RE: Application for Amendment dated: December 14, 2006
Product Name: Oculus Microcyn Sanitizer
EPA Registration: 81206-1

Dear Ms. Jones:

The Agency has reviewed your request for a name change of the primary label and revised label claims submitted in accordance with continuing registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA), as amended. The Agency has conditionally accepted the revised label changes with the following conditions:

1. On page two under [Description] insert "indoor" between inanimate and surfaces.
2. On page two under [Features] change "Kills bacteria on" to "Sanitizes indoor"...
3. On page two above site suggestions insert "Indoors" between use and on.
4. On page three at top line insert "Indoors" between following and hard.

All of your current inventory must be relabeled. In addition to your request to modify the primary brand name by changing Oculus Microcyn Disinfectant to Oculus Microcyn Sanitizer, the alternate brand names, Puracyn and Cidalcyn must also be modified in the same manner.

The Agency has accepted your March 28, 2006 request to modify the Environmental Hazards strike out language perceived as outdoor uses. A copy of your conditionally accepted label is enclosed. Also, we have reviewed your Storage Stability data submission, MRID 467957-01, and deemed the data acceptable. A copy of our review is enclosed.

If you have questions concerning or a response to this letter, please contact Emily Mitchell, (703) 308-8583, or by e-mail at mitchell.emily@epa.gov.

Sincerely,

Mark Hartman, Chief
Regulatory Branch II
Antimicrobials Division
Office of Pesticide Programs

Formulated for Effective Food Contact Sanitization

[DESCRIPTION]

Oculus Microcyn Sanitizer (OMS) is a food contact sanitizer for use on hard non-porous inanimate surfaces. Oculus Microcyn Sanitizer (OMS) is a super-oxidized, pH-neutral, purified water-based solution. It is a ready-to-use product that is especially useful on food contact surfaces where cross-contamination of treated surfaces can occur. Oculus Microcyn Sanitizer (OMS) will effectively sanitize hard, non-porous surfaces such as countertops and sinks when used in accordance with the Directions for Use.

indoor

[FEATURES]

- Fast-Acting
- No special handling or disposal requirements
- Durable, stable solution with 1 year shelf life
- Non-corrosive
- Non-flammable
- No dilution or mixing required
- Effective under ambient temperatures
- No expensive machinery or equipment required
- Kills bacteria on hard non-porous surfaces in food contact areas
- Ready-to-use: No dilution or mixing required

Indoor

SANITIZES THE FOLLOWING ^{INDOOR} HARD NON-POROUS SURFACES

Glass Baby Bottles
Kitchen Utensils
Food/Beverage Storage Container
Feed Containers

Food Contact Surfaces
Microwave Oven Exteriors
Refrigerator Exteriors

MICROBIOCIDAL ACTIVITY

Sanitizer Salmonella typhi - 1 minute

SANITIZER: Equivalent to 100ppm available chlorine in an AOAC Available Chlorine Test in 1 minute against Salmonella typhi.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

To Sanitize:

Precleaning is required. [Preclean surfaces.] Apply Oculus Microcyn Sanitizer (OMS) to hard non-porous surfaces with a cloth, mop, sponge, or coarse sprayer. Wet all surfaces thoroughly. Allow surface to remain wet for 1 minute then air dry.

For dishes, glassware and utensils: Wash and rinse. After washing soak for at least one minute in Oculus Microcyn Sanitizer (OMS), drain and air dry.

NOTE: Upon opening this container, record the date on the container. If the product is transferred to spray bottles or other containers, record the same date on the secondary container. HPDE, PET or glass containers are recommended for secondary container storage. Oculus Microcyn Sanitizer (OMS) may be used for up to 30 days after opening. After 30 days, discard any remaining product in accordance with local, state and federal regulations.

OPEN DATE:

PHYSICAL OR CHEMICAL HAZARDS

Product contains a strong oxidizer. Always flush drain before and after use. Do not use or mix with other household chemicals such as toilet bowl cleaners, rust removers, acids, or products containing ammonia. To do so will release hazardous, irritating gases. Prolonged contact with metal may cause pitting or discoloration.
