

# US EPA CSO Program's Webcast Series

## Combined Sewer Overflow Long Term Control Plan Basics

### Webcast: May 28, 2008

Two-hour audio Web broadcast

Eastern: 12:00 pm - 2:00 pm

Central: 11:00 am - 1:00 pm

Mountain: 10:00 am - 12:00 pm

Pacific: 9:00 am - 11:00 am

#### Session Description:

This second in the series of combined sewer overflow (CSO) webcasts will focus on the nine elements of a CSO Long Term Control Plan (LTPC), including: characterization, monitoring and modeling; public participation; sensitive areas; evaluation of alternatives; cost/performance considerations; operational plan; maximization of flow to the wastewater treatment plant; implementation schedule; and post construction compliance monitoring.

**Speakers:** Mohammed Billah, U.S. EPA  
Nikos Singelis, U.S. EPA
