Subject: Label Amendment to add label claims for marketing and pictures  
Product Name: 00ZZZERO Mosquito Trap  
EPA Registration Number: 91605-2  
Application Dates: 6/7/2021  
Decision Number: 579226

Dear Mr. Hogan:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

## **PRECAUTIONARY STATEMENTS**

### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION** Harmful if swallowed, absorbed through skin or inhaled. Causes moderate eye irritation. Do not breathe the vapor and avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long-sleeved shirt and long pants, sock, shoes, and waterproof gloves. Remove and wash contaminated clothing before reuse.

### **ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish, birds and aquatic invertebrates. Drift and run-off may be hazardous to fish in water adjacent to treated areas. **DO NOT** contaminate water when disposing of equipment, washwater, or rinsate. **DO NOT** apply directly to water areas where surface water is present or to intertidal areas below the mean high-water mark.

The secret of (the) 00ZZZERO Mosquito Trap lies in the patented coating inside that slowly releases pesticides killing aedes mosquito larvae. The trap is designed for female mosquitoes to enter and lay eggs. Can be used in conjunction with other mosquito management methods.

00ZZZERO Mosquito Trap is a trap that kills Aedes spp. mosquito larvae. The larvicide, pyriproxyfen, kills larvae that hatch from eggs flooded by rainwater entering the trap. 00ZZZERO Mosquito Trap is for used to kill larvae, thereby preventing emergence of adult container-breeding Aedes mosquitoes that may transmit Zika, dengue, or chikungunya virus to humans.

## **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For outdoor use only.

Remove Trap from Packaging. Fill the Trap to the top with room temperature tap water. The spout regulator will indicate when full. Hang the Trap from a tree or place on the ground in a shaded area of the yard or under trees/shrubs, etc. **Trap must be placed in areas inaccessible to children.** Avoid placing trap in direct sunlight or near heated surfaces such as concrete, brick, asphalt pavements, and others. For best results, check the water level in the trap periodically, i.e. a week or more after a rainy day. If empty, refill with water. Trap will last for up to 35 days.
