Comments on Boswell Energy Center

EPA:

Page 1 – Make it clear that the five units that receive CCW were evaluated, however three of these units were considered one “complex” or unit. The way it is currently worded implies that some units that receive CCWs were not evaluated.

Subject: RE: Comment Request on EPA Draft Assessment Report for Allete/Minnesota Power's Boswell Energy Center

Our only comment is the "poor" rating given to the structures that were not inspected. I think "not rated" might be more appropriate, though I understand "poor" could just mean further analysis is needed.
