The Retzloff Delta Company has requested registration of a new trifluralin technical produced by [REDACTED] Residue Chemistry Branch has written a memo dated October 9, 1986 in which they have analyzed the submitted information and the company responses to a list of deficiencies outlined in an earlier response to the firm.

After reviewing the list of impurities associated with the Retzloff product when compared to [REDACTED] we do not foresee an increased hazard associated with its use. However, before we make a final analysis of this new product we would like to see Residue Chemistry's concerns addressed especially concerning the [REDACTED] which could be of toxicological concern.
