

Goals and Objectives

- Provide information to small businesses potentially affected by the reinforced plastics MACT standard
 - Legal requirements and background
 - Status of MACT development
 - EPA's approach for developing MACT for existing open molding sources
 - MACT standards being considered for existing open molding sources
 - Averaging within open molding
- Obtain feedback from small businesses on the MACT standards being considered for open molding
 - Discuss small businesses' operations, pollution prevention/emission reduction experiences
 - Listen to small businesses' reactions to the standards being considered
 - Collect ideas to minimize cost impacts for small businesses, while still meeting legal requirements and objectives
