

NATIONAL VEHICLE AND FUEL EMISSIONS LABORATORY

ANN ARBOR, MI 48105

August 17, 2026

IACD-2026-13 (HD Vehicles)

**SUBJECT: EV-CIS Updates to Heavy-Duty Tractor and Vocational Vehicle (HD Vehicle)
Certification Module Resulting from Endangerment Finding Recission**

Dear Manufacturer,

The purpose of this letter is to inform you that updates to the Heavy-Duty Tractor and Vocational Vehicle (HD Vehicle) Certification Module of the Engines and Vehicles – Compliance Information System (EV-CIS) were released on August 14, 2026. These updates were made in response to the rulemaking titled “Recission of the Greenhouse Gas Endangerment Finding and Motor Vehicle Greenhouse Gas Emission Standards Under the Clean Air Act” (91 FR 7686), which became effective April 20, 2026.

Rather than holding a webinar, we are providing the following resources for detailed information about the updates:

- As of August 17, 2026, the updated system documentation has been posted on the EPA website at: <https://www.epa.gov/ve-certification/system-documentation-onroad-heavy-duty-vehicles-engines-and-vehicles-compliance>.
- A presentation summarizing the EV-CIS updates has also been posted on the EPA website at: <https://www.epa.gov/ve-certification/presentations-about-heavy-duty-engine-and-vehicle-modules-engines-and-vehicles>.

If you have any questions, please contact Holly Pugliese at pugliese.holly@epa.gov.

Sincerely,

Byron J. Bunker, Director
Implementation, Analysis and Compliance Division
Office of Transportation and Air Quality
Office of Air and Radiation
