Non-tainting, leaves no unsightly residue
- Odor control
- Office [use]
- Meets surface disinfection recommendations for OSHA bloodborne pathogen standard compliance
- Phenol free
- Powerful cleaning
- Powerful odor control [odor neutralizer] [deodorizer] [odor-counteractant] formula [on hard non-porous surfaces]
- Powers away [through] stains
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Pseudomonacidal<sup>7</sup> [in 3 minutes! Unless otherwise noted [in claims section] [and] [use directions]]
- Quaternary ammonium compound [quat] free
- Quickly [eliminates] [removes] [food] odors
- Removes [lipids] [fats] [proteins]
- Removes [the most common] [household] allergens<sup>5</sup> [around your home<sup>2</sup>] [around your kitchen<sup>2</sup>] [around your bathroom] [on your floors]
- Removes dirt and kills germs
- Safe for most hard surfaces, [no bleach [or chlorine] stains]
- Safe to use on floors
- Sanitizes hard, non-porous surfaces in 30 seconds!
- Smell of clean [is no smell] {*This text will only appear on the label with the non-fragranced CSFs*}
- Stain remover
- Suitable for everyday use
- Surface cleaner
- This product {*or product name*} disinfects [deodorizes] [hard, non-porous surfaces] as it cleans.
- This product cleans, deodorizes and controls the growth of odor-causing bacteria
- This product inhibits bacterial on surfaces and deodorizes by killing microorganisms that cause offensive odors.
- This product inhibits mold and mildew odors when used as directed.
- To be used in sanitizing and disinfecting of hard, non-porous non-food [contact] surfaces and non-critical equipment
- To clean mold and mildew stains or odors
- Tough on germs
- Use only one product to get a streak-free shine plus antimicrobial action
- Use this product throughout your home to clean [beverage stains] [dirt] [food stains] [grime] [pet stains] [soap scum]
- Will not leave grit [or soap scum]

## **[Features, Claims & Uses]**

### **[General Uses]**

This product [*or product name*] is a one-step<sup>3</sup> (hospital-use) germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces. It cleans quickly by removing [*insert soils from list 1*] found in [*insert medical and dental use sites from list 4 and/or industrial use sites, from list 6*].

It is designed for use on (use daily on) (the following) hard, non-porous (environmental) (inanimate) surfaces: [*insert surface materials from list 2*], associated with [*insert residential and industrial/institutional use sites from list 5 and/or industrial use sites from list 6*] any hard, non-porous (washable) (non-food contact) surface where disinfection is required. This product's non-dulling formula eliminates the time and labor normally required for rinsing. Do not use on glasses, dishes and utensils.

This product is designed for use on hard, non-porous (environmental) surfaces: [*insert surface material from list 2*] associated with [*insert industrial use sites from list 6*] – any hard non-porous (washable) (non-food contact) surface where disinfection is required. Do not use on glasses, dishes and utensils.

### **[Public and Transportation Facilities]**

Use this product [*or product name*] in [*insert industrial use sites from list 6*]. Use this product [*or product name*] on washable hard, non-porous surfaces of: [*insert industrial use sites from list 6*] and (other hard, non-porous) surfaces made of: [*insert surface materials from list 2*].

This product is designed for use on hard, non-porous (environmental) surfaces: [*insert surface materials from list 2*] associated with [*insert residential and industrial/institutional use sites from list 5*] - any hard, non-porous (washable) (non-food contact) surface where disinfection is required. [Do not use on glasses, dishes and utensils [that may come into contact with food]].

This product cleans, disinfects and deodorizes hard, non-porous (environmental) surfaces in one step<sup>3</sup>. Its non-abrasive formula is designed for use on hard, non-porous surfaces associated with [floors], [walls], [non-food contact countertops], [*insert industrial use sites from list 6*].

### **[Trauma, Crime Scene, and Fire Clean Up]**

Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard compliance. This product effectively cleans and disinfects surfaces and equipment that come into contact with blood and other potentially infectious materials (OPIM).

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

**\*KILLS HIV-1, HBV and HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings [Hospitals, Nursing Homes] and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood / body fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [\*HIV-1] [associated with AIDS], Hepatitis C Virus [\*HCV] or Hepatitis B Virus [\*HBV].

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST \*HIV-1 [AIDS Virus], \*HCV OR \*HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

**Personal Protection:** Disposable latex or vinyl gloves, gowns, face masks, and eye coverings must be worn during all cleaning of body fluids, blood, and decontamination procedures.

**Cleaning Procedures:** Blood / body fluids must be thoroughly cleaned from surfaces / objects before application of this product [or product name].

**Contact Time:** Allow surface to remain wet for 3 minutes to kill \*HIV-1, \*HCV and \*HBV, [10 minutes to kill TB<sup>11</sup>].

**Disposal of Infectious Material:** Cleaning materials used that may contain blood and other body fluids must be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

## General Use Directions

### Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### For Use as a [General] Cleaner/Degreaser:

Dilute product at 0.5 - 1.0 oz. of product per gallon of water (1:128 – 1:256). Apply to surfaces. Wipe surfaces (and let air dry).

#### For Use as a Deodorizer:

Dilute at 2 oz. of product per gallon of water (1:64). Apply to hard, non-porous surfaces [and] [or] [insert use sites soft surfaces, from list 3]. Let stand for 30 seconds. (Wipe surface (and let air dry)). [Reapply as necessary]

#### [Allergen Destruction]

To [clean and] destroy specified allergens: [Set trigger to SPRAY.] Spray, wait 3 minutes, and wipe excess. [Rinse.] Allow to air dry. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel.]

#### Allergens:

- Cockroach matter [particles]
- Dust mite matter [particles]
- [Pet] [dog and cat] [dander]

#### Soft Sanitizing Use:

**To Sanitize [Soft Surfaces<sup>6</sup>] [Fabrics<sup>6</sup>]:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Hold bottle upright 6 - 8 inches from surface.
2. Spray until fabric is damp. DO NOT SATURATE.
3. Let stand for 1 minute.
4. Allow to air dry.
5. [For difficult odors or heavy fabrics, repeat application] [Reapply as necessary].

[To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry, evaluate discoloration]

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

**To Spot Sanitize Soft Surfaces<sup>6</sup>:** Dilute at 2 oz. of product per gallon of water (1:64)

Spray a light even coating on soiled area [fabric] until damp. Allow area to remain damp for 1 minute. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains or heavy fabrics). [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]. Let air dry.

## **[Carpet Cleaning & Deodorizing]**

This product was designed to be an effective cleaner by removing soils, grime and other deep down, stubborn dirt for easy removal or extraction.

## **[Equipment and PPE Disinfection (Non-Critical Devices)]**

To reduce cross contamination between treated hard, non-porous surfaces, this product is effective for cleaning and disinfecting reusable personal protective equipment (PPE), gear, tools, and restoration equipment after removal from containment areas.

## **[HVAC]**

[This product is suitable for hard, non-porous (exterior) surfaces of HVAC/R equipment, air conditioning and refrigeration equipment and heat pumps. Allow to come to room temperature prior to treatment.]

## **{Spas and Salons}**

### **{Soft Surface Sanitization Claims}**

- For use [as a spot sanitizer] on soft surfaces<sup>6</sup> [and] [or] [*insert soft surfaces from list 3*] found in [spas], [salons] [medical spas].

### **{General Marketing Claims}**

- [Compatible with] [Suitable for] [Will not harm] most hard, non-porous [household] surfaces, [no bleach (or chlorine) stains]
- [Controls] [Eliminates 99.9% of] [kitchen] odor-causing bacteria
- [Uses] [harnesses] the cleaning power of hydrogen peroxide
- [Uses] patented Hydrogen peroxide formula for [powerful] cleaning
- Antimicrobial
- Bactericidal, \*Virucidal, and Pseudomonacidal<sup>7</sup> in 3 minutes! Unless otherwise noted [in claims section] [and] [use directions]
- Bleach free
- Chlorine bleach alternative lifts dirt and disinfects
- Chlorine free
- Cleaning and [disinfecting] [disinfection]
- Cleans - Disinfects - Deodorizes
- Cleans and disinfects non-food [contact] hard, non-porous surfaces [all over the house] [kitchens<sup>2</sup>] [and] [bathrooms] [restrooms].
- Cleans, deodorizes and removes soils
- Cleans, disinfects and deodorizes
- Compatible with [equipment] and [hard] [non-porous] surfaces
- Compatible with microfiber [cloths]<sup>12</sup>
- Contains no [abrasives] [bleach] [or harsh acids]
- Contains no phosphates
- Contains no VOC-emitting ingredients
- Deep hydrogen peroxide bubbling clean
- Deodorizes
- Designed specifically to [effectively] eliminate odors caused by mold and mildew
- Disinfect in one easy step

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- Disinfectant: Multi-Surface
- Dual action formulation providing broad spectrum activity against; \*viruses, bacteria, fungi
- Easy to use – just spray<sup>4</sup> [and] [walk away]
- Eliminates odors [caused by bacteria], [fungi] [mold], [mildew]
- For indoor and outdoor use
- Fungicide
- Ideal for pedicure foot spas
- Long shelf life: 2 years undiluted (150 days [5 months] once diluted [at 1:64])
- No fragrance added {*This text will only appear on the label with the non-fragranced CSFs*}
- No harsh [chemical] fumes
- Non-tainting, leaves no unsightly residues
- Odor Control
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard compliance
- Phenol free
- Powerful cleaning
- Powers away tough stains
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Pseudomonacidal<sup>7</sup>
- Quaternary ammonium compound free
- Removes [the most common] allergens<sup>5</sup> [around your spa] [on your floors]
- Removes dirt and kills germs
- Safe for most hard surfaces, [no bleach (or chlorine) stains]
- Safe to use on floors
- Sanitizes hard, non-porous surfaces in 30 seconds!
- Step-saving, labor-saving, time-saving, cost-saving formula
- Suitable for everyday use
- Surface cleaner
- To be used in sanitizing and disinfecting of hard, non-porous [non-food] [contact] surfaces and non-critical equipment
- Tough on germs
- Tuberculocidal
- Versatile, Fast-acting<sup>4</sup>, Convenient formula

### **{Features, Claims & Uses}**

#### **[For Use in Spas, Salons & [Clinics]]**

(Footbaths (pedicure foot spa equipment) in (health clubs), (spas), (tanning salons), (tanning spas), (hair/nail/pedicure salons), (barber/beauty shops), (salons), (tattoo parlors) (medical spas)).

This product [*or product name*] is a one-step<sup>3</sup> (hospital-use) (germicidal) disinfectant cleaner, (fungicide), (\*virucide) (tuberculocide) (and) (deodorant) (odor-counteractant) (odor neutralizer) designed for cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous (footbath) surfaces. It cleans quickly by removing [*insert soils from list 1*] and all other buildups of organic matter (found) on (hard non-porous (inanimate) (environmental)) (footbath) surfaces.

It is designed for use on (Use daily on) hard, non-porous (environmental) (inanimate) surfaces (such as) (of) (footbaths) (pedicure foot spa equipment) (and) (esthetic tools and equipment).

{OR}

[This product [*or product name*] is designed for cleaning and disinfection of hard, non-porous surfaces in [*insert salon, spas and clinics use sites from list 7*]. It cleans by removing [*insert soils from list 1*] (and all) [(other) buildups] (or) [organic matter] found on hard non-porous surfaces.]

[This product is designed for use on hard, non-porous (environmental) surfaces: [*insert surface material from list 2*] associated with [*insert industrial use sites from list 6 and/or spas, salons and clinics use sites from list 7*] – any hard non-porous (washable) (non-food contact) surface where disinfection is required.]

[This product cleans, disinfects and deodorizes hard, non-porous (environmental) surfaces in one step<sup>3</sup>. Its non-abrasive formula is designed for use on hard, non-porous surfaces associated with [floors], [walls], [non-food contact countertops], [*insert industrial use sites from list 6*]]

[It is designed for use on (Use daily on) (the following) hard, non-porous (environmental) (inanimate) surfaces: [*insert surface material, from list 2*] associated with [*insert industrial use sites from list 6 and/or spas, salons and clinics use sites from list 7*] of any hard, non-porous (washable) (non-food contact) surface where disinfection is required. This product's non-dulling formula eliminates the time and labor normally required for rinsing. Do not use on glasses, dishes and utensils.]

