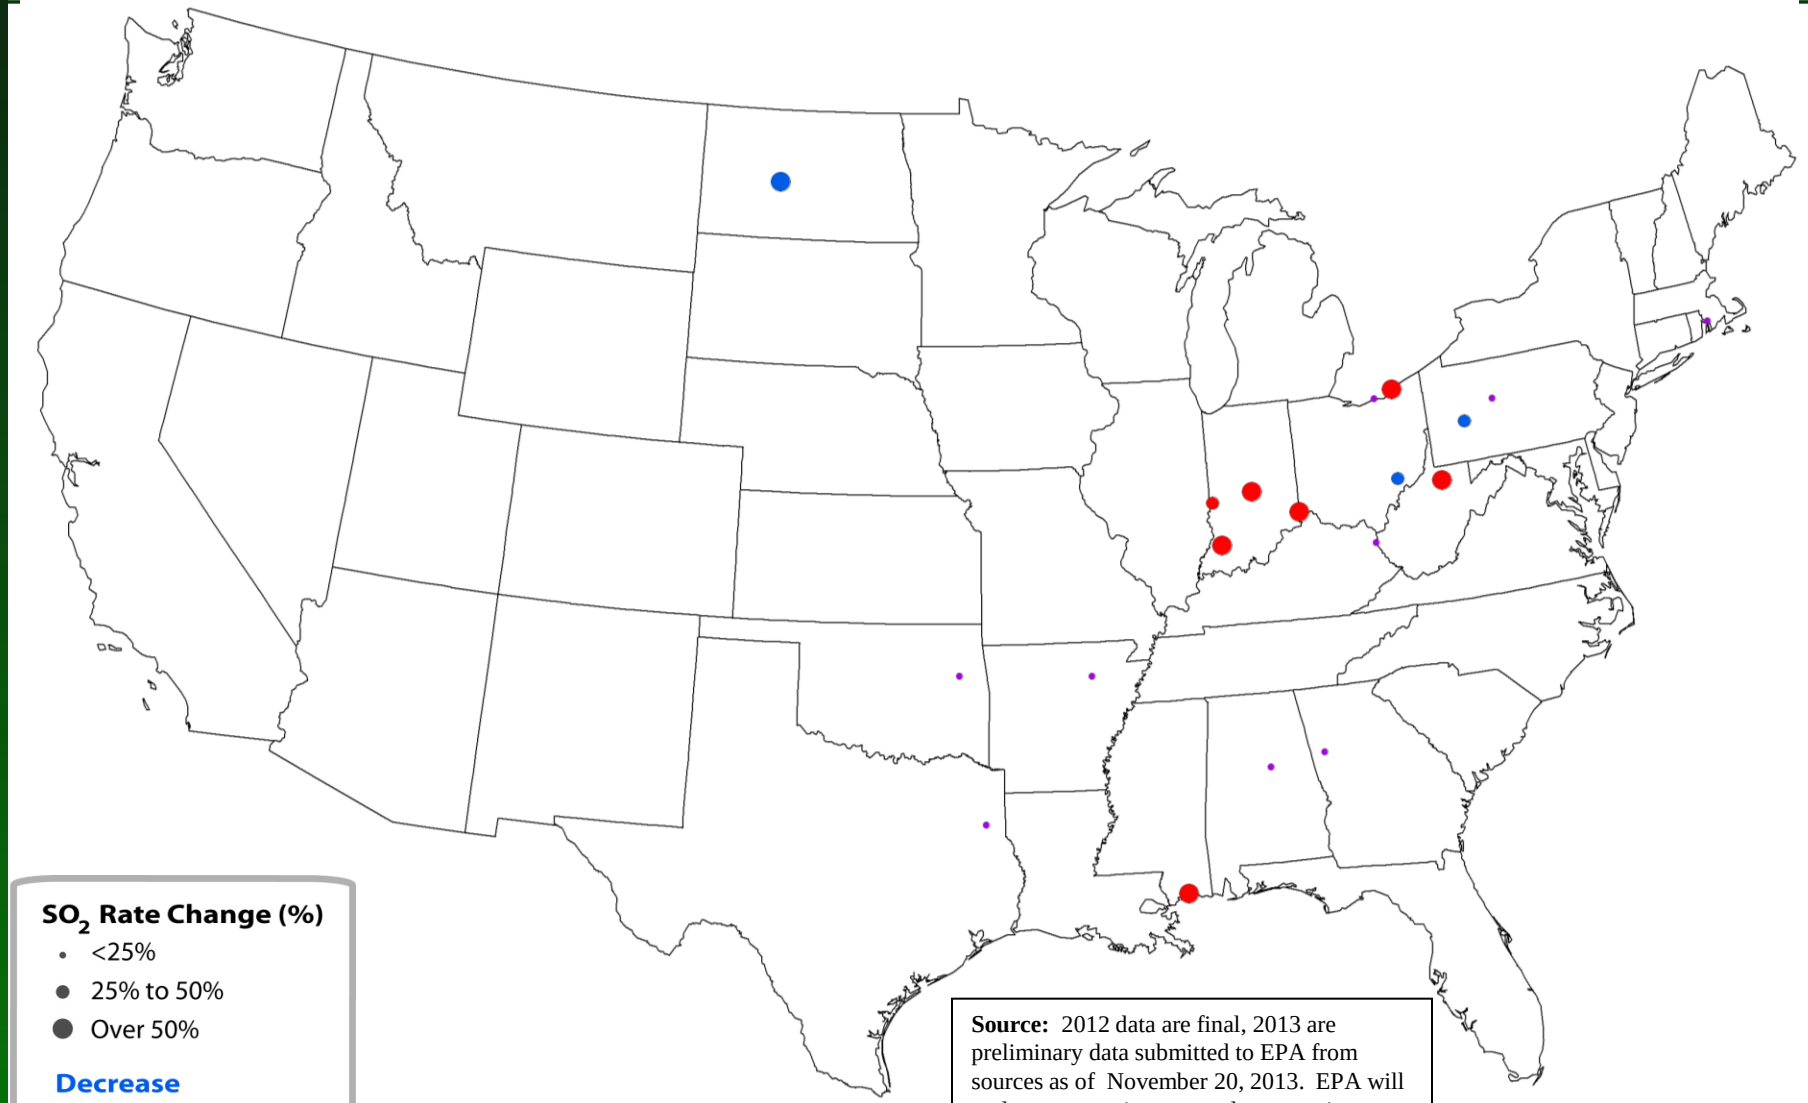
2012 vs 2013 Comparisons, Quarter 1 (January 1- March 31)
SO_2 Emission Rate Changes at Facilities (Coal Units Only)
With 2,500 Tons Change in the Quarter Between Years

