JAN 16 2013

Subject: Label Amendment to Clarify Indoor Use Acceptability of Bags
Product Name: Mint-X® Multipurpose Flexible Plastic
EPA Reg. No: 85589-1
Your Submission Dated October 12, 2012

Dear Ms. Anastasiou:

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(5), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Final printed labeling means the label or labeling of the product when distributed or sold. Clearly legible reproductions or photo reductions will be accepted for unusual labels, such as those silk-screened directly onto glass or metal containers or large bags or drum labels.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions. Should you have any questions regarding this action, you may contact Gina Burnett at (703) 605-0513 or via email at burnett.gina@epa.gov. A stamped copy of the label is enclosed for your records.

Sincerely,

Linda A. Hollis, Chief
Biochemical Pesticides Branch
Biopesticides and Pollution
Prevention Division (7511P)

Directions for use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For management of trash disposal to reduce Norway Rats and Raccoons from damaging garbage bags when left outdoors. When used indoors, Mint-X Trash Bags may be used as a typical household trash bag. Efficacy improves with repetitive use at same location as rats and raccoons learn to avoid Mint-X Trash Bags when used in and around the periphery of buildings, alleys or homes. Dispose of used trash bags as specified on this label.

Use this product as a typical trash bag.

[NOTE: To avoid danger of suffocation, keep all plastic bags away from babies and children. Do not use plastic bags in cribs, beds, carriages or playpens.]

[Do not use for food storage]

Storage and Disposal:

Do not contaminate water, food, or feed by storage and disposal. Dispose of used trash bags in accordance with state, local and federal regulations as ordinary trash.

- Neutralizes the foul odor of trash
- It's not the strength. It's the Mint scent!
- Up to 20% thicker than most other Tall Kitchen Bags!
- For best results also use Mint-X [Trash Bags] Outdoor Drawstring Bags
- The Mint-X Story;
- After 40 years of manufacturing and supplying heavy duty trash-bags to New York City's largest apartment buildings, the inventor of Mint-X was asked to help solve a problem for his biggest customer. "Can't you put something in your trash that keeps rodents away?" That one question inspired the creation of an effective alternative to standard trash bags. The infusion of essential oils that combine to form the special mint formula in Mint-X® trash bags smells pleasant to humans but is overwhelming to raccoons and rats because of the keens sense of smell.