**[Spa and Salon Antimicrobial Uses]  
Directions for Use**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**[Recommended Applications and Dilutions for (Spas), (Salons) (and) (Clinics)]**

{Note to reviewer: The following chart is optional and may appear on the label}

Area	Recommended Dilution	Contact Time <sup>14</sup>	Description
Disinfection of Tools and Implements	1:64 (2oz/gal)	5 Min <sup>15</sup>	Bactericidal, *Virucidal and Fungicidal for all listed *Viruses, Bacteria and Fungi

<sup>[12]</sup> **For Use to Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled items.
2. Completely immerse pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other non-porous instruments in the Use Solution so that surfaces remain wet for [five] [5] minutes.
3. Rinse (surfaces) (instruments) (and) (tools) thoroughly and let air dry before reuse.
4. Change solution daily or when visibly dirty.

NOTE: Remove instruments after [five] [5] minutes. Then rinse, dry and keep in a clean, non-contaminated receptacle until use. Prolonged soaking may cause damage to instruments.

**[Recommended Applications and Dilutions for (Spas), (Salons) (and) (Clinics)]**

{Note to reviewer: The following chart is optional and may appear on the label}

Area	Recommended Dilution	Contact Time <sup>14</sup>	Description
Daily Disinfection of workstations and client procedure areas	1:64 (2oz/gal)	5 Min <sup>15</sup>	Bactericidal, *Virucidal and Fungicidal for all listed *Viruses, Bacteria and Fungi

**For Use as a Bactericide, Fungicide and \*Virucide with (a)(an) [Mechanical Sprayer] [Pressure Sprayer]:**

1. Dilute product at 2.0 of product per gallon of water (1:64) and fill tank.
2. Pre-clean visibly soiled areas.
3. Spray 6-8 inches from hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
4. All surfaces must remain wet for 3 minutes<sup>19</sup> when using a 1:64 (2.0 oz per gallon of water) dilution for bactericidal, fungicidal, and \*virucidal efficacy and 10 minutes for tuberculocidal efficacy.
5. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

**[Recommended Applications and Dilutions for (Spas), (Salons) (and) (Clinics)]**

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

{Note to reviewer: The following chart is optional and may appear on the label}

Area	Recommended Dilution	Contact Time <sup>14</sup>	Description
Disinfection of Non-circulating foot baths/basins	1:64 (2oz/gal)	3 Min <sup>15</sup>	Bactericidal, *Virucidal and Fungicidal for all listed *Viruses, Bacteria and Fungi
Disinfection of Circulating foot baths/basins	1:64 (2oz/gal)	5 Min <sup>15</sup>	Bactericidal, *Virucidal and Fungicidal for all listed *Viruses, Bacteria and Fungi

<sup>[12]</sup> **For use as a disinfectant, (fungicide), (\*virucide) on hard, non-porous (inanimate) (environmental) surfaces of (non-circulating) (and) (circulating) (footbaths) (and) (pedicure foot spa equipment):** Dilute at 2.0 oz. of product per gallon of water (1:64):

1. Drain: Drain the water (from) (the unit) (foot spa) (basin) (bowl) and remove any visible debris.
2. Clean: Thoroughly clean all (hard, non-porous (inanimate) (environmental)) surfaces [*insert industrial use sites from list 6*]. with use solution (of this product) [*or product name*] [(Dilute) 2.0 oz. per gallon of water (1:64)] (soap) (detergent), then rinse with water and drain.
3. Apply (Fill): (Saturate with) (Use) (Apply) a use solution of [(Dilute) 2.0 oz. per gallon of water] this product [*or product name*] on all hard non-porous (inanimate) (environmental) surfaces with a [brush], [cloth], [mop], [sponge], [auto scrubber], [mechanical spray device] ((hand pump) coarse pump or trigger spray device).
4. Scrub (Circulate): Brush or swab thoroughly and allow solution to stand for 5 minutes. [For spray applications, spray 6-8 inches from hard, non-porous surface(s) and allow solution to stand for 3 minutes<sup>19</sup>]. ([For Whirlpool foot spas, air-jet basins, "pipe-less" foot spas, and other circulating spas it is best to fill the basin with the use solution of this product [*or product name*] [(Dilute) 2.0 oz. per gallon of water] and turn the unit on to circulate the solution for 5 minutes].)
5. [Drain and] Rinse all [(cleaned) (treated)] surfaces with fresh water.

Note (important):

- [Change cloth, sponge or towels frequently to avoid re-deposition of soil].
- [(Change the solution) (A fresh solution must be prepared) (Prepare a fresh solution)] at least daily or [(more often if use solution) (when use solution)] becomes visibly [(dirty) (soiled) (diluted)].

- Odor control
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard Compliance
- Phenol free
- Powerful cleaning
- Powers away tough stains
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Pseudomonacidal<sup>7</sup>
- Quaternary ammonium compound free
- Removes dirt and kills germs
- Safe for most hard surfaces, [no bleach (or chlorine) stains]
- Safe to use on floors
- Sanitizes hard, non-porous surfaces in 30 seconds!
- Step-saving, labor-saving, time-saving, cost-saving formula
- Suitable for everyday use
- Surface cleaner
- To be used in sanitizing and disinfecting of hard, non-porous (non-food) [contact] surfaces and non-critical equipment
- Tough on germs
- Versatile, fast-acting<sup>4</sup>, convenient formula

## **[Features, Claims & Uses]**

### **[General Uses in (Critical Environment, Clean Room, Compounding Pharmacy)]**

This product is ideal for use as a cleaner and disinfectant in Laboratory Settings such as (Life Sciences), (CAT Laboratories), (Pharmacies), (Cleanrooms), (Critical Environments), (GMP facilities), (Compound pharmacy labs), (Biopharmaceutical), (Medical device facilities), and (FDA regulated sites).

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

This product is a one-step<sup>3</sup> germicidal disinfectant cleaner and odor neutralizer designed for cleaning and disinfecting of hard, non-porous environmental surfaces. This product cleans by removing [*insert soils from list 1*] and other organic matter commonly found on surfaces. This product was designed to leave surfaces clean, disinfected and odor free.

This product cleans, disinfects, and deodorizes hard, non-porous environmental surfaces in one step<sup>3</sup>. Its non-abrasive formula is designed for use on hard, non-porous environmental surfaces associated with [*insert medical and dental use sites from list 4 and/or industrial use sites from list 6*] including those found in laboratory settings.

This product cleans by removing [*insert soils from list 1*] mold, mildew, common soils found in [*insert medical and dental use sites from list 4*]. (It also) reduces odor causing bacteria (leaving surfaces smelling clean and fresh)).

This product is designed for use on hard, non-porous environmental surfaces: [*insert surface material from list 2*] associated with [*insert industrial use sites from list 6*] – any hard non-porous (washable) (non-food contact) surface where disinfection is required.

It is designed for use on (Use daily on) (the following) (hard, non-porous environmental (inanimate) surfaces): [*insert industrial use sites from list 6*] – any hard, non-porous (washable (non-food contact) surface where disinfection is required. This product's non-dulling formula eliminates the time and labor normally required for rinsing. Do not use on glasses, dishes and utensils.

## **[Critical Environment, Clean Room, Compounding Pharmacy, Hospitals, Health Care] [Directions for Use]**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**For Use as a [Daily] [Bactericide] [One-Step] Cleaner/Disinfectant:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous surfaces [until thoroughly wet].
3. Allow surfaces to remain wet for 3 minutes<sup>19</sup> ([and] [or] 10 minutes for tuberculocidal efficacy)
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).

<sup>[12]</sup> **For Uses as a [Instructions] [for] [use] [as] a [Boot Dip]:** Dilute 2 oz of product per gallon of water (1:64).

1. Using a (stiff) (bristled) (hand) brush (or) (scraper), remove organic matter from the boot (or) (shoe). (Pay particular attention to the sole).
2. Place boot (or) (shoe) into the boot dip and scrub hard, non-porous surfaces using a (soft) (hand) brush making sure that the boot is washed thoroughly with the product [or product name] and paying particular attention to the sole. Allow the boot (or) (shoe) to remain wet for 5 minutes for bactericidal, fungicidal, and \*virucidal efficacy.
3. Replace disinfectant solution [or product name] if soiled or a daily.

**For Uses as a [Instructions] [for] [use] [as] a Boot Spray:** Dilute 2 oz of product per gallon of water (1:64).

1. Using a (stiff) (bristled) (hand) brush (or) (scraper), remove organic matter from the boot (or) (shoe). (Pay particular attention to the sole).
2. Spray 6-8 inches from hard, non-porous surfaces of the boot (or) (shoe) with the product [or product name] and scrub using a (soft) (hand) brush making sure that the boot is washed thoroughly with the product [or product name]. (Pay particular attention to the sole.) Allow the boot (or) (shoe) to remain wet for 3 minutes<sup>19</sup> for bactericidal, fungicidal, and \*virucidal efficacy.
3. Diluted solution [product name] is good for (30) (45) (90) (150) days in a closed container.

**To Sanitize Non-Food Contact Surfaces:** Dilute at 2.0 oz. of product per gallon of water (Dilute 1:64).

1. Pre-clean visibly soiled surfaces.
2. Spray Use Solution 6-8 inches from hard, non-porous surfaces until thoroughly wet.
3. Let stand for thirty (30) seconds.

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).

Not for use on food contact surfaces or on food preparation areas.

**For Use as a Bactericide, Fungicide \*Virucide and Tuberculocide with (a) (an) [Mechanical Sprayer] [Pressure Sprayer]:** Dilute product at 2.0 of product per gallon of water (1:64) and fill tank.

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for 3 minutes<sup>19</sup> when using a 1:64 (2.0 oz per gallon of water) dilution for bactericidal, fungicidal, and \*virucidal efficacy and 10 minutes for tuberculocidal efficacy.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).

**For Use as a [General] Cleaner/Degreaser:**

Dilute product at 0.5 - 1.0 oz. of product per gallon of water (1:128 – 1:256). Apply to surfaces. Wipe surfaces (and let air dry).

**To Disinfect Surfaces in Pharmaceutical and Cosmetic Processing Facilities:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray use solution, 6-8 inches from hard, non-porous surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 3 minutes<sup>19</sup> ([and] [or] 10 minutes for tuberculocidal efficacy)
4. Rinse with sterile water.
5. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).

**To Disinfect Surfaces in Pharmaceutical and Cosmetic Processing Facilities:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray use solution, 6-8 inches from hard, non-porous surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 10 minutes.
4. Rinse with sterile water.
5. Wipe with a dry, clean cloth and let air dry.

<sup>[12]</sup> **For use to Clean and Disinfect Life Science Laboratory Surfaces, Instruments and Glassware:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Apply Solution by spray, cloth, disposable wipe, or mop to hard, non-porous environmental surfaces or completely immerse pre-cleaned glassware and compatible instruments in solution.
3. Immerse or allow the surface to remain wet for 5 minutes.

(For glassware/instrument: Rinse surface thoroughly and let air dry before re-use.)

(For surfaces: Wipe surface dry.)

(For glassware/instrument: Change immersion solution after each use.)

**To Sanitize [Soft Surfaces<sup>6</sup>] [Fabrics<sup>6</sup>]:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Hold bottle upright 6 - 8 inches from surface.
2. Spray until fabric is damp. DO NOT SATURATE.
3. Let stand for 1 minute.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).
5. [For difficult odors or heavy fabrics, repeat application] [Reapply as necessary].

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

[To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry, evaluate discoloration]

**To Spot Sanitize Soft Surfaces<sup>6</sup>:** Dilute at 2 oz. of product per gallon of water (1:64)

Spray a light even coating 6-8 inches from soiled area [fabric] until damp. Allow area to remain damp for 1 minute. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains or heavy fabrics). [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]. Let air dry.