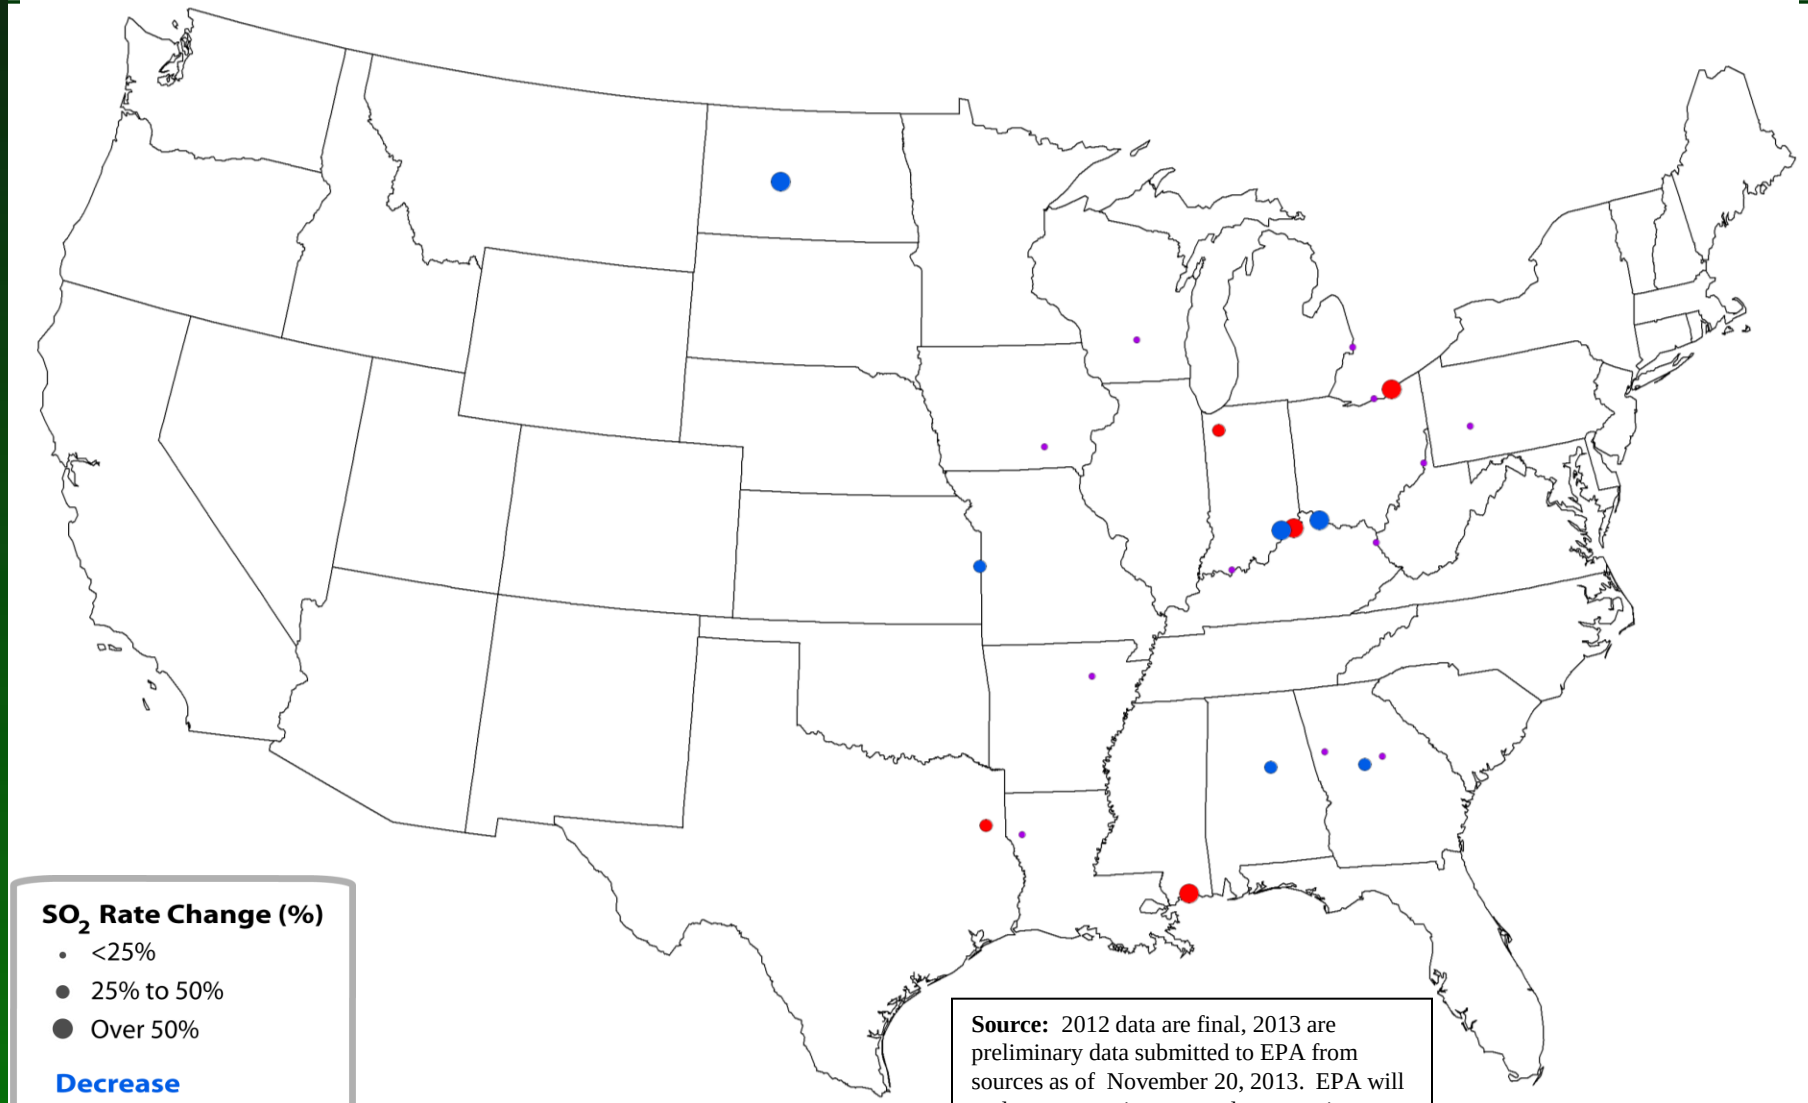


Source: 2012 data are final, 2013 are preliminary data submitted to EPA from sources as of November 20, 2013. EPA will update maps as it corrects data over time.

