Reg./File # : 164-511

Chemical Name: 1.3 Dichloropropene

Type Product : Nematocide

Product Name : Telone

Company Name : NA

Purpose : Provide estimate of number of persons potentially
exposed to Telone

Action Code: 800

EAB #(s) : 60624

Date Received: 5/22/86

TAIS Code: 61

Date Completed: 7/31/87

Total Reviewing Time: 0.5 day

Monitoring study requested: NA

Monitoring study voluntarily: NA

Deferrals to: Ecological Effects Branch
 Residue Chemistry Branch
 Toxicology Branch

Note on Telone submission:

The Special Review Branch submitted a request for an estimate of the number and category of persons exposed to Telone. This includes handlers, applicators and passive bystanders. Since estimation of such numbers is the purview of the Science Support Branch, BUD, this request should have been sent to them. SRB still needs this information even though the Registration Standard for Telone has been published. The attached memo is a request for BUD to determine the requested numbers and submit them directly to Bruce Kapner in SRB. The original request from SRB is attached for reference (EAB #60624).

Subject: Request for Estimate of Populations at Risk to
Telone Exposure

To: Arnold Aspelin, Chief
Science Support Branch, BUD (TS-768)

Attn: Niel Pelletier

From: ^{for} Robert Holst, Acting Chief *H. Jacoby*
Exposure Assessment Branch, HED (TS-769)

The Special Review Branch (SRB/RD) has requested EAB provide an estimate of populations at risk from Telone exposure (i.e. handlers, applicators, and passive bystanders). I believe that your staff (Niel Pelletier) is willing to provide information for SRB/RD (Bruce Kapner). This memorandum requests that you provide to SRB an estimate of populations at risk from Telone exposure directly to him.

If you have any questions, please contact Bruce Kapner of SRB. I appreciate your efforts in providing this information.