- Disinfects - kills germs for a deep down clean
- Disinfects and kills [up to] [99.9%] [of] germs [and] [bacteria] [with *[product name]*] [with Hydrogen Peroxide]
- Disinfects [Deodorizes] [and Sanitizes] as it cleans
- Disinfects [Deodorizes] hard, non-porous surfaces
- Dual action formulation providing broad spectrum activity against; \*viruses, bacteria, fungi
- Easy to use – just spray<sup>4</sup> [and] [walk away]
- Eliminates (kills) 99.9% of odor-causing bacteria
- Eliminates (kills) 99.9% of bacteria from (kitchen<sup>2</sup>) (bathroom) (washroom) (restroom) surfaces
- Eliminates odors [caused by bacteria], [fungi] [mold], [mildew]
- For everyday use [in kitchens<sup>2</sup> and] [bathrooms] [restrooms]
- For indoor and outdoor use
- For use [in] [hospitals], [healthcare], [daycare] settings [as a multi-purpose disinfectant cleaner]
- For use in [alternate care clinics] [sleep [therapy] clinics]] [respiratory clinics]
- For use in homecare
- For use in laboratory settings and alternate care clinics
- Fungicide
- Glutaraldehyde free. [No Glutaraldehydes]
- Healthcare [use]
- Hospital Disinfectant
- Hydrogen peroxide (based) disinfectant
- Ideal for cleaning and disinfection of hard non-porous surfaces in critical environments
- Ideal product for use in LEED Certified buildings
- Institution [use]
- Institution [use] [disinfectant]
- Institutional and healthcare disinfectant
- Institutional disinfectant
- Intense cleaning action
- Kills (kitchen<sup>2</sup>) (bathroom) (household) germs
- Kills [99.9%] of (bacteria)(and)(viruses) (with this product {*or product name*})
- Kills [99.9%] of bacteria commonly found in the (kitchen<sup>2</sup>) (and) (bathroom)
- Kills [99.9%] [of] germs
- Kills and controls fungus and bacteria
- Kills antibiotic resistant bacteria<sup>10</sup>
- Kills bacteria commonly found in kitchens<sup>2</sup> [in 3 (3) minutes] at 1:64 dilution
- Kills flu virus<sup>16</sup> on hard, non-porous surfaces
- Kills germs while it cleans<sup>3</sup>
- Long shelf life: 2 years undiluted (150 days [5 months] once diluted [at 1:64])
- Makes [64] [128] [256] quarts [of ready to use] (RTU) disinfectant [sanitizer] [cleaner]
- Makes 4 quarts [of ready to use] [RTU] disinfectant [sanitizer] [cleaner] with 2 oz. of product
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard for \*HIV-1, \*HBV and \*HCV
- Neutralizes musty odors
- Neutralizes tough odors from smoke
- No fragrance added {*This text will only appear on the label with the non-fragranced CSFs*}
- No harsh [chemical] fumes
- Non-tainting, leaves no unsightly residues
- Odor Control
- Office [Use]
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard Compliance
- Phenol free
- Powerful cleaning

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

- Powerful odor control [odor neutralizer] [deodorizer] [odor-counteractant] formula [on hard non-porous surfaces]
- Powers away tough stains
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Pseudomonacidal<sup>7</sup>
- Quaternary ammonium compound [quat] free
- Removes [the most common] [household] allergens<sup>5</sup> [around your home<sup>2</sup>] [around your kitchen<sup>2</sup>] [around your bathroom] [on your floors]
- Removes dirt and kills germs
- Safe for most hard surfaces, [no bleach (or chlorine) stains]
- Safe to use on floors
- Sanitizes hard, non-porous surfaces in 30 seconds!
- Smell of clean [is no smell] *{This text will only appear on the label with the non-fragranced CSFs}*
- Specially designed to dissolve [penetrate] the toughest [stubborn] soils
- Stain Remover
- Step-saving, Labor-saving, Time-saving, Cost-saving formula
- Suitable for everyday use
- Surface cleaner
- This product *{or product name}* Disinfects [Deodorizes] [hard, non-porous surfaces] as it cleans.
- This product cleans, deodorizes, and controls the growth of odor-causing bacteria
- This product inhibits bacteria on surfaces and deodorizes by killing microorganisms that cause offensive odors.
- This product inhibits mold and mildew odors when used as directed.
- This product inhibits the growth of odor-causing bacteria on treated items and surfaces, such as construction materials<sup>1</sup>.
- To be used in sanitizing and disinfecting of hard, non-porous (non-food) [contact] surfaces and non-critical equipment
- To clean mold and mildew stains or odors
- Tough on germs

## **[Features, Claims & Uses]**

### **[For Use in (Alternate Care Clinics)]**

This product is ideal for use as a cleaner and disinfectant in Alternate Care Settings, Clinics & Offices such as (Sleep Therapy), (Respiratory Therapy), (Ophthalmic), (Massage), Chiropractic), (Acupuncture), (Naturopathic), (Homeopathic), (Home Healthcare), (Otolaryngology (ear, nose and throat)), (podiatry), (foot care nursing), (midwifery). This product can also be used in (Emergency Care) (EMS) (Fire / Police / Ambulance), (Transportation Facilities) and (Airports).

This product is designed for use on hard, non-porous (environmental) surfaces: *[insert surface material from list 2]* associated with *[insert industrial use sites from list 6]* - any hard non-porous (washable) (non-food contact) surface where disinfection is required.

It is designed for use on (Use daily on) (the following) (hard, non-porous (environmental) (inanimate) surfaces): *[insert industrial use sites from list 6]* – any hard, non-porous (washable) (non-food contact) surface where disinfection is required. This product's non-dulling formula eliminates the time and labor normally required for rinsing. [Do not use on glasses, dishes and utensils [that may come into contact with food]].

### **[For Use in (Hospitals/Health Care Facilities)]**

For Use in *[insert medical and dental use sites from list 4]*

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

This product is a one-step<sup>3</sup> disinfectant cleaner and deodorant designed for general cleaning and disinfecting of hard, non-porous (environmental) surfaces. It cleans quickly by removing *[insert soils from list 1]* and other common soils found in *[insert medical and dental use sites from list 4]* [and] [or] [schools and colleges].

This product is a one-step<sup>3</sup> (hospital-use) germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous (environmental) surfaces. This product cleans quickly by removing *[insert soils from list 1]* mold, mildew, commonly found in *[insert medical and dental use sites from list 4]* It (also) reduces odor-causing bacteria, leaving (restroom) surfaces smelling clean and fresh. Use where odors are a problem.

This product cleans, disinfects and deodorizes hard, non-porous (environmental) (hospital) (medical) surfaces in one step<sup>3</sup> (with no rinsing required). Its non-abrasive formula is designed for use on (Use daily on) (the following) hard, non-porous (environmental) surfaces: *[insert surface material from list 2]* found in *[insert medical and dental use sites from list 4 and/or industrial use sites from list 6]*. (It can also be used to pre-clean and disinfect hard, non-porous [surfaces of] hospital items: *[insert medical and dental use sites from list 4]* - any washable non-food contact surface (where disinfection is required). Do not use on glasses, dishes and utensils.

This product is designed for use on hard, non-porous (environmental) surfaces: *[insert surface material from list 2]* associated with *[insert medical and dental use sites from list 4 and/or industrial use sites from list 6]* – any hard non-porous (washable) (non-food contact) surface where disinfection is required. [Do not use on glasses, dishes and utensils [that come into contact with food]].

It is designed for use on (Use daily on) (the following) hard, non-porous (environmental) (inanimate) surfaces: *[insert surface material from list 2]* associated with *[insert industrial use site from list 6]* – any hard, non-porous (washable) (non-food contact) surface where disinfection is required. This product's non-dulling formula eliminates the time and labor normally required for rinsing. Do not use on glasses, dishes and utensils.

## **[Alternative Care Marketing Claims] [Hospital/Healthcare Uses] Directions for Use**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*{Note to reviewer: The following paragraph will be used on labels that list medical devices as defined by the FDA}*

(This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.)

**For Use to Clean and Disinfect Manikins Used in CPR Training:** Dilute at 2.0 oz. of product per gallon of water (1:64) Manikins should be cleaned as soon as possible at the end of each class to avoid drying of contaminants on surfaces. Disassemble the manikin as directed by manufacturer's instructions. Spray all surfaces (of manikins) with the Use Solution of this product *[or product name]* until thoroughly wet. Let stand for three (3) minutes and rinse with potable water. (For tuberculocidal efficacy let stand for ten (10) minutes and rinse with potable water.)

**For Use as a (Daily) (One-Step) Cleaner/Disinfectant:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Apply Use Solution by (hand pump) coarse trigger sprayer to hard, non-porous environmental surfaces. Spray 6 – 8 inches from hard, non-porous surfaces; making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for three (3) minutes ([and] [or] 10 minutes for tuberculocidal efficacy)

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

**For Use as a One-Step Bactericide and \*Virucide Cleaner/Disinfectant:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous surface until thoroughly wet.
3. Allow surface(s) to (Allow this product to penetrate and) remain wet for 3 minutes<sup>19</sup> ([and] [or] 10 minutes for tuberculocidal efficacy).
4. Wipe surfaces dry (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]). (Allow to air dry [Let air dry].)

**For use as a \*Virucide:** Dilute at 2 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous surface until thoroughly wet.
3. Let stand for three (3) minutes
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

**For use as a Tuberculocide:** Dilute at 2 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous surface until thoroughly wet.
3. Let stand for ten (10) minutes.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

**For Use as a Bactericide, Fungicide \*Virucide and Tuberculocide with (a) (an) [Mechanical Sprayer] [Pressure Sprayer]:** Dilute product at 2.0 of product per gallon of water (1:64) and fill tank.

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for 3 minutes<sup>19</sup> when using a 1:64 (2.0 oz per gallon of water) dilution for bactericidal, fungicidal, and \*virucidal efficacy and 10 minutes for tuberculocidal efficacy.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

<sup>[12]</sup> **For use as a disinfectant, (fungicide), (\*virucide) (tuberculocide) on hard, non-porous (inanimate) (environmental) surfaces of (non-circulating) (and) (circulating) (footbaths) (and) (pedicure foot spa equipment):**

Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Drain: Drain the water (from) (the unit) (foot spa) (basin) (bowl) and remove any visible debris.
2. Clean: Thoroughly clean all (hard, non-porous (inanimate) (environmental)) surfaces of [*insert salons, spas and clinics from list 7*] with use solution (of this product) [*or product name*] [(Dilute) 2.0 oz. per gallon of water (1:64)] (soap) (detergent), then rinse with water and drain.
3. Apply (Fill): (Saturate with) (Use) (Apply) a use solution of [(Dilute) 2.0 oz. per gallon of water] this product [*or product name*] on all hard non-porous (inanimate) (environmental) surfaces with a [brush], [cloth], [mop], [sponge], [auto scrubber], [mechanical spray device] ((hand pump) coarse pump or trigger spray device).
4. Scrub (Circulate): Brush or swab thoroughly and allow solution to stand for 5 minutes. [For spray applications, spray 6-8 inches from surface and allow solution to stand for 3 minutes<sup>19</sup>]. [For Whirlpool foot spas, air-jet basins, "pipe-less" foot spas, and other circulating spas it is best to fill the basin with the use solution of this product [*or product name*] [(Dilute) 2.0 oz. per gallon of water] and turn the unit on to circulate the solution for 5 minutes].
5. [Drain and] Rinse all [(cleaned) (treated)] surfaces with fresh water.

**For Use as a [General] Cleaner/Degreaser:**

Dilute product at 0.5 - 1.0 oz. of product per gallon of water (1:128 – 1:256). Apply to surfaces. Wipe surfaces (and let air dry).

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

**For Use to Clean and Disinfect [Shower Rooms], [Locker Rooms] [and] [Other] Large, Open Areas with Floor**

**Drains:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray Use Solution 6-8 inches from floors, walls and ceilings making sure not to over spray. To disinfect, all hard, non-porous surfaces must remain wet for three (3) minutes ([and] [or] 10 minutes for tuberculocidal efficacy).
3. Scrub using a deck brush or other coarse material as necessary.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

<sup>[12]</sup> **For use as a disinfectant on pre-cleaned non-critical medical devices<sup>8</sup>, instruments and implements:** Dilute at 2.0 oz. of product per gallon of water (1:64).