Note: This map displays changes occurring between the first quarter of 2012 and the first quarter of 2013; many facilities already have advanced controls and low emission rates and therefore show no change. If a unit has not yet reported first quarter 2013 emissions data to EPA, it is not included in this map. In areas with a dense concentration of facilities, the facilities on the map may overlap and some may be impossible to see.

United States Environmental Protection Agency

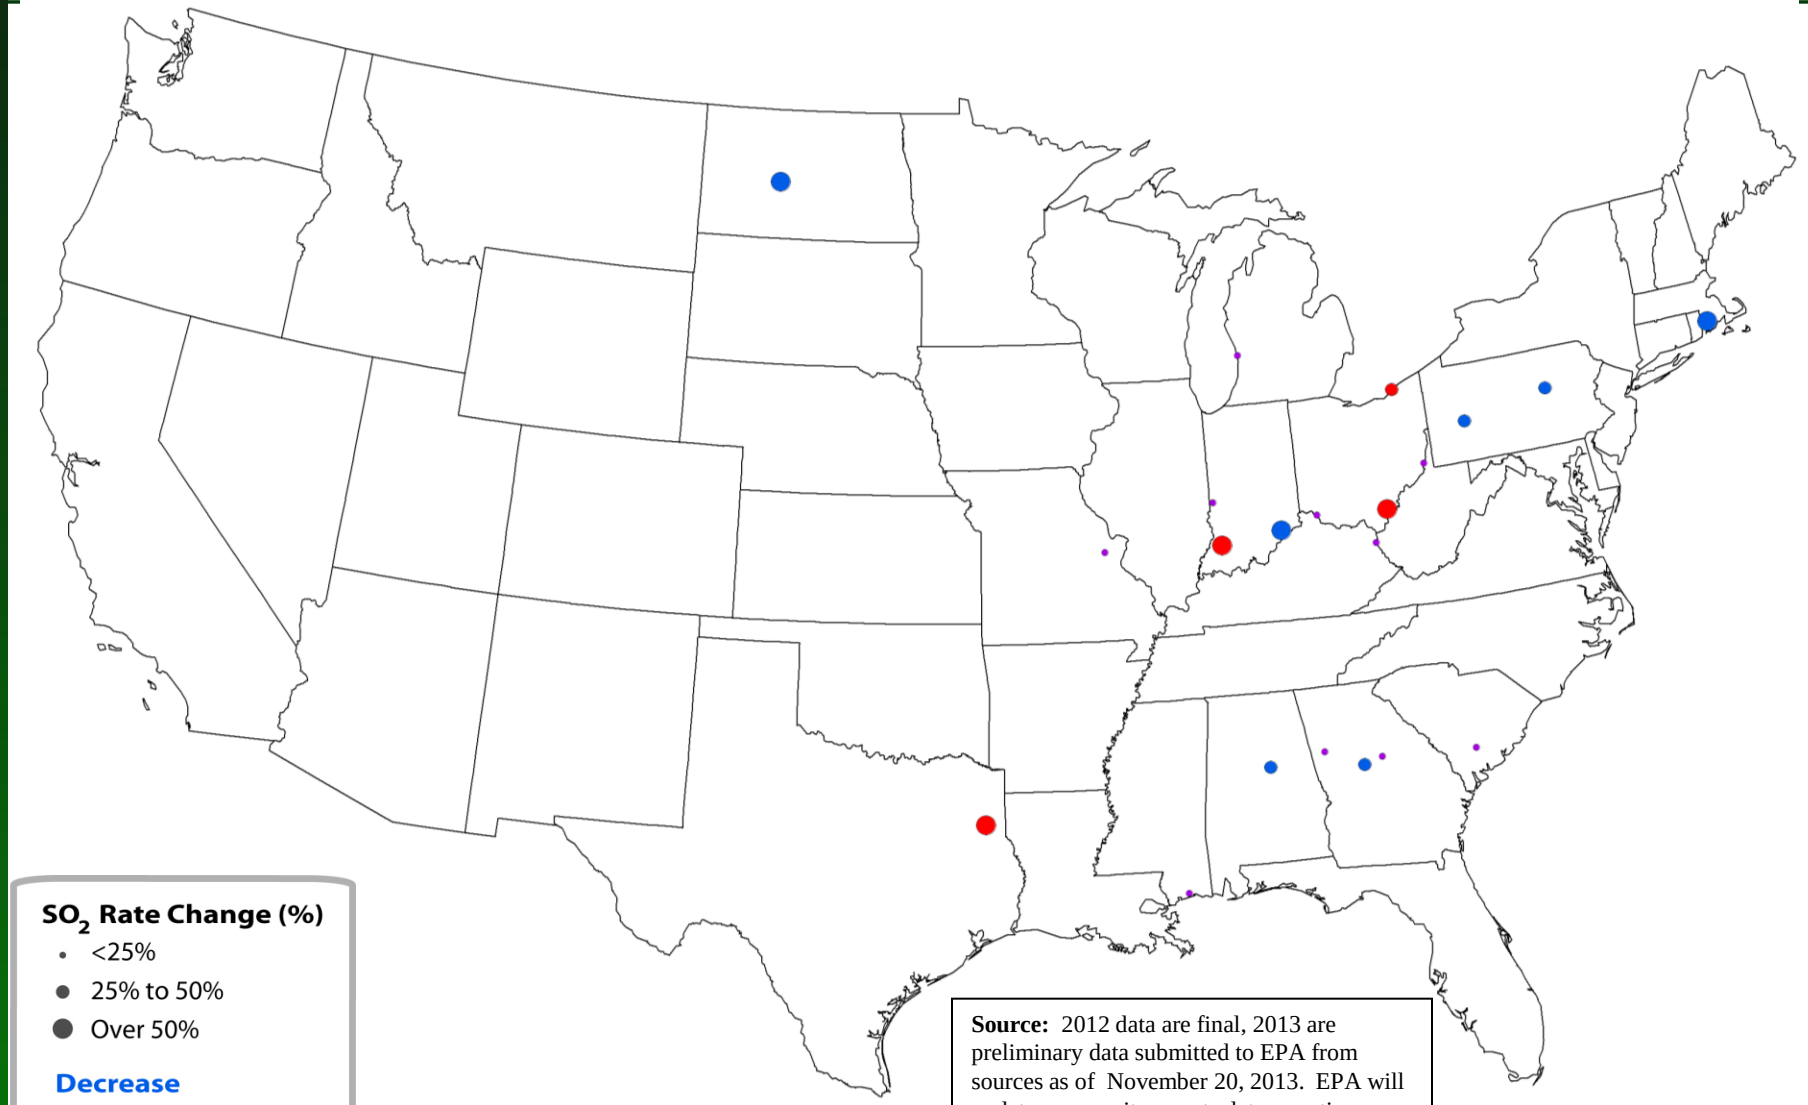
2012 vs 2013 Comparisons, Quarter 2 (April 1- June 30)
SO_2 Emission Rate Changes at Facilities (Coal Units Only)
With 2,500 Tons Change in the Quarter Between Years



