

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

MAR 13 1990

OFFICE OF  
PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

SUBJECT: WA-890034; Addendum to DEB Review dated 3/7/90.

FROM: Freshteh Toghrol Ph.D., Chemist  
Special Registration Section II  
Dietary Exposure Branch  
Health Effects Division (H-7509C)

*F. Toghrol*

THRU: Francis B. Suhre, Section Head  
Special Registration Section II  
Dietary Exposure Branch  
Health Effects Division (H-7509C)

*Francis B. Suhre*

TO: J. Miller PM - 23  
Herbicide/Fungicide Branch  
Registration Division (H-7505C)

Upon reconsideration of the issues involved with the 24(c) Registration WA-89-0034. DEB has concluded that a label restriction against treatment of seed-cabbage in the second year is not required to consider this a non-food use. Label restrictions are required to assure that the crop is not diverted to human or animal consumption in the first year.

DEB's previous recommendation for WA-890034 (F. Toghrol 3/7/90) is amended to: We have no objection to this 24(c) Registration.

Note to PM: This memo confirms our telephone discussion of 3/13/90 (F. Suhre, DEB and J. Miller, RD).

cc: Simazine S.F., R.F., Section 24(C), Circ., R. Schmitt, Branch Chief, F. Toghrol, PMSD/ISB.

RDI: F. B. Suhre (3/13/90): E. Zager: Deputy Chief (3/13/90).