Instrument must be thoroughly cleaned to remove excess organic debris, rinsed and dried.

1. Thoroughly clean and rinse lumens of hollow instruments.
2. Using either tray or an ultrasonic unit, immerse instrument in (diluted) use solution for 5 minutes at room temperature ([and] [or] 10 minutes for tuberculocidal efficacy).
3. Remove and rinse instruments.
4. Wipe dry prior to use.
5. Discard solution after each use.

Note: Critical and Semi-critical devices must be followed up by appropriate terminal sterilization/high-level disinfection process.

**For Use as (Daily) Bathroom (Restroom) (One-Step) Cleaner/Disinfectant:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Apply Use Solution by (hand pump) coarse trigger sprayer to hard, non-porous environmental surfaces. Spray 6 - 8 inches from surface; making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for three (3) minutes (or 10 minutes for tuberculocidal efficacy).
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

(Note - Rinsing is not necessary unless floors are to be coated with finish or restorer. When cleaning floors position wet floor signs around area to be cleaned. Floors will be slippery when wet or contaminated with foreign materials.)

**For Use as a Bowl Cleaner/Disinfectant on Exterior Surfaces of Toilet Bowls [Dry/Vacuum flush toilets] [Dry/Waterless Urinals] [Toilet Bowls Above the Waterline]:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Apply Use Solution to exterior surfaces of toilet bowls [Dry/Vacuum flush toilets] [Dry/Waterless Urinals] [Toilet Bowls Above the Waterline].
3. Swab entire surface area especially under the rim.
4. Allow entire surface to remain wet for five (5) minutes (or 10 minutes for tuberculocidal efficacy).
5. Rinse swab applicator thoroughly.

**To Sanitize [Soft Surfaces<sup>6</sup>] [Fabrics<sup>6</sup>]:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Hold bottle upright 6 - 8 inches from surface.
2. Spray until fabric is damp. DO NOT SATURATE.
3. Let stand for 1 minute.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).
5. [For difficult odors or heavy fabrics, repeat application] [Reapply as necessary].

[To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry, evaluate discoloration]

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

**To Spot Sanitize Soft Surfaces<sup>6</sup>:** Dilute at 2 oz. of product per gallon of water (1:64)

Spray a light even coating 6-8 inches from soiled area [fabric] until damp. Allow area to remain damp for 1 minute. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains or heavy fabrics). [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]. Let air dry.

### **{Trauma / Crime Scene / Fire Scene}**

#### **{Soft Surface Sanitization Claims}**

- For use as a spot sanitizer on soft surfaces<sup>6</sup> [and] [or] *[insert soft surfaces from list 3]* found in [hospitals], [nursing homes], [healthcare facilities], [dental offices] [and] [medical offices].

#### **{General Marketing Claims}**

- (Ideal for use in) Remediation and Restoration Sites (Trauma, and/or Fire Scenes)
- Compatible with [equipment] and [hard] [non-porous] surfaces
- Compatible with [Suitable for] [Will not harm] most hard non-porous [house hold] surfaces, [no bleach (or chlorine) stains]
- Compatible with microfiber [cloths]<sup>12</sup>
- Contains no (abrasives) (bleach) (or harsh acids)
- Contains no phosphates
- Contains no VOC-emitting ingredients
- Crime scene disinfectant [and cleaner]
- Easy to use – just spray<sup>4</sup> [and] [walk away]
- Effective [cleaner and] disinfectant for crime scenes
- Eliminates odors [caused by bacteria], [fungi] [mold], [mildew]
- For Indoor and Outdoor Use
- For use in [[Crime] [and] [Trauma] Scene Clean-Up] [Equipment and PPE Disinfection<sup>1</sup> (Non-Critical Devices)] [Carpet Cleaning & Deodorizing] [Damage] [and] [Trauma] [Catastrophic events and gross contamination] [exterior surfaces of HVAC] [Applications]
- Ideal for: [[Professional Restoration Sites] [Trauma / Crime Scene / Fire Scene Clean Up] [Carpet Cleaning & Deodorizing (Remediation)] [Equipment & PPE Disinfection]]
- Kills [Eliminates] [Destroys] [Effective against] 99.9% of *[insert one or more antibiotic resistant bacteria from table 1]*
- No fragrance added {*This text will only appear on the label with the non-fragranced CSFs*}
- No harsh [chemical] fumes
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard Compliance
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Specially designed to dissolve [penetrate] the toughest [stubborn] soils
- This product may be used as a cleaner and deodorizer, or for water/flood clean up, sewage backflow cleaning, and trauma scene cleaning

#### **[General uses in]**

#### **[[For Use in] Trauma / Crime Scene / Fire Scene Remediation & Restoration:]**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is ideal for use as a cleaner, disinfectant and deodorizer professional restoration sites, sewage backflow sites, water and flood damage sites, trauma, crime scene and fire clean up. This product was designed to leave surfaces clean and odor free.

This product is a one-step<sup>3</sup> disinfectant cleaner and deodorant designed for general cleaning and disinfecting of hard, non-porous (environmental) surfaces. It cleans quickly by removing *[insert soils from list 1]* and other common soils.

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

This product is designed for use on hard, non-porous (environmental) surfaces: [insert surface material from list 2] associated with [insert industrial use sites from list 6] - any hard non-porous (washable) (non-food contact) surface where disinfection is required.

This product is a one-step<sup>3</sup> (hospital-use) germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous (environmental) surfaces. It cleans quickly by removing [insert soils from list 1] mold, mildew, and other common soils.

It is designed for use on (Use daily on) (the following) (hard, non-porous (environmental) (inanimate) surfaces): [insert surface material from list 2] associated with [insert industrial use sites from list 6] any hard, non-porous (washable) (non-food contact) surface where disinfection is required. This product's non-dulling formula eliminates the time and labor normally required for rinsing. Do not use on glasses, dishes and utensils.

This product reduces odor-causing bacteria leaving (bathrooms) (restrooms) smelling clean and fresh. Use where odors are a problem. It cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use (Use it daily) on (environmental) [insert surface material from list 2] associated with [insert industrial use sites from list 6].

This product cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use on [insert surface material from list 2] associated with [insert industrial use sites from list 6].

## **[General Use Directions]**

### **[Directions for Use]**

**To Kill Fungi:** Dilute at 2.0 oz. of product per gallon of water (1:64).

Pre-clean visibly soiled areas. Apply Use Solution to hard, non-porous environmental surfaces. Allow surface to remain wet for three (3) minutes. Wipe surfaces (and let air dry).

**For Use as a Bactericide, Fungicide, \*Virucide and Tuberculocide with (a)(an) [Mechanical Sprayer] [Pressure Sprayer]:** Dilute product at 2.0 of product per gallon of water (1:64) and fill tank.

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for 3 minutes<sup>19</sup> for bactericidal, fungicidal and \*virucidal efficacy allow 10 minutes for mycobacteria [tuberculocidal efficacy].
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

**For Use as a [Daily] [Bactericide] [One-Step] Cleaner/Disinfectant:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from surfaces [until thoroughly wet].
3. Allow surfaces to remain wet for 3 minutes<sup>19</sup> ([and] [or] 10 minutes for tuberculocidal efficacy).
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry]).

**For Use to Clean and Disinfect [Shower Rooms], [Locker Rooms] [and] [Other] Large, Open Areas with Floor Drains:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray Use Solution on floors, walls and ceilings making sure not to over spray. To disinfect, all surfaces must remain wet for three (3) minutes ([and] [or] ten (10) minutes for tuberculocidal efficacy).
3. Scrub using a deck brush or other coarse material as necessary.

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).

**To Sanitize [Soft Surfaces<sup>6</sup>] [Fabrics<sup>6</sup>]:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Hold bottle upright 6 - 8 inches from surface.
2. Spray until fabric is damp. DO NOT SATURATE.
3. Let stand for 1 minute.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).
5. [For difficult odors or heavy fabrics, repeat application] [Reapply as necessary].

[To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry, evaluate discoloration]

**To Spot Sanitize Soft Surfaces<sup>6</sup>:** Dilute at 2 oz. of product per gallon of water (1:64)

Spray a light even coating 6-8 inches from soiled area [fabric] until damp. Allow area to remain damp for 1 minute. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains or heavy fabrics). [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]. Let air dry.

**For Use as a Bowl Cleaner/Disinfectant on Exterior Surfaces of Toilet Bowls [Dry/Vacuum flush toilets]**

**[Dry/Waterless Urinals] [Toilet Bowls Above the Waterline]:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Apply Use Solution to exterior surfaces of toilet bowls [Dry/Vacuum flush toilets] [Dry/Waterless Urinals] [Toilet Bowls Above the Waterline].
3. Swab entire surface area especially under the rim.
4. Allow entire surface to remain wet for five (5) minutes (or 10 minutes for tuberculocidal efficacy).
5. Rinse swab applicator thoroughly.

**For Use as a [General] Cleaner/Degreaser:**

Dilute product at 0.5 - 1.0 oz. of product per gallon of water (1:128 – 1:256). Apply to surfaces. Wipe surfaces (and let air dry).

**For Use as a Deodorizer:**

Dilute at 2 oz. of product per gallon of water (1:64). Apply to hard, non-porous surfaces. Let stand for 30 seconds. (Wipe surface (and let air dry)).

**[Allergen Destruction]**

To [clean and] destroy specified allergens: [Set trigger to SPRAY.] Spray, wait 3 minutes, and wipe excess. [Rinse.] Allow to air dry. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel.]

**Allergens:**

- Cockroach matter [particles]
- Dust mite matter [particles]
- [Pet] [dog or cat] dander

**{Greenhouses and Horticulture}**

**{Soft Surface Sanitization Claims}**

- For use as a spot sanitizer on soft surfaces<sup>6</sup> [and] [or] [insert soft surfaces from list 3] found in [greenhouses], and [horticulture].

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Underlined text is new. Strike-through text means it has been removed.}

## {General Marketing Claims}

- [Stain] [mold] [mildew] cleaner
- [A disinfectant cleaner that] cleans, disinfects and deodorizes in one labor saving step<sup>3</sup>
- [Cleans] [deodorizes] with the power of hydrogen peroxide
- [No rinse required.] No streaking [or filming]
- [Step-saving], [labor-saving], [time-saving], [cost-saving] formula
- [Uses] [harnesses] the cleaning power of hydrogen peroxide
- [Uses] patented hydrogen peroxide formula for [powerful] cleaning [with active oxygen]
- [Versatile], [fast-acting<sup>4</sup>], [convenient] formula
- A disinfecting cleaner for use in [*insert residential, industrial and institutional use sites from list 5*]
- An effective one-step<sup>9</sup> sanitizer-cleaner for use on hard non-food contact surfaces
- Bactericidal, \*Virucidal, and Fungicidal in 3 minutes! Unless otherwise noted [in claims section] [and] [use directions]
- Bleach free
- Chlorine free
- Cleaning and [disinfecting] [disinfection]
- Cleans - disinfects – deodorizes
- Cleans, deodorizes and removes soils
- Cleans, disinfects and deodorizes [hard, non-porous surfaces]
- Contains no [abrasives] [bleach] [or harsh acids]
- Contains no phosphates
- Contains no VOC-emitting ingredients
- Deep hydrogen peroxide bubbling clean
- Deodorizes
- Designed specifically to [effectively] eliminate odors caused by mold and mildew
- Disinfect in one easy step<sup>3</sup>
- Disinfectant: Multi-Surface
- Disinfects [deodorizes] [and sanitizes] as it cleans
- Disinfects [deodorizes] hard, non-porous surfaces
- Dual action formulation providing broad spectrum activity against; \*viruses, bacteria, fungi
- Easy to use – Just spray<sup>4</sup> [and] [walk away]
- Eliminates [kills] 99.9% of odor-causing bacteria
- Eliminates odors [caused by bacteria], [fungi] [mold], [mildew]
- Fast<sup>4</sup> / Easy / Effective: Use [in] [on] [*insert residential, industrial and institutional use sites from list 5*]
- For indoor and outdoor Use
- For multiple cleaning tasks
- For use [in] [on] [*insert residential, industrial and institutional use sites from list 5*] [as a multipurpose disinfectant cleaner]
- Formulated with patented hydrogen peroxide technology<sup>1</sup>
- Fungicide
- Good for most indoor cleaning tasks.
- Hydrogen peroxide (based) disinfectant
- Ideal product for use in LEED certified buildings
- Is effective yet economical
- Kills [destroys] [eliminates] 99.9% of germs [while it cleans]
- Kills [99.9%] [of] bacteria [and \*viruses] [with this product {*or product name*}]
- Kills and controls fungus and bacteria
- Kills germs while it cleans<sup>3</sup>
- Leaves surfaces virtually streak-free
- Long shelf life: 2 years undiluted (150 days [5 months] once diluted [at 1:64])
- Makes 4 quarts [of ready to use] [RTU] disinfectant [sanitizer] [cleaner] with 2 oz. of product
- No fragrance added {*This text will only appear on the label with the non-fragranced CSFs*}
- No harsh [chemical] fumes
- Odor control
- Meets surface disinfection recommendations for OSHA bloodborne pathogen standard compliance
- Phenol free
- Powerful cleaning
- Powerful odor control [odor neutralizer] [deodorizer] [odor-counteractant] formula [on hard non-porous surfaces]
- Powers away tough stains
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Quaternary ammonium compound [quat] free
- Removes dirt and kills germs
- Safe for most hard surfaces, [no bleach [or chlorine] stains]
- Safe to use on floors
- Sanitizes hard, non-porous surfaces in 30 seconds!