Source: 2012 data are final, 2013 are preliminary data submitted to EPA from sources as of November 20, 2013. EPA will update maps as it corrects data over time.

Note: This map displays changes occurring between the second quarter of 2012 and the second quarter of 2013; many facilities already have advanced controls and low emission rates and therefore show no change. If a unit has not yet reported second quarter 2013 emissions data to EPA, it is not included in this map. In areas with a dense concentration of facilities, the facilities on the map may overlap and some may be impossible to see.

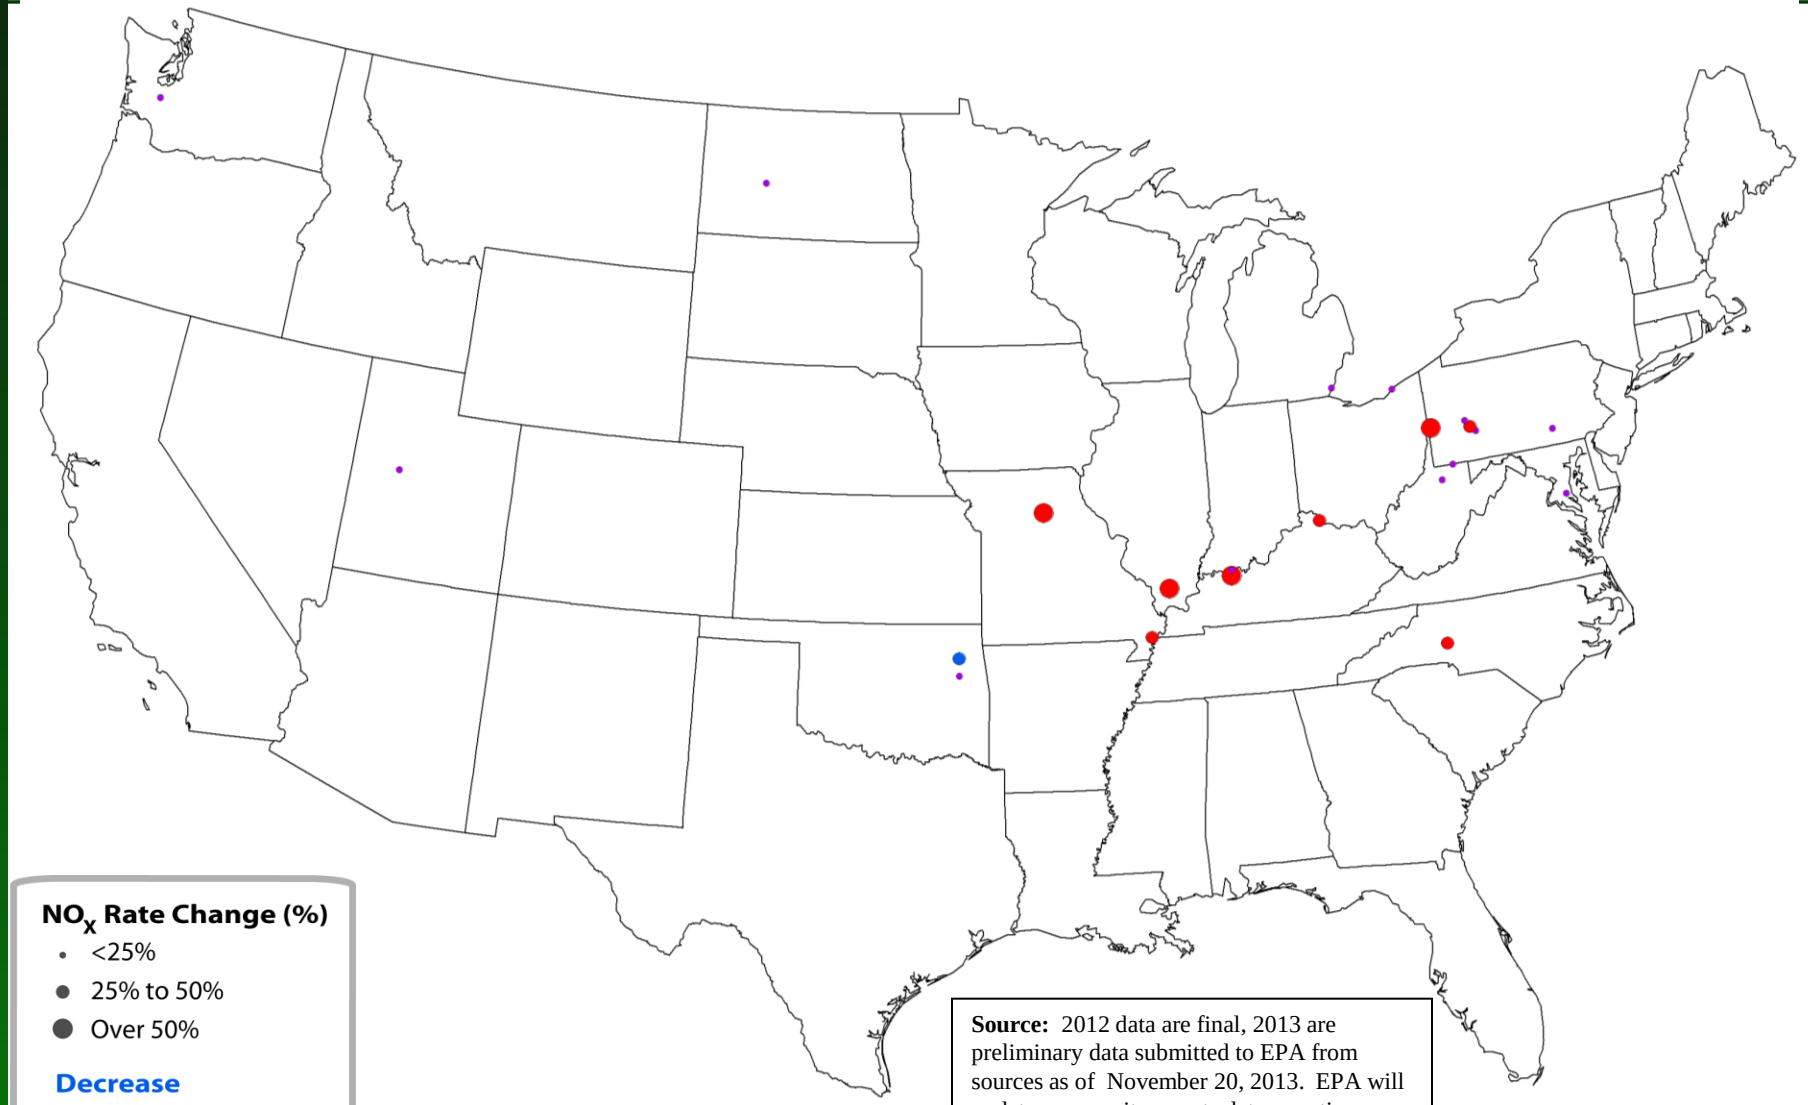
2012 vs 2013 Comparisons, Quarter 3 (July 1- September 30)
SO_2 Emission Rate Changes at Facilities (Coal Units Only)
With 2,500 Tons Change in the Quarter Between Years



