

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

APR 14 1981

DATE: April 10, 1981

SUBJECT: Oryzalin, request for Petitioner to supply references (journal articles or book excerpts) cited in the 2-year rat feeding study report (Acc. No. 099517).

FROM: Mary L. Quaife, Ph.D., TB/HED (TS-769)

WLB, 4/10/81

623A

TO: Mr. Robert Taylor, PM
Registration Division (TS-767)

WLB/RBA
4/10/81

THROUGH: Mrs. C. Chaisson, Acting Chief
Toxicology Branch/HED (TS-769)

WLB

PP No. 6F1859
Reg. No's. 1471-96 and 112

Eli Lilly and Company
Indianapolis, Indiana
46206

The following request is made in order to help evaluate Petitioner's claim that the anti-thyroid effects shown in the rat, 2-year feeding study on Oryzalin are not applicable to man, i.e., would not occur in human beings who are exposed to Oryzalin:

Petitioner is asked to supply two copies of each of the references listed in Acc. No. 099517, pp. 27-28 (references nos. 1-14, inclusive).

WLB 4/10/81