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- Smell of clean [is no smell] {*This text will only appear on the label with the non-fragranced CSFs*}
- Specially designed to dissolve [penetrate] the toughest [stubborn] soils
- Suitable for everyday use
- Surface cleaner
- This product {*or product name*} disinfects [deodorizes] [hard, non-porous surfaces] as it cleans.
- This product cleans, deodorizes and controls the growth of odor-causing bacteria
- This product inhibits bacteria on surfaces and deodorizes by killing microorganisms that cause offensive odors.
- This product inhibits mold and mildew odors when used as directed.
- To be used in sanitizing and disinfecting of hard, non-porous, non-food [contact] surfaces and non-critical equipment
- To clean mold and mildew stains or odors
- Tough on germs

## [Features, Claims & Uses] [General uses in]

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For use to disinfect (and) (clean) (inanimate) (environmental) (surfaces): (floors), (walls), (glasshouse structures), (ventilation<sup>1</sup>) and (other) (equipment), (utensils), (trays), and (other) (containers), (water systems<sup>1</sup>), (evaporative coolers), (storage rooms), and (vehicles) in (greenhouses) and (other horticultural settings) (prior) (to) (introduction) or (reintroduction) of (plants), (seeds), or (soil).

## [Greenhouses and Horticulture] [Directions for Use]

### **To Kill Fungi: Dilute at 2.0 oz. of product per gallon of water (1:64).**

Pre-clean visibly soiled areas. Spray Use Solution 6-8 inches from hard, non-porous environmental surfaces. Allow surface to remain wet for three (3) minutes. Wipe surfaces (and let air dry).

### **For Use as a Bactericide, Fungicide, \*Virucide and Tuberculocide with (a) (an) [Mechanical Sprayer] [Pressure Sprayer]:** Dilute product at 2.0 of product per gallon of water (1:64) and fill tank.

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for 3 minutes<sup>19</sup> for bactericidal, fungicidal and \*virucidal efficacy allow 10 minutes for mycobacteria [tuberculocidal efficacy].
5. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]). (Allow to air dry [Let air dry]).

### **For Use as a [Daily] [Bactericide] [One-Step] Cleaner/Disinfectant:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous surfaces [until thoroughly wet].
3. Allow surfaces to remain wet for 3 minutes (or ten (10) minutes for tuberculocidal efficacy).
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]). (Allow to air dry [Let air dry]).

### **For Use to Clean and Disinfect [Shower Rooms], [Locker Rooms] [and] [Other] Large, Open Areas with Floor Drains:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray Use Solution on floors, walls and ceilings making sure not to over spray. To disinfect, all surfaces must remain wet for three (3) minutes ([and] [or] ten (10) minutes for tuberculocidal efficacy).
3. Scrub using a deck brush or other coarse material as necessary.

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).

**To Sanitize [Soft Surfaces<sup>6</sup>] [Fabrics<sup>6</sup>]:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Hold bottle upright 6 - 8 inches from surface.
2. Spray until fabric is damp. DO NOT SATURATE.
3. Let stand for 1 minute.
4. (Wipe surfaces dry) (or rinse). (If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]. (Allow to air dry [Let air dry])).
5. [For difficult odors or heavy fabrics, repeat application] [Reapply as necessary].

[To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry, evaluate discoloration]

**To Spot Sanitize Soft Surfaces<sup>6</sup>:** Dilute at 2 oz. of product per gallon of water (1:64)

Spray a light even coating 6-8 inches from soiled area [fabric] until damp. Allow area to remain damp for 1 minute. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains or heavy fabrics). [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]. Let air dry.

**For Use as a [General] Cleaner/Degreaser:**

Dilute product at 0.5 - 1.0 oz. of product per gallon of water (1:128 – 1:256). Apply to surfaces. Wipe surfaces (and let air dry).

**For Use as a Deodorizer:**

Dilute at 2 oz. of product per gallon of water (1:64). Apply to hard, non-porous surfaces. Let stand for 30 seconds. (Wipe surface (and let air dry)).

**[Allergen Destruction]**

To [clean and] destroy specified allergens: [Set trigger to SPRAY.] Spray, wait 3 minutes, and wipe excess. [Rinse.] Allow to air dry. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel.]

**Allergens:**

- Cockroach matter [particles]
- Dust mite matter [particles]
- [Pet] [dog or cat] dander

**{Residential Marketing Claims}**

**{Soft Surface Sanitization Claims}**

- For use as a spot sanitizer on soft surfaces<sup>6</sup> [and] [or] [*insert soft surface from list 3*] in [hospitals], [nursing homes], [healthcare facilities], [dental offices] [and] [medical offices].

**{General Marketing Claims}**

- [Stain] [Mold] [Mildew] Cleaner
- [A disinfectant cleaner that] cleans, disinfects and deodorizes in one labor saving step<sup>3</sup>
- [Cleans] [Deodorizes] with the power of Hydrogen Peroxide
- [Hospital] [Disinfectant]
- [No rinse required.] No streaking [or filming]
- [Step-saving], [Labor-saving], [Time-saving], [Cost-saving] formula
- [Uses] [harnesses] the cleaning power of hydrogen peroxide
- [Uses] Patented Hydrogen peroxide formula for [powerful] cleaning [with active oxygen]
- [Versatile], [Fast-acting<sup>4</sup>], [Convenient] formula

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- A disinfecting cleaner for use in [insert use sites hard non-porous surfaces of residential, industrial and institutional, from list 5]
- An effective one-step<sup>9</sup> sanitizer-cleaner for use on hard non-food contact surfaces
- Antimicrobial
- Bactericidal, \*Virucidal, and Pseudomonacidal<sup>7</sup> in 3 minutes! Unless otherwise noted [in claims section] [and] [use directions]
- Bleach free
- Chlorine bleach alternative lifts dirt and disinfects
- Chlorine free
- Cleaning and [Disinfecting][Disinfection]
- Cleans - Disinfects – Deodorizes
- Cleans [and disinfects] [hard, non-porous surfaces] [kitchens<sup>2</sup> and bathrooms]
- Cleans [fast] [in kitchen<sup>2</sup>] [and bathrooms]
- Cleans [removes] [eliminates] [destroys] stains
- Cleans [tough] grease and grime [and][institutional][soils][fast]
- Cleans [tough] soap scum
- Cleans and disinfects non-food [contact] hard non-porous surfaces [all over the house] [kitchens<sup>2</sup>] [and] [bathrooms] [restrooms].
- Cleans soap scum
- Cleans without bleaching
- Cleans, deodorizes and removes soils
- Cleans, disinfects and deodorizes [hard, non-porous surfaces]
- Compatible with Compatible with [Suitable for] [Will not harm] most hard non-porous [house hold] surfaces, [no bleach (or chlorine) stains]
- Compatible with microfiber [cloths]<sup>12</sup>
- Contains no (abrasives) (bleach) (or harsh acids)
- Contains no phosphates
- Contains no VOC-emitting ingredients
- Controls (Eliminates 99.9% of) (kitchen<sup>2</sup>) odor-causing bacteria
- Cuts [cleans] kitchen [and] [bathroom] [and] household grime and soils [fast]
- Deep Hydrogen Peroxide bubbling clean
- Deodorizes
- Designed specifically to [effectively] eliminate odors caused by mold and mildew
- Disinfect in one easy step
- Disinfectant: Multi-Surface
- Disinfects - kills germs for a deep down clean
- Disinfects and kills [up to] [99.9%] [of] germs [and] [bacteria] [with [product name]] [with Hydrogen Peroxide]
- Disinfects (Deodorizes) (and Sanitizes) as it cleans
- Disinfects (Deodorizes) hard, non-porous surfaces
- Dual action formulation providing broad spectrum activity against; \*viruses, bacteria, fungi
- Easy to use – just spray<sup>4</sup> [and] [walk away]
- Effective – Cleans soap scum
- Eliminates (kills) 99.9% of odor-causing bacteria
- Eliminates 99.9% of bacteria from (kitchen<sup>2</sup>) (bathroom) (washroom) (restroom) surfaces
- Eliminates odors [caused by bacteria], [fungi] [mold], [mildew]
- Fast<sup>4</sup> / Easy / Effective: Use [in] [on] [the] [*insert residential, industrial and institutional use sites from list 5*]
- For a cleaner, fresher office (school) (college) (household)
- For any (non-food contact) hard, non-porous surface where germs are a concern
- For everyday use [in institutional and (industrial) (institutional) facilities]
- For everyday use [in kitchens<sup>2</sup> and] [bathrooms] [restrooms]
- For indoor and outdoor use
- For multiple cleaning tasks
- For non-scratch cleaning of showers and tubs, shower doors and curtains, fixtures and toilet bowls
- For use in [household], [homecare], [daycare] settings [as a multi-purpose disinfectant cleaner]
- For use [in] [on] [the] [*insert residential, industrial and institutional use sites from list 5*] [as a multipurpose disinfectant cleaner]
- For use in [crime] [trauma]
- For use in homecare
- Formulated with patented hydrogen peroxide technology<sup>1</sup>
- Fungicide
- Glutaraldehyde free [No glutaraldehydes]
- Good for most indoor cleaning tasks.
- Hydrogen peroxide (based) disinfectant
- Ideal for cleaning and disinfection of hard, non-porous surfaces in critical environments
- Ideal product for use in LEED certified buildings
- Institution [use] [disinfectant]
- Institutional and healthcare disinfectant
- Intense cleaning action
- Is effective yet economical
- Kills (destroys) (eliminates) 99.9% of germs (while it cleans)

