Subject: PP 5G1604 and FAP 5H5081
ORTHENE Insecticide (acephate)
Amendment of Section F

Mr. Charles L. Smith
Special Registrations Officer
Registration Division (WH-567)
Environmental Protection Agency
Washington, D.C. 20460

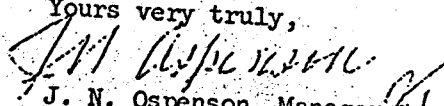

Dear Mr. Smith:

We have been advised that a revision of the tolerance requested for grape pomace should be made as follows:

15 ppm (of which no more than 2 ppm is O,S-dimethyl phosphoramidothioate)

Five copies of a revised Section F page which includes this change are attached. We trust that this will now permit establishment of the temporary tolerances requested.

Yours very truly,

J. N. Ospenson, Manager
Research and Development
