TECHNICAL SUPPORT SECTION CHEMISTRY REVIEW - II

Disinfectants Branch

EPA Reg. No. or File Symbol 38906 - RE
Date Division Received 3-13-84
Products Manager No. 32 (Castillo)
Product Name Danto BromTM RW
Company Name Glyco, Inc.

100.0 Comments:

- The ingredient statement is required on a front panel.
- Delete "Weight Percent" from above. The declared percentages, and entire "(%)" sign after each percent.
- Do not line up the percentages of the available bromine and available chlorine with the percent declared in the ingredient statement. It is misleading.
- The statement for the available bromine and available chlorine should be similar to:
"Provides 39.2% available bromine and 44.4% available chlorine," below the ingredient statement.
- Please submit the actual analysis and the calculations for the available bromine and available chlorine.