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- Kills (household) bacteria (and sanitizes)
- Kills (kitchen<sup>2</sup>) (bathroom) (household) germs
- Kills [99.9%] of bacteria [and viruses] [with this product *[or product name]*]
- Kills [99.9%] of [household] bacteria
- Kills [99.9%] of bacteria commonly found in the [kitchen<sup>2</sup>] [and] [bathroom]
- Kills [99.9%] of germs
- Kills [effective against] cold and flu virus<sup>16</sup> on hard, non-porous surfaces
- Kills and controls fungus and bacteria
- Kills antibiotic resistant bacteria<sup>10</sup>
- Kills bacteria and \*viruses on hard, non-porous [kitchen<sup>2</sup>] [bathroom] [restroom] [household] surfaces in 3 minutes at 1:64 dilution, Unless otherwise noted [in claims section] [and] [use directions]
- Kills bacteria commonly found in kitchens<sup>2</sup> [in 3 minutes] at 1:64 dilution
- Kills flu virus<sup>16</sup> on hard, non-porous surfaces
- Kills germs while it cleans<sup>3</sup>
- Kills kitchen and bathroom bacteria
- Kills odor-causing [household] bacteria
- Leaves [office] [washroom] [restroom] smelling clean with a clean fresh scent
- Leaves surfaces virtually streak-free
- Leaves your [home] [house] [washroom] [restroom] smelling clean with a clean fresh scent
- Leaves your kitchen<sup>2</sup> and bathroom with a fresh, clean scent
- Long shelf life: 2 years undiluted (150 days [5 months] once diluted [at 1:64])
- Makes 4 quarts [of ready to use] [RTU] disinfectant [sanitizer] [cleaner] with 2 oz. of product
- Meets surface disinfections recommendations for OSHA Bloodborne Pathogen Standard for \*HIV-1, \*HBV and \*HCV
- Neutralizes musty odors
- Neutralizes tough odors from smoke
- No fragrance added {*This text will only appear on the label with the non-fragranced CSFs*}
- No harsh [chemical] fumes
- Non-tainting, leaves no unsightly residues
- Odor control
- Office [use]
- Meets surface disinfection recommendations for OSHA Bloodborne Pathogen Standard Compliance
- Phenol free
- Powerful cleaning
- Powerful odor control [odor neutralizer] [deodorizer] [odor-counteractant] formula [on hard non-porous surfaces]
- Powers away tough stains
- Primary Eye Irritation Category II
- Primary Skin Irritation Category III
- Pseudomonacidal<sup>7</sup> (in 3 minutes! Unless otherwise noted [in claims section] [and] [use directions])
- Quaternary ammonium compound [quat] free
- Quickly [eliminates] [removes] [food] odors
- Removes (lipids) (fats) (proteins)
- Removes [the most common] [household] allergens<sup>5</sup> [around your home<sup>2</sup>] [around your kitchen<sup>2</sup>] [around your bathroom] [on your floors]
- Removes dirt and kills germs
- Safe for most hard surfaces, [no bleach (or chlorine) stains]
- Safe to use on floors
- Sanitizes hard, non-porous surfaces in 30 seconds!
- Smell of clean [is no smell] {*This text will only appear on the label with the non-fragranced CSFs*}
- Specially designed to dissolve [penetrate] the toughest [stubborn] soils
- Stain remover
- Suitable for everyday use
- Surface cleaner
- This product [*or product name*] disinfects [deodorizes] [hard, non-porous surfaces] as it cleans.
- This product cleans, deodorizes, and controls the growth of odor-causing bacteria
- This product inhibits bacteria on surfaces and deodorizes by killing microorganisms that cause offensive odors.
- This product inhibits mold and mildew odors when used as directed.
- To be used in sanitizing and disinfecting of hard, non-porous [non-food] [contact] surfaces and non-critical equipment
- To clean mold and mildew stains or odors
- Tough on germs
- Use only one product to get a streak-free shine plus antimicrobial action
- Use this product throughout your home to clean [beverage stains] [dirt] [food stains] [grime] [pet stains] [soap scum]
- Will not leave grit [or soap scum]

## **[Features, Claims & Uses]**

### **[General uses in]**

#### **(Household Use)**

This product [*or product name*] is an effective [cleaner] [disinfectant] [sanitizer] on hard, non-porous, non-food contact surfaces in [around] [Residential], [Household], [Homecare], [Daycare centers] [settings].

This product [*or product name*] is a[n] [concentrated] [antibacterial] [multi-purpose] [bathroom] [floor] [glass & surface] [kitchen<sup>2</sup>] [restroom] [cleaner] [cleaning] [disinfectant] [disinfecting] [sanitizer]. This product [*or product name*] is for use on [*insert surface materials from list 2*] [common hard non-porous (household) surfaces].

For everyday cleaning [and disinfecting] [use daily to clean [and disinfect]] [on] hard, non-porous surfaces [where germs are a concern] [made from] [*insert surface material from list 2*] associated with [hand] [high] [touch] [surfaces], [*insert residential and industrial/institutional use sites from list 5 and/or industrial use sites from list 6*] and other hard non-food contact surfaces around the house[hold] [home]. [Not recommended for use on brass], [polished wood], [granite], [marble], [and] [leather].

This product is designed for use on hard, non-porous (environmental) surfaces: [*insert surface material from list 2*] associated with [*insert residential, industrial and institutional use sites from list 5*] – any hard non-porous (washable) (non-food contact) surface where disinfection is required. Do not use on glasses, dishes and utensils.

This product cleans, disinfects and deodorizes hard, non-porous (environmental) surfaces in one step<sup>3</sup>. Its non-abrasive formula is designed for use on hard, non-porous surfaces: [*insert surface material from list 2*].

This product is a (concentrated) (bowl and) (bathroom) (restroom) cleaner which cleans, disinfects and deodorizes in one easy step. It cleans, disinfects and deodorizes [*insert residential, industrial and institutional use sites from list 5*] (washable) surfaces found in the bathroom (restroom) (in the presence of organic soil).

#### **[(Bathroom) (Restroom) Disinfectant Cleaner:]**

This product is a (concentrated) (bathroom) (restroom) cleaner which cleans, disinfects and deodorizes in one easy step<sup>3</sup>. It cleans, disinfects and deodorizes [*insert residential, and industrial/institutional use sites from list 5*] and all hard non-porous, (washable) surfaces found in the bathroom (restroom) (in the presence of organic soil).

This product reduces odor-causing bacteria leaving (bathrooms) (restrooms) smelling clean and fresh. Use where odors are a problem. It cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use (Use it daily) on ([hard, non-porous (environmental) [*insert surface material from list 2*] associated with [*insert residential, and industrial/institutional use sites from list 5*].

This product cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use on [*insert surface material from list 2*] associated with [insert residential and industrial use sites hard, non-porous surfaces of residential and industrial, from list 5].

#### **[Residential Uses]**

This product [*or product name*] is an [effective] [concentrated] cleaner, [disinfectant], [sanitizer] on non-food contact surfaces in [around] [*insert residential and industrial/institutional use sites from list 5*]

For everyday cleaning [and disinfecting] [on] hard, non-porous surfaces [where germs are a concern] [made from] [*insert surface material from list 2*] associated with kitchen<sup>2</sup> surfaces, hand-touch surfaces, [*insert residential and industrial/institutional use sites from list 5*] and other hard non-food contact surfaces around the house [household] [home]. [Do not use on glassware, utensils or dishes].

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

This product is designed for use on hard, non-porous (environmental) surfaces: *[insert surface material from list 2]* associated with *[insert residential and industrial/institutional use sites from list 5]* – any hard non-porous (washable) (non-food contact) surface where disinfection is required. Do not use on glasses, dishes and utensils.

This product is a (concentrated) (bowl and) (bathroom) (restroom) cleaner which cleans, disinfects and deodorizes in one easy step<sup>3</sup>. It cleans, disinfects and deodorizes *[insert residential and industrial/institutional use sites from list 5]*, and all hard non-porous, (washable) surfaces found in the bathroom (restroom) (in the presence of organic soil).

This product reduces odor-causing bacteria leaving (bathrooms) (restrooms) smelling clean and fresh. Use where odors are a problem. It cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use (Use it daily) on ([hard, non-porous environmental] (bathroom) (restroom) surfaces): *[insert use sites hard non-porous surfaces of residential, industrial and institutional, from list 5]* associated with *[insert use sites hard non-porous surfaces of residential, industrial and institutional, from list 5.]*

This product cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use on *[insert use sites hard non-porous surfaces of residential, industrial and institutional, from list 5 ]*.

#### ***{Storage and Disposal for Institutional Use Products}***

##### **Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal.

##### **Pesticide [Product] Storage**

Do not reuse empty container (unless refilling from a larger container of the same product according to the refilling directions).

##### **Pesticide [Product] Disposal**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or hazardous waste representative at the nearest EPA regional office for guidance.

##### **Container Handling**

###### ***{For Non-Refillable Sealed Containers}***

Nonrefillable container. Do not reuse or refill this container. Wrap empty container and put in trash.

###### ***{For Small Non-Refillable Containers [5 Gallons or Smaller]}***

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available.

###### ***{For Large Non-Refillable Containers [Larger than 5 Gallons]}***

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for at least 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Offer for reconditioning, if appropriate.

*{or}*

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or a mix tank or collect rinsate for later use or disposal. Insert pressure-rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Offer for reconditioning, if appropriate.

**{For Refillable Containers}**

Refillable container. Refill this container with this product [*or product name*] only. Do not reuse this container for any other purpose. [Pressure rinsing the container] [Cleaning the container] before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container prior to final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**{Storage and Disposal for Residential Use Products}**

{Note to reviewer: Residential use products will only be sold in non-refillable containers of 1 gallon or less}

**Storage and Disposal**

**[Pesticide] [Product] Storage**

Store in original container in areas inaccessible to small children. Keep securely closed.

**[Pesticide] [Product] Disposal**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or hazardous waste representative at the nearest EPA regional office for guidance.

**Container Handling**

Non-refillable container. Do not reuse or refill this container. Wrap [container] and put in trash or offer for recycling if available.

**ENVIRONMENTAL HAZARDS** {for containers of 5 gallons or 50 lbs. or more}

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting agency has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

Hard, non-porous surfaces of

- [Bathroom] [Kitchen] faucets
- [Bathroom] vanities
- [Bathroom] [restroom] [tile]
- [Behind and under] counters
- [Behind and under] sinks
- [Car] [boat] [trailer] interior
- [Cell] [cellular] [digital] phones
- [Hand] [railings] [rails]
- [Inside of] drawers
- [Washable] walls
- Appliance exterior
- Basements
- Bathroom doorknobs
- Bathroom fixtures
- Bathrooms
- Bathtubs
- Bed frames
- Bedrooms
- Blood pressure monitors
- Burner trays
- Cabinets
- Cages
- Ceilings
- Chairs (not including high chairs)
- Changing tables
- Closets [handles]
- Computer keyboards
- Computer mouse
- Computer peripherals
- Computer screens
- Computers
- Cords
- Countertops
- Cupboards
- Daycares [centres]
- Desk[s] [tops]
- Diaper pails
- Dining rooms<sup>2</sup>
- Door [knobs] [handles] [frames]
- Dry/vacuum flush toilets
- Dry/waterless urinals
- Escalator railing
- Exercise equipment
- Exercise mats
- Exercise rooms
- Exterior of pipes
- Exterior surfaces of toilets
- Family rooms
- Faucets
- Finished hardwoods
- Fixtures [(chrome) (stainless steel)]
- Floors (glazed tile)
- Floors (vinyl)
- Footboards
- Furniture
- Garages
- Garbage [trash] cans [bins]
- Garbage rooms
- Glazed porcelain [tile]
- Grill exteriors
- Infant cribs
- Internal toilet bowl surfaces above the waterline
- Kitchens<sup>2</sup>
- Laminated surfaces
- Lamps
- Laundry rooms
- Light fixtures
- Living rooms
- Locker rooms [areas]
- Massage tables
- Medicine cabinets
- Metal blinds
- Microwave exteriors
- Mirrors
- Non-food contact counters
- Nurseries [room]
- Oven exteriors
- Packing benches
- Painted surfaces
- Patio furniture<sup>17</sup>
- Pet areas
- Phone cradles
- Piano keys
- Picnic tables<sup>17</sup>
- Plastic [laundry baskets]
- Playrooms
- Recycling bins
- Refrigerator/ freezer exteriors
- Remote controls
- Restroom surfaces
- Restrooms
- Rims
- Screens

- Vinyl [and plastic upholstery]
- Walkers
- Walls
- Wash basins
- Washing machine exteriors
- Washrooms
- Windows
- Work benches
- Work stations

#### **[List 6: Industrial Use Sites]**

Hard, non-porous surfaces of

- (Federally inspected) (meat) (and) (poultry) establishments<sup>2</sup>
- (Beverage) (brewing) (plants) (warehouses) (buildings)<sup>2</sup>
- Airplanes
- Airports
- Athletic facilities
- Barber/beauty (salons) (shops)
- Boats
- Bus (depots) (stations)
- Cars
- Casinos
- Colleges
- Correctional facilities
- Cruise ships
- Dairies
- Day care centers
- Emergency vehicles
- Exercise equipment
- Food service establishments
- Food (processing plants) (warehouses) (buildings)<sup>2</sup>
- Funeral homes
- Health clubs
- Hotels
- Industrial (and commercial) buildings
- Locker rooms
- Motels
- Office buildings
- Playgrounds
- Public (washrooms) (restrooms)
- Public areas
- Public facilities
- Restaurant
- Restrooms
- Schools
- Ships
- Taxis
- Trailers
- Train (depots) (stations)
- Transportation (facilities) (terminals)
- Universities

