MEMORANDUM

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

Subject: Incidence Report on the Use of Naled. Private Citizen Response.
Submitted October 30, 1987.
Tox. Project No.: 8-0607 Tox. Chem. No.: 586

To: W. Miller/D. Peacock
Product Manager # 16
Registration Division (TS-767C)

From: Judith W. Hauswirth, Ph.D. *Judith W. Hauswirth*
Section Head, Section VI
Toxicology Branch/HED (TS-769C) *5/2/88*

Thru: Theodore M. Farber, Ph.D., Chief
Toxicology Branch/HED (TS-769C) *M. Farber 5/5/88*

Action Requested: Comment on incidence report.

Comments: This incidence report is a letter from a private citizen. The report describes the symptoms seen in a 17 year old boy after he was exposed to Dibrom-14 (active ingredient Naled) which had been aerially sprayed in his home town. The reactions included cephalgia, shortness of breath, and stomach upset. Dibrom-14 was found in his blood.

Toxicology Branch has no comments on this report, but will note it in its files.
