

# US EPA Stormwater Program's Webcast Series

Financing a Municipal Stormwater Program  
with Andy Reese of AMEC Earth and Environmental, Inc.

## Webcast: Wednesday, July 12, 2006

Two-hour audio Web broadcast

Eastern: 1:00 pm – 3:00 pm

Central: 12:00 pm – 2:00 pm

Mountain: 11:00 am – 1:00 pm

Pacific: 10:00 am – 12:00 pm

### Session Description:

Municipal stormwater program managers have many options to choose from in financing their programs, from general funds to dedicated sources such as stormwater utilities. Each municipality must carefully assess each potential funding method to ensure it meets their stormwater program needs. The National Association of Flood and Stormwater Management Agencies (NAFSMA) {<http://www.nafsma.org/>} has developed Guidance for Municipal Stormwater Funding, a document to help municipalities address the procedural, legal, and financial considerations in selecting and developing stormwater financing approaches.

This webcast will be taught by Andy Reese, who is a national expert on municipal stormwater management and has taught numerous stormwater funding and stormwater utility development workshops across the country. Mr. Reese, a co-author of the NAFSMA Guidance, will describe stormwater funding methods and the advantages of developing a stormwater utility. Jeb Blackwell will also describe how the City of Charlotte, North Carolina, finances its stormwater program.

**Guest Speakers:** Nikos Singelis of EPA's Stormwater Program and Jeb Blackwell of the City of Charlotte, North Carolina

**Registration:** You must register in advance to attend this webcast. Visit the NPDES Web site at [www.epa.gov/npdes/training](http://www.epa.gov/npdes/training) to register.

*Note: Your computer must have the capability of playing sound in order to attend this webcast.*

### Tentative future dates and topics

8/9/06 Getting in Step 101 (TBD)

9/13/06 Illicit Discharge Detection and Elimination (IDDE) 101 – Program Development (with Jennifer Zielinski from the Center for Watershed Protection)

### Additional topics to expect next year:

- Low Impact Development 201
- IDDE Field Methods
- Getting in Step 101
- Construction Site Inspections 201
- Municipal Maintenance
- Evaluating Your MS4 Program
- Developing an effective SWPPP for construction sites
