Allan,

In response to your call this morning concerning PSNH need to revise your response to the zero discharge question poised by Region 1's recent 308 Letter; Region 1 understands and accepts your reason to delay submitting that zero discharge portion of the 308 response. New information has been obtained by a PSNH staff member's visit to another zero discharge FGD facility, and that new information has lead to need to revise PSNH's 308 Letter response.

Region 1 expects PSNH's response to our 308 Letter, except for the zero discharge portion, to be mailed to us today. Region expects PSNH will be mailing the zero discharge response by the Wednesday of next week.

If you have any question or concerns, please do not hesitate to contact me.

John

John, As we discussed regarding our follow-up response to the Merrimack Station FGD WWTS BAT analysis, PSNH is not able to provide a complete package today. We have several parties working on the various questions and we can not pull it all together this quickly. More importantly, we are trying to thoroughly research the issues as discussed at Monday's meeting to provide a detailed and complete response, particularly as relates to ZLD. Since much of the requested information is proving to be difficult to locate and verify, I ask that the schedule be extended to December 3. If preferred, we can likely submit an initial response by 11/24 with a majority of the information. Please let me know your decision. Thanks, Allan. *****

Allan,

The email is what I was looking for, and I will forward it to Webster and Stein.

Thank you, John