#### **[List 7: Salons, Spas and Clinics]**

Hard, non-porous surfaces of

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- [Hairstyling] [establishments] [clinics]
- Barbershops
- Beauty [salons [shops]
- Hair salons
- Health clubs
- Lash bars
- Massage therapy clinics
- Nail salons
- Pedicure salons
- Spas
- Tanning [facilities] [salons] [spas]
- Tattoo parlors

**{Qualifier Table}**

{Note to reviewer: alternate qualifier symbols may be used on the product label}

1	<sup>1</sup> Hard, non-porous surfaces
2	<sup>2</sup> Non-food contact surfaces
3	<sup>3</sup> When used according to disinfection use instructions
4	<sup>4</sup> When used according to cleaning use instructions
5	<sup>5</sup> This product removes the following [non-living] allergens: [cat dander], [cockroach matter], [cockroach debris], [cockroach particles], [dog dander], [dust mite debris], [pet dander], [pollen particles]
6	<sup>6</sup> [Soft surfaces] [fabrics] composed of cotton and polyester
7	<sup>7</sup> {Note to reviewer: this qualifier leads to <i>Pseudomonas bacteria</i> claimed on label}
8	<sup>8</sup> Non-critical medical devices are items that come in contact only with intact skin. Note: Critical and Semi-critical devices must be followed up by appropriate terminal sterilization/high-level disinfection process.
9	<sup>9</sup> When the sanitization directions for use are followed
10	<sup>10</sup> {Note to reviewer: this qualifier leads to <i>antibiotic resistant bacteria</i> claimed on label}
11	<sup>11</sup> {Note to reviewer: this qualifier leads to <i>Mycobacterium bovis</i> claim on label}
12	<sup>12</sup> {Note to reviewer: this qualifier leads to any immersion use direction, when the product label has a mix of spray and immersion claims}
13	<sup>13</sup> Refer to the product insert for additional information on dilutions and use instructions
14	<sup>14</sup> Contact time is a critical component of any disinfectant’s protocol – attention should be given to ensure that the surface remains visibly wet for the entire time.
15	<sup>15</sup> Follow Directions for Use [from label]
16	<sup>16</sup> {Note to reviewer: this qualifier leads to <i>Influenza A viruses</i> claimed on label}
17	<sup>17</sup> Not for use on unfinished wood surfaces
18	<sup>18</sup> When used according to soft surface sanitization use instructions
19	<sup>19</sup> Use a 5 min contact time against Canine Parvovirus
*	* {Note to reviewer: this qualifier leads to <i>viruses</i> claimed on label}
*1	*1 (Accelerated Hydrogen Peroxide technology and designs are trademarks of Virox Technologies, Inc. [used under license by {the name of company}]). “Accelerated” does not imply increased product efficacy.

**Directions for Use**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Note to reviewer: The following paragraph will be used on labels that list medical devices as defined by the FDA}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

**Modes of Application:** This product can be applied by mop, sponge, cloth, coarse trigger sprayer or auto-scrubber. Change cloth, sponges or towels frequently to avoid redistribution of soil.

**Bactericidal Stability of Use Solution:** [Tests show] this product [*or product name*] [as a disinfectant], when diluted at 1:64 dilution (2 oz. of product per gallon of water) [in the presence of 200 ppm hard water, 5% serum load], remains effective against *Staphylococcus aureus*, *Salmonella enterica* and *Pseudomonas aeruginosa* for up to (30) (45) (90) (150) days in storage as long as the bottle remains sealed. If the use solution becomes visibly dirty or contaminated, it must be discarded and a fresh product prepared. Always use clean, dry containers when diluting this product.

**\*KILLS HIV-1, HBV and HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings [Hospitals, Nursing Homes] and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood / body fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [\*HIV-1] [associated with AIDS], Hepatitis C Virus [\*HCV] or Hepatitis B Virus [\*HBV].

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST \*HIV-1 [AIDS Virus], \*HCV OR \*HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

**Personal Protection:** Disposable latex or vinyl gloves, gowns, face masks, and eye coverings, must be worn during all cleaning of body fluids, blood, and decontamination procedures.

**Cleaning Procedures:** Blood / body fluids must be thoroughly cleaned from surfaces / objects before application of this product [*or product name*].

**Contact Time:** Allow surface to remain wet for 3 minutes to kill \*HIV-1, \*HCV and \*HBV, [3 minutes to kill fungi], [10 minutes to kill TB<sup>11</sup>].

**Disposal of Infectious Material:** Cleaning materials used that may contain blood and other body fluids must be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

{DISPENSING MARKETING CLAIMS}: {This text will only appear on the appropriate container}

SOLUTIONS CENTER™ DISPENSING SYSTEMS# (64 oz. (2 qt.) containers) - For use with (Diversey) (SOLUTIONS CENTER™) Brand Dispensing Equipment. Dispense with cold water. Eliminates Mixing. The Accurate Solution to Cleaner Dilution. Disinfectant Cleaning with The Convenience Of (SOLUTIONS CENTER™). (SOLUTIONS CENTER™) (This packaging offers) Reduced Exposure to Concentrate Due to Closed Transfer System. Solutions to Go!

J-FILL™ DISPENSING SYSTEMS# (84.5 oz. (2.5 L) containers) - For use with (Diversey) (J-FILL™) Brand Dispensing Equipment. Dispense with cold water. Eliminates Mixing. The Accurate Solution to Cleaner Dilution. Disinfectant Cleaning with The Convenience Of J-FILL™. J-FILL™ ((This) packaging offers) Reduced (Reduces) Exposure to Concentrate Due to Closed Transfer System. Solutions to Go!

RTD™ DISPENSING SYSTEMS# (1.5 L & 5 L containers) - RTD. Very Simple. Very Smart. Out of the box. Ready-To- Dispense. Dispense with cold water. Provides accuracy. No chemical connections, sealed bottle. Proven dilution control concentrate.

COMMAND CENTER™ DISPENSING SYSTEMS# (1.5 gal. containers) - For use with (Diversey) (BUTCHER™) (COMMAND CENTER™) Brand Dispensing Equipment. Dispense with cold water. Eliminates Mixing. The Accurate Solution to Cleaner Dilution. COMMAND CENTER™ (This packaging offers) Reduced (Reduces) Exposure to Concentrate Due to Closed Transfer System.

Smart DOSE™ DISPENSING SYSTEMS# (1.5 L & 5 L containers) - RTD. Very Simple. Very Smart. Out of the box. Ready-To-Dispense. Provides accuracy. No chemical connections, sealed bottle. Proven dilution control concentrate.

- Smart Dose™ allows for easy and accurate dosing of concentrate every time.
- Smart Dose™ delivers better cost control than any other dosing system.
- Smart Dose™ is a simple and portable unit that goes anywhere you go. Simply select your desired dosing icon, pull up, then push the knob down to dispense the accurate amount of concentrate.
- Smart Dose™ helps you minimize unwanted contact with the concentrate solution with an anti-drip spout and Spill-Tite™ sonically-welded head.
- Smart Dose™ ergonomic design enhances your comfort and ease of use.
- Smart Dose™ bottle automatically calculates two precise doses of concentrate allowing accurate dilution.
- Smart Dose™ (1.5L & 5L) (1.48 US Qt & 1.32 US gallon) - RTD. Very Simple. Very Smart. Out of the box. Ready-To-Dispense. Provides accuracy. No chemical connections, sealed bottle. Proven dilution control concentrate.
- Smart Dose™ (1.5 or 5L) (1.48 US Qt & 1.32 US gallon) - Using the Smart Dose™ unit, dispense product into a (trigger sprayer) (bottle) (container) (or) (bucket).
- Smart Dose™ can be used anywhere, without the need for permanent and costly equipment in the facility.
- Smart Dose™ avoids the need for additional equipment such as pumps and eliminates risk of free pouring.
- Smart Dose™ helps users dispense concentrate more accurately every time with pre-determined doses

Dilution control and dispensing technology utilized under license from Diversey

**To prepare Use Solution: (Use Dilution Made Easy:) (Dilution Chart:)**

Ratio	Per Gallon of Water	Per Liter of Water	Per 32oz of Water
1:64	2 oz	16 mL	[0.5 oz] [1/2 oz]
1:128	1 oz	8 mL	[0.25 oz] [1/4 oz]
1:256	0.5 oz	4 mL	[0.125 oz] [1/8 oz]

*{Note to Reviewer: The directions that appear for specific containers will be substituted for the chart above}*  
**(For Dosing Bottles – Option 1)**

**(1:64 dilution)**

- Loosen cap on Concentrate bottle. Squeeze the bottle and fill up to ½ oz mark [with solution].
- Remove cap and dispense [the solution] in dilution [container] [pail] [bucket][bottle].
- Add 1 quart (32 oz.) of water and mix well.

**(1:128 Dilution)**

- Loosen cap on Concentrate bottle. Squeeze the bottle and fill up to 1 oz mark [with solution].
- Remove cap and dispense [the solution] in dilution [container] [pail] [bucket][bottle].
- Add 1 gallon of water and mix well.

**(1:256 Dilution)**

- Loosen cap on Concentrate bottle. Squeeze the bottle and fill up to ½ oz mark [with solution].
- Remove cap and dispense [the solution] in dilution [container] [pail] [bucket][bottle].
- Add 1 gallon of water and mix well.

**(1:64 Dilution - Single Dilution Dispensers)**

To Prepare Use Solution: Add the product at 2 oz. of product per gallon of water (1:64).

*{Note to Reviewer: The directions that appear for specific container sizes will be substituted for the sentence above only on single dilution containers}*

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

**(GENERAL DISPENSER INSTRUCTIONS)** *{Note to reviewer: These instructions may be substituted for any dispensing device to prepare the use solution}*: (Remove cap and) insert cartridge into dispenser. Note: See dispenser instructions for proper cartridge placement. Once cartridge is properly inserted into dispenser, follow dispenser use instructions to dispense a 1:64 solution into a bucket, bottle, scrubber or other container.

**SOLUTIONS CENTER™ DISPENSING SYSTEMS (64 oz. (2 qt.) containers)** - (Remove cap and) insert cartridge into dispenser. Note: See dispenser instructions for proper cartridge placement. Once cartridge is in place, (squeeze the handle) (or) (press the button) to dispense a 1:64 solution into a bucket, bottle, scrubber or other container.

**J-FILL™ DISPENSING SYSTEMS (84.5 oz. (2.5 L) containers)** - (Remove cap and) insert cartridge into dispenser. Note: See dispenser instructions for proper cartridge placement. Once cartridge is in place, (squeeze the handle) (or) (press the button) to dispense a 1:64 solution into a bucket, bottle, scrubber or other container.

**COMMAND CENTER™ DISPENSING SYSTEMS (1.5 gal. containers)** - (Remove cap and) insert cartridge into dispenser. Note: See dispenser instructions for proper cartridge placement. Once cartridge is in place, press the button to dispense a 1:64 solution into a bucket, bottle, scrubber or other container.

**(For Multiple Dilution Dispensers)**

*{Note to reviewer: The directions that appear for specific container sizes will be substituted for the sentence above only on multiple dilution containers.}*

**(GENERAL DISPENSER INSTRUCTIONS)** *{Note to reviewer: These instructions may be substituted for any dispensing device to prepare the use solution}*: (Remove cap and) insert cartridge into dispenser. Note: See dispenser instructions for proper cartridge placement. Once cartridge is properly inserted into dispenser, follow dispenser use instructions to dispense a 1:64 or 1:128 or 1:256 solution into a bucket, bottle, scrubber or other container.

**J-FILL™ DISPENSING SYSTEMS (84.5 oz. (2.5 L) containers)** - (Remove cap and) insert cartridge into dispenser. Note: See dispenser instructions for proper cartridge placement. Once cartridge is in place, (squeeze the handle) (or) (press the button) to dispense a 1:64 solution into a bucket, bottle, scrubber or other container.

