

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

88098-2

Date of Issuance:

3/8/23

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Nixall Daily Disinfectant

Name and Address of Registrant (include ZIP Code):

Seriously Clean LTD
 1075 W. Kathryn St., Suite 6
 Nixa, MO 65714
 Electronic Transmittal: [brianhogan330@gmail.com]

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 88098-2."

Signature of Approving Official:

Demson Fuller, Product Manager 32
 Regulatory Management Branch I,
 Antimicrobials Division (7510P)

Date:

3/8/23

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 07/18/2022

If you have any questions, please contact Wanda Henson by phone at (202)566-0650, or via email at henson.wanda@epa.gov

Sincerely,

Demson Fuller, Product Manager 32

NET CONTENTS:

[X FL OZ] [X PT] [X QT] [X GAL] [X mL] [X L]

[Nixall Daily Disinfectant is an activated aqueous solution of hypochlorous acid produced by passing weak salt brine through the electrolytic cell[s] using Electro-Chemical Activation (ECA) technology.] [Nixall Daily Disinfectant contains a minimum of 160 ppm free available chlorine (FAC).]

PRECAUTIONARY STATEMENTS

PHYSICAL OR CHEMICAL HAZARDS

Nixall Daily Disinfectant is not compatible with other chemicals such as acids and hydrogen peroxide.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

{If Medical Use Sites are listed on the label, the following language must also appear}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

DISINFECTION APPLICATIONS

To Disinfect [and Deodorize] Hard, Non-Porous Surfaces: Remove visible soil and thoroughly preclean surface prior to disinfection. Spray Nixall Daily Disinfectant on surface from a distance of 6-8 inches and allow to remain visibly wet for 5 minutes. Wipe with paper towel or clean cloth, if desired. Allow surfaces to air dry.

To Disinfect [and Deodorize] Specifically Against Human Coronavirus on Hard, Non-Porous Surfaces: Remove visible soil and thoroughly preclean surface prior to disinfection. Spray Nixall Daily Disinfectant on surface and allow to remain visibly wet for 3 minutes. Wipe with paper towel or clean cloth, if desired. Allow surfaces to air dry.

To Disinfect Water Sensitive [Electronic] Equipment, Hard, Non-Porous Surfaces: Completely power off electrical equipment prior to treatment. Remove visible soil and thoroughly preclean surface prior to disinfection. Carefully spray Nixall Daily Disinfectant on surface so that only enough solution is applied to keep the surface visibly wet for 5 minutes. Avoid over soaking and prevent pooled or puddled areas. Treated surfaces must remain visibly wet for 5 minutes. Reapply as necessary to keep visibly wet for 5 minutes. Do not rinse. Wipe with paper towel or clean cloth, if desired. Allow surfaces to air dry. Do not restore power to electronic equipment until thoroughly dry.

GENERAL CLEANING AND DEODORIZING APPLICATIONS

To Clean Non-Porous Surfaces – and/or – Floors: [Apply] [Wipe [Spray] [Dip] Nixall Daily Disinfectant to soiled area or surface with a [cloth] [wipe] [mop] [sponge] [spray] [immersion], then wipe or scrub clean. This product can be used to clean various stains and organics including the following: bathtub ring, beverage stains, blood, body oils, coffee [stains], dead

skin, dirt, fecal matter, fingerprints, food residue[s], fruit (stains), grease, laboratory stains, mildew stains, mold stains, [other] common soils – and/or – stains, [other] organic matter, pet odor, rust, tea (stains), urine (stains), vomit (stains).

To Clean and Deodorize Toilet Bowls – and/or – Urinals – and/or – Bidets: Remove visible soil. Empty toilet bowl or urinal and liberally apply [Nixall Daily Disinfectant] [this product] to exposed surfaces including under the rim with a cloth, mop, sponge, or spray device until the surface is visibly wet. Brush or swab all surfaces thoroughly. Treated surfaces must remain visibly wet for 3 minutes before flushing again. Allow to air dry.

To Deodorize: Spray often.

To Clean Gloves or Boots: Remove any debris or organic matter from rubber gloves or boots. Then dip or thoroughly coat with [this product], ensuring that the item remains wet for a minimum of 60 seconds. Allow to air dry.

TO PRESERVE CUT FLOWERS AND/OR PLANTS

For longevity of [cut] [flowers] [hemp] [plants], mix 3-6 fl oz [of this product] per quart of water to make a 15 -30 ppm solution. Spray diluted solution on [flowers] [hemp] [plants] to control [powdery mildew] [Botrytis] [and] [non-public health bacteria]. Use in flower vase or buckets to retard the growth of non-public health bacteria. Change the solution if it gets murky or hazy.

ALLERGEN DESTRUCTION APPLICATION

To [Clean and] [Remove and] [Destroy] [Reduce] Specified Allergens: Apply Nixall Daily Disinfectant with paper towel, cloth, mop, sponge, spray, or immersion. Treated surfaces must remain wet for 3 minutes. Allow surfaces to air dry. Nixall Daily Disinfectant [This product] breaks down-and/or-denatures-and/or-destroys allergens: dust mite matter, dust mite debris, cockroach matter, cockroach debris, pet dander, dog dander, cat dander, grass and pollen particles. [Apply] [Use] [Spray] daily or as often as desired.

ORGANISM TABLE

	Contact Time
Bacteria: Broad-Spectrum and Hospital	
Staphylococcus aureus (ATCC 6538)	5 min
Salmonella enterica (ATCC 10708)	5 min
Pseudomonas aeruginosa (ATCC 15442)	5 min
Viruses	
Human Coronavirus [Strain 229E] (ATCC VR-740)	3 min

QUALIFIERS TABLE

{If any Use Sites or Claims that include a qualifier are used, the appropriate qualifier below must also appear on the label.}

Symbol	Qualifier Statement
§	Hard, Non-porous Surfaces
*	Allow surfaces to come to room temperature before treating.
†	Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa, Human Coronavirus
‡	Human Coronavirus

Leaves surfaces disinfected[§]

Made in the USA [may include graphic of American flag]

Neutralizes odors and Kills odor causing bacteria

Disinfectant/cleaner designed for general cleaning and disinfecting hard, non-porous environmental surfaces in health care facilities-or-[insert use site[s] from table1]

Oxidizing agent to provide disinfection

The answer to your disinfecting needs

This product is designed to provide effective cleaning, deodorizing, and disinfecting in area where housekeeping is of prime importance in reducing cross contamination between treated surfaces.

This product inhibits bacterial growth and deodorizes by killing microorganisms that cause offensive odors.

This product eliminates odors caused by bacteria on hard non-porous surfaces. It is not a masking agent.

Reduces cross contamination between treated hard, non-porous surfaces

Touch up cleaning/disinfection

Kills germs[†]

Kills germs[†] on hard, non-porous patient areas

Try me [!]

Use [daily] [everyday]

Use on scissor[s]/pruner[s] to kill [powdery mildew] [Botrytis] [and] [non-public health bacteria].

Use on hard, non-porous surfaces [in] [greenhouses] [grow houses] [growing facilities] [grow tents] to kill non-public health bacteria, powdery mildew and botrytis.

Use where odors are a problem

Use without gloves

Use in places you are concerned about bacteria-and/or-viruses[±]-and/or-germs[†]
