BRIEF SUMMARY OF CONVERSATION Chemical 1-Naphthaleneacetamide (NA) Q - Will environmental chemistry data be needed if dosage is so low that one cannot determine the chemical? the use is a 1 time use on stripmin area for reseeding.			
ACTION TAKEN OR RECOMMENDED A - More than likely not based on 1. use (1 time deal) 2. Rat at 0.064 NA/A - 100 gal H ₂ O at 25 gal/A which is 0.016 NA/A. It was suggested that Amchem resubmit and ask for waiver of data then we would review this aspect. P I think we can waive data requirements on this but will have to discuss it after the request from Amchem.