**RTD™ SYSTEMS (1.5 or 5 L containers)** - Using the RTD unit, dispense product into a (trigger sprayer), (auto scrubber,) (or) bucket.

For Disinfection (Cleaning) (\*Canine Parvovirus) (non-food contact sanitizer) set the control knob to the setting, which provides 2 oz. of product per gallon of water dilution (1:64).

For \*Virucidal set the control knob to the setting, which provides 2 oz. of product per gallon of water dilution (1:64).

For Tuberculocidal set the control knob to the setting, which provides 2 oz. of product per gallon of water dilution (1:64).

For Use as a Cleaner/Degreaser and Deodorizer set the control knob to the setting, which provides 1 oz. of product per gallon of water dilution (1:128).

For Use as a Cleaner/Degreaser set the control knob to the setting which provides ½ oz. of product per gallon of water dilution (1:256).

**{For READY TO DISPENSE (RTD™) Systems}**

*{Optional}*

Ready to Dispense (RTD™) is a(n) [unique] [innovative] method to [simply], [accurately], (and) [reliably] [dilute] (and) [dispense] a concentrate into a [bottle] [container] (or) [bucket] [basin] [foot bath] without the need for (expensive) dilution equipment.

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

*{Optional}*

1. Connect	Connect RTD™ to quick connect hose adapter.	RTD™ can be used anywhere, without the need for permanent and costly equipment in the (facility), (spa), (salon), (lab), (practice).
2. Select	Select dilution <sup>13</sup> .	RTD™ avoids the need for measurement, providing consistent and accurate dilution every time with no waste.
3. Fill	Depress trigger to dispense. Once the solution has been dispensed into a (bottle) (container) (or) (bucket) (basin) (foot bath) turn the control knob to the OFF position.	RTD™ eliminates interaction with the concentrated solution, which helps to simplify OSHA compliance and improves safety in the (facility), (spa), (salon), (lab), (practice).

**Smart DOSE™ SYSTEMS (1.5 or 5 L containers)** - Using the Smart DOSE™ unit, dispense product into a (trigger sprayer) (or) bucket.

To dispense product into a spray bottle, select spray bottle icon on Smart DOSE™ bottle, pull up on selector knob and completely push down on selector knob.

To dispense product into a bucket, select bucket icon on Smart DOSE™ bottle, pull up on selector knob and completely push down on selector knob.

**{For Smart Dose™ Systems}**

*{Optional}*

Smart Dose™ is a(n) [simple] [easy to use], (and) [portable] [unit], [format] [product] that goes anywhere you go. Simply select your desired dosing icon, pull up and pump [once] [twice] [one time] [two times] [three times] [four times] [eight times], (depending on your desired dilution), then push the knob down to dispense the accurate amount of concentrate.

*{Optional}*

Smart Dose™ is a(n) [simple] [easy to use], (and) [portable] [unit] [format] [product] that goes anywhere you go. Simply select your desired dosing icon, pull up, then push the knob down to dispense the accurate amount of concentrate.

*{Optional}*

1. Select	Turn the control knob to select the desired icon – bottle (0.5oz per pump) or bucket (2.5oz per pump) <sup>13</sup> .	Smart Dose™ was designed to be easy to use without the need for (permanent) and (costly) (equipment), (eliminates (inaccurate) manual dilution) (or) (the need for a water) (hook up) (or) (source).
2. Pull	Pull up on the control knob one time to prime the pump	(The Smart Dose™) (ergonomic design enhances your comfort and ease of use). (Easy to read icons reduces the need for staff training and misuse.) (The built in) (dispenser delivers better cost control than any other dosing system). (The precise dose of concentrate allows for accurate dilutions, reducing overuse and reduces the risk of outbreaks.)
3. Push	Push the control knob down fully to pump a precise dose of concentrate needed for the correct dilution when mixed with water	Smart Dose™ helps you minimize unwanted contact with the concentrate solution with an (anti-drip spout) and (Spill-Tite™) (sonically- welded head). (This helps to simplify OSHA compliance and improves safety in the facility.)

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

**Smart DOSE™ SYSTEMS (1.5 or 5L containers)** - Using the Smart DOSE™ unit, dispense product into a (trigger sprayer) (32oz bottle) (1-quart bottle)

1. Select the Bottle Icon on the Control Tab.
2. Pull up on the control knob one time to prime the pump.
3. Push the control knob down fully to pump the desired dose of concentrate into a secondary container.

*{Each of these dilutions is to be optional on the label}*

(Dilution)	(Pumps required per [32oz] (or) [1 US quart] [bottle] [container] (of water))
1:64	1 Pump

**Smart DOSE™ SYSTEMS (1.5 or 5L containers)** - Using the Smart DOSE™ unit, dispense product into a (bucket) (2.5 gallon)

1. Select the Bucket Icon on the Control Tab.
2. Pull up on the control knob one time to prime the pump.
3. Push the control knob down fully to pump the desired dose of concentrate into a secondary container.

*{Each of these dilutions is to be optional on the label}*

(Dilution)	Pumps required per (2.5 gallon) (bucket) (basin) (foot bath) (container) (of water)
1:64	2 Pumps
1:128	1 Pump

(Refill)

(To Refill Concentrate from Large Containers into Smaller Containers:)

This product may be used to fill and refill clean, properly labeled containers for dilution elsewhere within your facility. Make sure the small container has been cleaned, dried and properly labeled. Also make sure other items (funnels or hand pumps) are properly cleaned and dried. To refill, simply pour (or pump product) from the larger container directly into the smaller one being careful not to spill any product. Keep both containers sealed when not in use.

***{General Antimicrobial Uses}***

<sup>[12]</sup> **For Use to Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled items.
2. Completely immerse pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other non-porous instruments in the Use Solution so that surfaces remain wet for [five] [5] minutes.
3. Rinse surfaces thoroughly and let air dry before reuse.
4. Change solution daily or when visibly dirty.

NOTE: Remove instruments after [five] [5] minutes. Then rinse, dry and keep in a clean, non-contaminated receptacle until use. Prolonged soaking may cause damage to instruments.

**For Use as a [Daily] [Bactericide] [One-Step] Cleaner/Disinfectant:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous surfaces [until thoroughly wet].
3. Allow surfaces to remain wet for 3 minutes<sup>19</sup> ([and] [or] 10 minutes for tuberculocidal efficacy).
4. Wipe [surfaces] dry [or] [and] [allow to air dry] [rinse].

<sup>[12]</sup> **For Use as a [Daily] [One-Step] Cleaner/Disinfectant:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Pre-clean visibly soiled areas.

*{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}*

2. Apply solution to hard, non-porous surfaces by [mop] [sponge] [cloth] [or] [auto-scrubber] [or completely immerse in solution].
3. Allow surfaces to remain wet for 5 minutes.
4. Wipe [surfaces] dry [or] [and] [allow to air dry] [rinse].

**For Use as a \*Virucide:** Dilute at 2 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray Use Solution 6-8 inches from hard, non-porous surfaces until thoroughly wet.
3. Let stand for three (3) minutes.
4. Wipe surfaces (and let air dry).

**To Sanitize [Soft Surfaces<sup>6</sup>] [Fabrics<sup>6</sup>]:** Dilute at 2 oz. of product per gallon of water (1:64)

1. Hold bottle upright 6 - 8 inches from surface.
2. Spray until fabric is damp. DO NOT SATURATE.
3. Let stand for 1 minute.
4. Allow to air dry.
5. [For difficult odors or heavy fabrics, repeat application] [Reapply as necessary].

[To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry, evaluate discoloration]

**To Spot Sanitize Soft Surfaces<sup>6</sup>:** Dilute at 2 oz. of product per gallon of water (1:64)

Spray a light even coating 6-8 inches from soiled area [fabric] until damp. Allow area to remain damp for 1 minute. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains or heavy fabrics). [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]. Let air dry.

**To Sanitize Non-Food Contact Surfaces:** Dilute at 2.0 oz. of product per gallon of water (Dilute 1:64).

1. Pre-clean visibly soiled hard non-porous surfaces.
2. Spray Use Solution 6-8 inches from surfaces until thoroughly wet.
3. Let stand for thirty (30) seconds.
4. Wipe surfaces (and let air dry).

[Not for use on food contact surfaces or on food preparation areas.]

**For Use as a Bactericide, Fungicide and \*Virucide with (a)(an) [Mechanical Sprayer] [Pressure Sprayer]:**

Dilute product at 2.0 of product per gallon of water (1:64) and fill tank.

1. Pre-clean visibly soiled areas.
2. Spray 6-8 inches from hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
3. All surfaces must remain wet for 3 minutes<sup>19</sup> for bactericidal, fungicidal and \*virucidal efficacy. Allow 10 minutes for Tuberculocidal efficacy.
4. Let air dry.

<sup>[12]</sup> **For Uses as a [Instructions] [for] [use] [as] a Boot Dip:** Dilute 2 oz of product per gallon of water (1:64).

1. Using a (stiff) (bristled) (hand) brush (or) (scraper), remove organic matter from the boot (or) (shoe). (Pay particular attention to the sole).
2. Place boot (or) (shoe) into the boot dip and scrub hard non-porous surfaces using a (soft) (hand) brush making sure that the boot is washed thoroughly with the product [or product name] and paying particular attention to the sole. Allow the boot (or) (shoe) to remain wet for 5 minutes for bactericidal, fungicidal, and \*virucidal efficacy.
3. Replace disinfectant solution [or product name] if soiled or a daily.

{Note to reviewer: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

**For Uses as a [Instructions] [for] [use] [as] a Boot Spray:** Dilute 2 oz of product per gallon of water (1:64).

1. Using a (stiff) (bristled) (hand) brush (or) (scraper), remove organic matter from the boot (or) (shoe). (Pay particular attention to the sole).
2. Spray 6-8 inches from hard, non-porous surfaces of the boot (or) (shoe) with the product [or product name] and scrub using a (soft) (hand) brush making sure that the boot is washed thoroughly with the product [or product name]. (Pay particular attention to the sole.) Allow the boot (or) (shoe) to remain wet for 3 minutes<sup>19</sup> for bactericidal, fungicidal, and \*virucidal efficacy ([and] [or] 10 minutes for tuberculocidal efficacy).
3. Diluted solution [product name] is good for (30) (45) (90) (150) days in a closed container.

**For Use to Clean and Disinfect [Shower Rooms], [Locker Rooms] [and] [Other] Large, Open Areas with Floor Drains:** Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Pre-clean visibly soiled areas.
2. Spray Use Solution 6-8 inches from floors, walls and ceilings making sure not to over spray. To disinfect, all surfaces must remain wet for three (3) minutes ([and] [or] 10 minutes for tuberculocidal efficacy).
3. Scrub using a deck brush or other coarse material as necessary.
4. Rinse surfaces thoroughly and let air dry.

(NOTE: When cleaning floors position wet-floor signs around area to be cleaned. Floors will be slippery when wet or contaminated with foreign materials.)

**For Use as a Cleaner/Disinfectant in non-food handling areas of Food Processing Plants:** Dilute at 2.0 oz. of product per gallon of water (1:64)

1. Spray evenly 6-8 inches from hard, dry non-porous surfaces. Be sure to wet all surfaces thoroughly.
2. Allow product to remain on surface for three (3) minutes ([and] [or] 10 minutes for tuberculocidal efficacy).
3. Wipe with clean cloth, sponge or paper towel.
4. For visibly soiled areas, thoroughly clean surface prior to disinfecting.

<sup>[12]</sup> **For use as a Disinfectant on pre-cleaned non-critical medical devices<sup>8</sup>, instruments and implements:**

Dilute at 2.0 oz. of product per gallon of water (1:64).

1. Instrument must be thoroughly cleaned to remove excess organic debris, rinsed and dried.
2. Thoroughly clean and rinse lumens of hollow instruments.
3. Using either tray or an ultrasonic unit, immerse instrument in (diluted) use solution for 5 minutes at room temperature, (10 minutes for tuberculocidal efficacy).
4. Remove and rinse instruments.
5. Wipe dry prior to use.
6. Discard solution after each use or when visibly [dirty] [soiled].
