Thru: Acting Deputy Chief
Toxicology Branch, HED (TS-769) *B. Chan*

PM #25 has requested an addendum to Toxicology Branch's memo of 8/22/78 concerning nine tolerance petitions involving glyphosate. Chemistry Branch has completed their review of another glyphosate petition, PP8F2021, glyphosate on avocados. Thus the avocado petition can now be considered along with the petitions included in the referenced memo. Attached is a revised computer printout reflecting this change.
