A photograph of a white, box-like instrument shelter with a tall mast and various sensors, situated in a snowy, mountainous landscape under a clear blue sky. The shelter is a simple, rectangular white structure with a flat roof. A tall, slender metal mast rises from the top of the shelter, topped with a cylindrical sensor. To the right of the shelter, a separate lattice tower holds several horizontal sensors, including what appears to be a wind anemometer and a cup anemometer. The ground is covered with dry, yellowish-brown grass and patches of snow. In the background, a steep, rocky mountain slope is partially covered in snow and sparse evergreen trees. The sky is a deep, clear blue with a few wispy clouds near the horizon.