Source: 2012 data are final, 2013 are preliminary data submitted to EPA from sources as of November 20, 2013. EPA will update maps as it corrects data over time.

Note: This map displays changes occurring between the third quarter of 2012 and the third quarter of 2013; many facilities already have advanced controls and low emission rates and therefore show no change. If a unit has not yet reported third quarter 2013 emissions data to EPA, it is not included in this map. In areas with a dense concentration of facilities, the facilities on the map may overlap and some may be impossible to see.

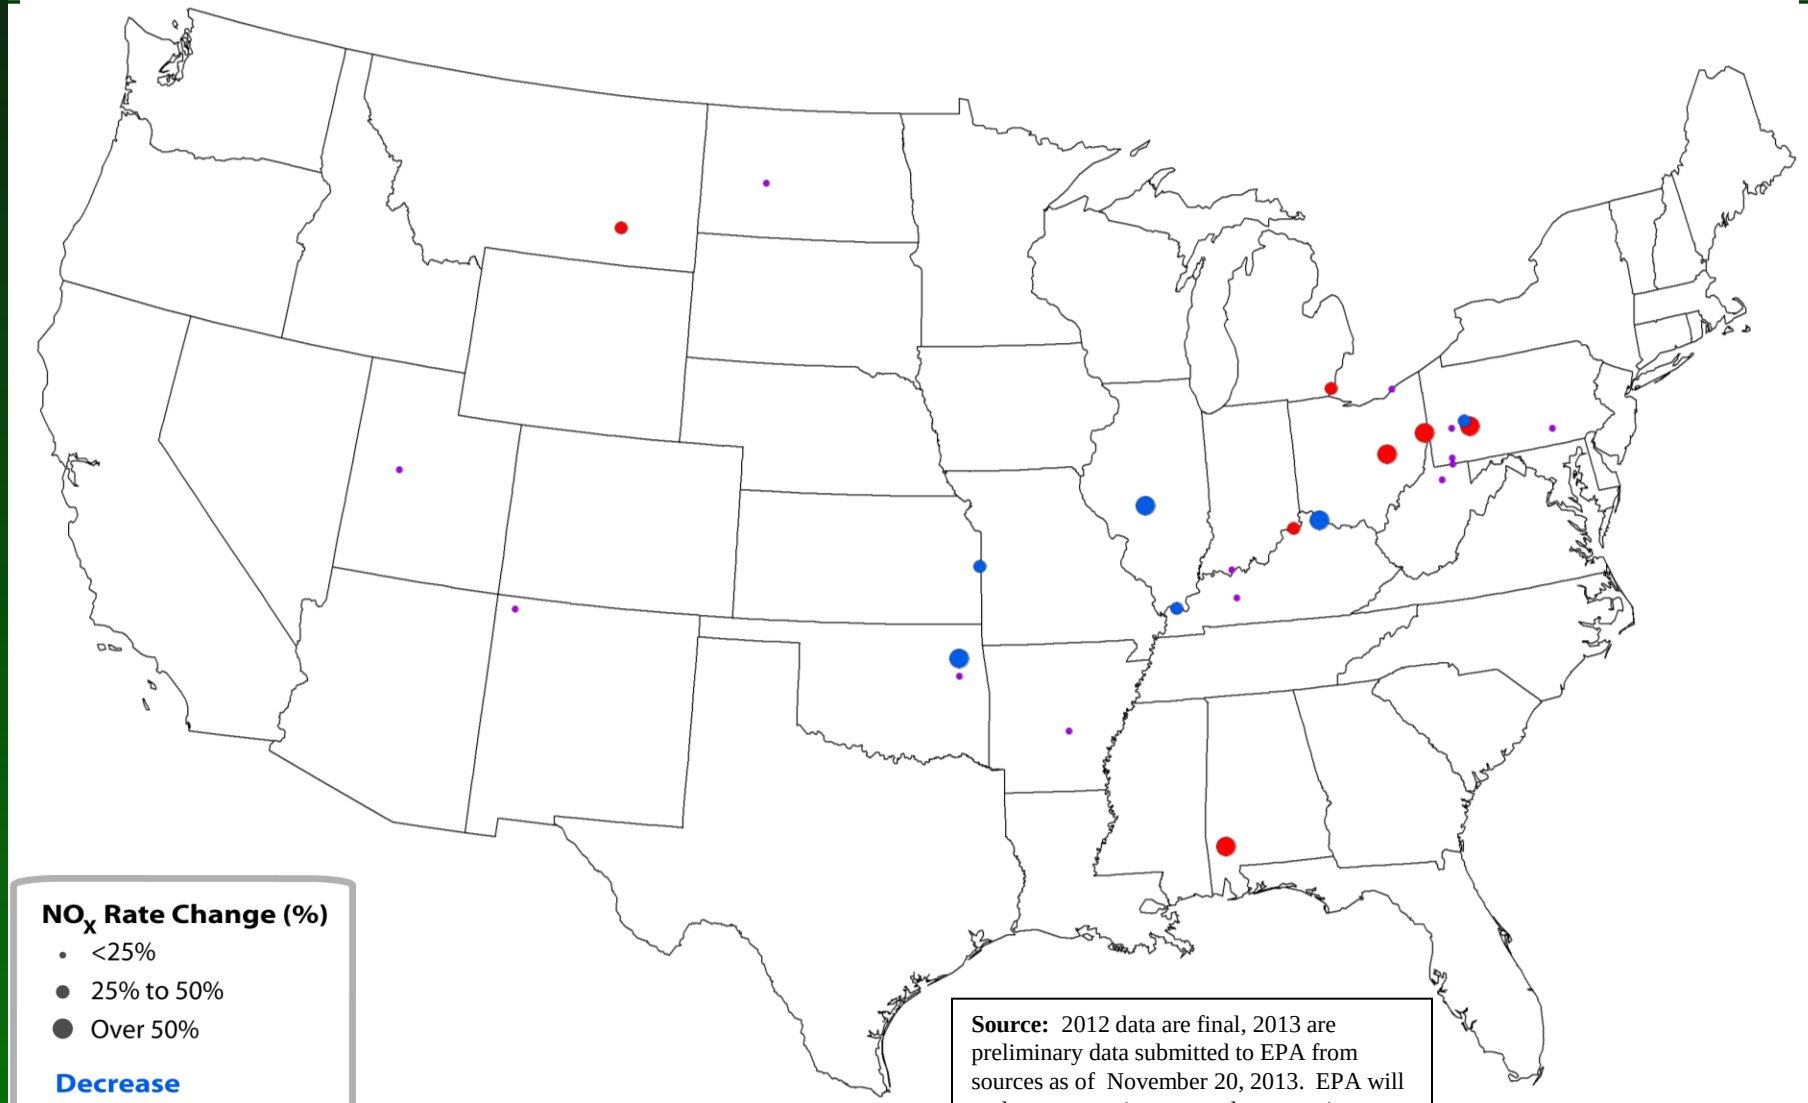
2012 vs 2013 Comparisons, Quarter 1 (January 1- March 31)
NO_X Emission Rate Changes at Facilities (Coal Units Only)
With 1,000 Tons Change in the Quarter Between Years



Source: 2012 data are final, 2013 are preliminary data submitted to EPA from sources as of November 20, 2013. EPA will update maps as it corrects data over time.

Note: This map displays changes occurring between the first quarter of 2012 and the first quarter of 2013; many facilities already have advanced controls and low emission rates and therefore show no change. If a unit has not yet reported first quarter 2013 emissions data to EPA, it is not included in this map. In areas with a dense concentration of facilities, the facilities on the map may overlap and some may be impossible to see.

2012 vs 2013 Comparisons, Quarter 2 (April 1- June 30)
NO_X Emission Rate Changes at Facilities (Coal Units Only)
With 1,000 Tons Change in the Quarter Between Years



Source: 2012 data are final, 2013 are preliminary data submitted to EPA from sources as of November 20, 2013. EPA will update maps as it corrects data over time.
