

068103
Date Out EAB: MAY 06 1986

To: G. Werdig
Product Manager 50
Registration Division (TS-767)

From: Samuel M. Creeger, Chief *SAC*
Environmental Chemistry Review Section 1
Exposure Assessment Branch
Hazard Evaluation Division (TS-769)

Attached please find the environmental fate review of:

Reg./File No.: _____

Chemical: Methylisothiocyanate

Type Product: _____

Product Name: _____

Company Name: _____

Submission Purpose: Response submission for GWDCI/

ACTION CODE: 495

Date In: 4/8/86

EAB # 6512

Date Completed: MAY 06 1986

TAIS (level II) Days

0.1

Deferrals To:

_____ Ecological Effects Branch

_____ Residue Chemistry Branch

_____ Toxicology Branch

Monitoring study requested by EAB: ☐

Monitoring study voluntarily conducted by registrant: ☐

INTRODUCTION:

The data package is incomplete, and therefore, cannot be fully screened to assess the leaching potential of Methylisothiocyanate. More information is needed. The data gaps are: Photolysis on Soil (161-3) and Anaerobic Soil Metabolism (162-2).

Therefore, the RD Data Review Record is being returned. We are retaining our hard copy of the fate data (composed of the previously sent incomplete data package) in our EAB files for easy access in the future. When the registrant submits the above studies and missing data, then the data package will be complete. Upon completion of the package, please submit the studies listed above. Those studies, in conjunction with those previously submitted, can then be fully screened.
