

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

90780-8

Date of Issuance:

7/17/15

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

TC MOUSE KILLER 142

Name and Address of Registrant (include ZIP Code):

The Scotts Company
d/b/a Tomcat Brands
P.O. Box 190
Marysville, OH 43040

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 90780-8."

Signature of Approving Official:

Venus Eagle, Product Manager 01
Invertebrate-Vertebrate Branch 3, Registration Division (7505P)

Date:

7/17/15

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/17/2015
- Alternate CSF A dated 06/17/2015

If you have any questions, please contact Dr. William W. Jacobs by phone at 703-305-6406, or via email at jacobs.bill@epa.gov.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Bait contents harmful if swallowed. Keep away from children, domestic animals and pets. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

USER SAFETY REQUIREMENTS: As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID [icon]

HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:

- Call a poison control center, doctor, or 1-877-332-0755 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

IF ON SKIN:

- Wash with plenty of soap and water.

TREATMENT FOR PET POISONING

If an animal eats this bait, call a veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish, birds and other wildlife. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS:

This bait station may be used in areas accessible to children and pets, consistent with all use restrictions and other requirements indicated on this label. Do not apply further than 50 feet from home or building.

For control only of house mice. This bait station can only be refilled with the block bait sold with this station. [TC Mouse Killer 142] [This product] must be used in and around buildings consistent with all use restrictions and other requirements indicated on this label. Do not place this bait station or stored block bait in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food. Store bait block refills out of reach of children and pets.

[Note to PM: "SELECTION OF TREATMENT AREAS", "APPLICATION DIRECTION", "LOADING INTO BAIT STATION" sections of label will be treated in one of the fashions shown below.

[Option 1]

SELECTION OF TREATMENT AREAS [Indoors & Outdoors]: Determine areas where house mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places.

APPLICATION DIRECTIONS:

While wearing gloves, place one block of bait in the bait station. See additional GRAPHICS AND TEXT. Place the bait station at point of highest activity along a wall or in corner where signs of house mice have been seen. If additional units are to be used, place bait stations at 8- to 12-foot intervals. To monitor for refilling, view bait via see-through lid. While wearing gloves, replace the block of bait if it has been consumed or contaminated and house mice are still using the bait station. Note: Mice will eat a small amount of bait and leave the station. You likely will not find a dead mouse in the station.] / [Note: Mice will eat a small amount of bait and cease feeding after consuming a toxic dose. They then leave the station. You likely will not find a dead mouse in the station.] While wearing gloves, replace bait in bait station if bait is consumed or contaminated and house mice still are using the bait station. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are fresh signs of house mouse activity in infested areas.

Note to PM: alternate language: “While still holding tab, squeeze prongs of bait cartridge [with your right hand] and pull it away from station.”

Note to PM: Visual of “Loading Bait Into Station” can be in either photos shown above or icons as shown below with text from chart.

Follow-up: Wearing gloves, collect and dispose of any leftover bait or carcasses. [Carcasses should be placed in an outdoor garbage can.] To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

[Option 2]
APPLICATION DIRECTIONS:

1. Selection of Treatment Areas [Indoors & Outdoors] 	2. Remove Bait Cartridge 	3. Load Bait 	4. Placing Bait Stations 	5. Monitor 	6. Follow Up 
<p>Determine areas where house mice will most likely consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places.</p>	<p>Flip station over to remove the cartridge from the bottom of the station. With your left hand, push tab up. While still holding tab, squeeze prongs of bait cartridge and pull it away from station.</p>	<p>While wearing gloves, place one block of bait in the bait station. Place bait into cartridge. Push the loaded cartridge into station until the cartridge clicks into place.</p>	<p>Place bait station at point of highest activity along a wall or in corner where signs of house mice have been seen. If additional units are to be used, place bait stations at 8- to 12-foot intervals.</p>	<p>Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are fresh signs of house mouse activity in infested areas. To monitor for refilling, view bait via see-through lid. While wearing gloves, replace the block of bait if it has been consumed or contaminated and house mice are still using the bait station. [Note: Mice will eat a small amount of bait and leave the station. You likely will not find a dead mouse in the station.] / [Note: Mice will eat a small amount of bait and cease feeding after consuming a toxic dose. They then leave the station. You likely will not find a dead mouse in the station.]</p>	<p>Wearing gloves, collect and properly dispose of any leftover bait and/or carcasses. [Carcasses should be placed in an outdoor garbage can.] To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.</p>

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets.
PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill container except as described in the Directions For Use. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Note to PM- Warranty/Guarantee or notice statements may or may not appear on market label

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions

Notice: To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

+Tomcat [Brands] [or insert sub-registrant company name] Guarantee [Satisfaction Guaranteed or Your Money Back] If for any reason you, the consumer, are not satisfied with this product, mail us your original proof of purchase to obtain a full refund of your purchase price.
