Toxicology Branch requests additional scientific evaluation by independent sources on the analysis of PCP teratogenic and fetotoxic effects of data submitted in PD-1 and a critique of the analysis of rebuttal evidence on pentachlorophenol submitted by registrants of PCP. The documents to be reviewed are: PCP PD-1, and the Analysis of Rebuttal evidence on PCP submitted to Toxicology Branch. It is requested that the documents be sent through HED personnel; Bill Stevens or Reto Engler. These persons have experience in this matter from previous RPAR chemicals.
