MEMORANDUM

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

SUBJECT: Aquatic Studies on Label Recommended Surfactants
for Rodeo Aquatic Herbicide

FROM: Dennis J. McLane *Dennis J. McLane*
Ecological Effects Branch
Hazard Evaluation Division (TS-769-C)

*Reply necessary
for information
on 2/5/86*

THRU: Raymond Matheny, Head-Section 1 *Raymond W. Matheny*
Ecological Effects Branch
Hazard Evaluation Division (TS-769-C)

and

for Michael Slimak, Chief *Michael J. Slimak*
Ecological Effects Branch
Hazard Evaluation Division (TS-769-C)

TO: Robert Taylor/ Vickie Walters PM Team 25
Registration Division (TS-767-C)

Thank you for obtaining the subject studies. Ecological Effects Branch has decided not to validate the studies since, as Monsanto points out, 40 CFR Part 158 does not require these types of studies. In addition, the studies indicate minimal hazard would be expected from these surfactants.
